Ireland's Wild Atlantic Way Gill

Searching for the Ireland of his youth, James Kelly travels a section of the Wild Atlantic Way from Galway to Dingle by bicycle...with a teddy bear called Kieran. The aim of the trip was to see if the Ireland of James' childhood was still around, and more importantly, if the fabled warm Irish-welcome to strangers still exists. Their journey starts in Dublin then snakes along the gorgeous west coast of Ireland, taking in some wonderful sights on the way. Finally they end up in a bar in Tralee, dancing the night away. This book follows the misadventures they have on the journey. The people they meet, the places they visit, and their struggle with the Irish weather. There are many travel books, memoirs and novels about Ireland. But there's only one adventure with A Bear, A Bike And The Wild Atlantic Way.

When I first had the thought for this book one of my reasons for writing it was so I could entitle it the "You do Know you Will Get Wet" tour, yeah sad I know but it made me smile. In the end this pithy title had to go because it was just too easy a target to hit. Everyone goes on about the rain in Ireland whilst missing the point that if it didn't rain so much it wouldn't be quite so bloody beautiful, and beautiful it is. In fact we toured the entire length of the Wild Atlantic Way and only got wet twice, and on neither occasion did it rain hard enough to get past our skin. Anyway if you are that bothered about the rain you wouldn't own a motorbike in the first place now would you? The other thing that has become something of a cliché is how friendly the people are. I can confirm that cliché is, in actual fact, true. Look if you want a book telling you where to go, what must see places you have to visit and a detailed itinerary for every minute of the day on your tour put this down now because this isn't the book for you. Sure there are places mentioned in here and it will explain how we filled each day of our tour around the coast of Ireland but that was our tour, yours should and will be different. One thing that will be the same though, unavoidable in fact, is that you will come home staggered by the sheer beauty of this Island and the welcome of its people. Oh yeah one final point, the pictures in here are printed in black and white (paperback edition, the kindle edition is in colour and has far more pictures) to keep the cost down for you. I mean why spend a fortune on a book just to get colour pictures when you are going to see them in the flesh? And you better go my mate or you will be missing out on one amazing road trip, seriously.

Following the spirit of the world's longest coastal driving route, Paul Clements sets out to discover the real west of Ireland. Along the way he encounters memorable characters living on the Atlantic edge and presents a unique portrait of their lives. We meet the last man standing on a remote Galway island, listen to the banter at Puck Fair, and hear from a descendant of the original sixteenth-century wild Atlantic woman. Tagging along on his meandering journey is the swashbuckling presence of the Celtic sea god, Manannán Mac Lir. For his first travel book in 1991, Paul hitchhiked the same route. Now retracing his steps along the Wild Atlantic Way – this time by car and bike, on horseback and on foot – he looks at how Ireland has changed and realises everyone still has a story to tell. Laced with wry humour and endless curiosity, this is a distinctive mix of travel writing, social history and nature. Also by this author: 'The Height of Nonsense: The Ultimate Irish Road Trip' Praise for this author: "Stacks of free copies should be sent to all our tourist desks abroad." – The Irish Times. "For sheer pleasure, nothing I read beat Paul Clements' 'The Height of Nonsense'." – The Observer. "A compulsive, educational, laugh-out-loud read." – Sunday Independent. "A fascinating journey around the hidden corners of Ireland." – BBC Radio

*Another Life* PadPlaces

Almost every couple faces a “now

what?” moment as their last kid moves out of the house. There’s a big empty nest looming over this new and uncertain stage in their lives. David and Veronica James chose to look at this next phase of life as a beginning instead of an ending. Rather than staying put and facing the constant reminders of empty bedrooms and backseats, a plan began to develop to sell the nest and hit the highway. But could a homebody helicopter mom learn to let go of her heartstrings and house keys all at once? Filled with a sense of adventure and humor, *Going Gypsy* is the story of a life after raising kids that is a celebration of new experiences. Pulling the rip cord on the daily grind, David and Veronica throw caution to the wind, quit their jobs, sell their house, put on their vagabond shoes, and go gypsy in a beat-up old RV found on eBay. On a journey of over ten thousand miles along the back roads of America (and a hysterical, error-infused side trip into Italy), they conquer old fears, see new sights, reestablish bonds with family and friends, and transform their relationships with their three grown children from parent-child to adult-to-adult. Most importantly, they rediscover in themselves the fun-loving youngsters who fell in love three decades prior.
