An Irish police detective must juggle multiple murder cases when macabre clues start appearing . . . Detective Garda Sergeant Mike West just wants to take a break and settle down with his fiancée. But now two new cases have come in: A hit and run in which the victim’s family is acting suspiciously, and a missing woman found dead with the post-mortem suggesting foul play. It only gets worse when human body parts start turning up. Everybody avoids using the words serial killer—but West fears that if he can’t make some progress, someone else is bound to die . . . [Blind Eye](#) Simon and Schuster

A missing son. A kidnapper who’s dead. Nobody believes her. Nothing will stop her.

**The Case of the Murderous Dr. Cream** Ballantine Books

“Detailed courtroom narratives . . . give us a colorful and gripping sense of the life-and-death maneuvers involved in mounting an insanity defense.” —Andrew Scull, author of *Madness in Civilization* Shortly before she pushed her infant daughter headfirst into a bucket of water and fastened the lid, Annie Cherry warmed the pail because, as she later explained to a police officer, “It would have been cruel to put her in cold water.” Afterwards, this mother sat down and poured herself a cup of tea. At Cherry’s trial at the Old Bailey in 1877, Henry Charlton Bastian, physician to the National Hospital for the Paralyzed and Epileptic, focused his testimony on her preternatural calm following the drowning. Like many other late Victorian medical men, Bastian believed that the mother’s act and her subsequent behavior indicated homicidal mania, a novel species of madness that challenged the law’s criterion for assigning criminal culpability. How did Dr. Bastian and his cohort of London’s physicians, surgeons, and apothecaries—originally known as “mad-doctors”—arrive at such an innovative diagnosis, and how did they defend it in court? *Mad-Doctors in the Dock* is a sophisticated exploration of the history of the insanity defense in the English courtroom from the middle of the eighteenth century to the early twentieth century. Joel Peter Eigen examines courtroom testimony offered in nearly 1,000 insanity trials, transporting us into the world of psychiatric diagnosis and criminal justice. The first comprehensive account of how medical insight and folk psychology met in the courtroom, this book makes clear the tragedy of the crimes, the spectacle of the trials, and the consequences of the diagnosis for the emerging field of forensic psychiatry.

“Peter Spiegelman’s *Dr. Knox* is a bruised wonder of a crime novel. Filled with page-turning intrigue and an L.A. atmosphere so richly rendered you can practically smell the ‘eucalyptus and dust,’ it is both thrilling and rueful, harrowing and moving. DON’T MISS IT” —Megan Abbott, award-winning author of *The Fever* From the author of *Red Cat* and *Thick as Thieves*: a gripping new thriller about a medical doctor with a powerful humanitarian impulse, an unhealthy appetite for risk, and a knack for finding himself between a rock and a hard place. Adam Knox comes from a long line of patrician Connecticut doctors—a line he broke to serve with an NGO in the war-torn Central African Republic. His attempt to protect his patients there from a brutal militia ended in disaster and disgrace, and now he runs a clinic near Los Angeles’s Skid Row, making ends meet by making house calls—cash only, no questions asked—on those too famous or too criminal to seek other medical care. When a young boy is abandoned at his clinic, Knox is determined to find the boy’s family and save him from the not-so-tender mercies of the child welfare bureaucracy. But Knox’s search for the volatile woman who may or may not be the boy’s mother leads him and his friend, a former Special Forces operator, into a labyrinth of human traffickers, Russian mobsters, and corporate security thugs; and squarely into the sights of a powerful, secretive, and utterly ruthless family that threatens to destroy Dr. Knox and everything—and everyone—he holds dear. *Dr. Knox* Algonquin Books

A medical thriller from Pulitzer Prize-winning author James B. Stewart about serial killer doctor Michael Swango and the medical community that chose to turn a blind eye on his criminal activities. No one could believe that the handsome young doctor might be a serial killer. Wherever he was hired—in Ohio, Illinois, New York, South Dakota—Michael Swango at first seemed the model physician. Then his patients began dying under suspicious circumstances. At once a gripping read and a hard-hitting look at the inner workings of the American medical system, *Blind Eye* describes a professional hierarchy where doctors repeatedly accept the word of fellow physicians over that of nurses, hospital employees, and patients—even as horrible truths begin to emerge. With the prodigious investigative reporting that has defined his Pulitzer Prize-winning career, James B. Stewart has tracked down survivors, relatives of victims, and shaken coworkers to unearth the evidence that may finally lead to Swango’s conviction. Combining meticulous research with spellbinding prose, Stewart has written a shocking chronicle of a psychopathic doctor and of the medical establishment that chose to turn a blind eye on his criminal activities.

“Charlotte Bismuth gives us a bold and cinematic true crime story about her work at the intersection of medicine and greed. *Bad Medicine* is a gripping memoir that toggles deftly between the personal and prosecutorial.” —Beth Macy, New York Times bestselling author of *Dopesick* “Bismuth has written a brilliant account of prosecuting a doctor who became a drug dealer in a white coat. She is haunted by the voices of the dead and listening closely to the voices of the living.” —Nan Goldin, artist, activist, and founder of P.A.I.N. “*Bad Medicine* is a taut exploration of America’s deadly battle with opioid addiction—an unnerving and inspirational firecracker of a book.” —Karen Abbott, New York Times bestselling author of *The Ghosts of Eden Park* For fans of *Dopesick* and *Bad Blood*, the shocking story of New York’s most infamous pill-pushing doctor, written by the prosecutor who brought him down. In 2010, a brave whistleblower alerted the police to Dr. Stan Li’s corrupt pain management clinic in Queens, New York. Li spent years supplying more than seventy patients a day with oxycodone and Xanax, trading prescriptions for cash. Emergency room doctors, psychiatrists, and desperate family members warned him that his patients were at risk of death but he would not stop. In *Bad Medicine*, former prosecutor Charlotte Bismuth meticulously recounts the jaw dropping details of this criminal case that would span four years, culminating in a landmark trial. As a new assistant district attorney and single mother, Bismuth worked tirelessly with her team to bring Dr. Li to justice. *Bad Medicine* is a chilling story of corruption and greed and an important look at the role individual doctors play in America’s opioid epidemic.

Something bad is brewing among a friendly group of book lovers: “A deliciously Agatha Christie-style mystery that sucks you in from the first page.” —Sibel Hodge, bestselling author of *Look Behind You* Imagine nine women meeting. Tea and cake are on the coffee table. They’ve come together to share their love of books. They are friends. They trust each other. It’s a happy gathering. What could be more harmless? Then scratch the surface and look closer. One is lonely. One is desperate. And one of them is a killer. When the body of a woman is discovered on a Cambridge common, DCI Barrett and DI Palmer are called in to investigate. But the motive behind the crime isn’t clear—and it all leads back to a book club. As the lies, volatile friendships, and tension among the group rise to the surface, DCI Barrett and DI Palmer must work out the motive and track down a cold-blooded killer. But just when they think they’re on the right track, a twist in the plot throws them off course . . . “Will keep readers guessing till the very end!” —J.A. Baker, bestselling author of *The Other Mother* “A deliciously devilish whodunit!” —Robert Bryndza, bestselling author of the Detective Erika Foster series

**Doc: The Rape of the Town of Lovell** St Martins Press

“A tour de force of storytelling.” —Louise Penny, #1 New York Times bestselling author of the Chief Inspector Gamache series “Jobb’s excellent storytelling makes the book a pleasure to read.” —The New York Times Book Review “When a doctor does go wrong he is the first of criminals,” Sherlock Holmes observed during one of his most baffling investigations. “He has nerve and he has knowledge.” In the span of fifteen years, Dr. Thomas Neill Cream murdered as many as ten people in the United States, Britain, and Canada, a death toll with almost no precedent. Poison was his weapon of choice. Largely forgotten today, this villain was as brazen as the notorious Jack the Ripper. Structured around the doctor’s London murder trial in 1892, when he was finally brought to justice, *The Case of the Murderous Dr. Cream* exposes the blind trust given to medical practitioners, as well as the flawed detection methods, bungled investigations, corrupt officials, and stifling morality of Victorian society that allowed Dr. Cream to prey on vulnerable and desperate women, many of whom had turned to him for medical help. Dean Jobb transports readers to the late nineteenth century as Scotland Yard traces Dr. Cream’s life through Canada and Chicago and finally to London, where new investigative tools called forensics were just coming into use, even as most police departments still scoffed at using science to solve crimes. But then, most investigators could hardly imagine that serial killers existed—the term was unknown. As the Chicago Tribune wrote, Dr. Cream’s crimes marked the emergence of a new breed of killer: one who operated without motive or remorse, who “murdered simply for the sake of murder.” For fans of Erik Larson’s *The Devil in the White City*, all things Sherlock Holmes, or the podcast *My Favorite Murder*, *The Case of the Murderous Dr. Cream* is an unforgettable true crime story from a master of the genre.

"Dark, twisted, and remarkably clever. Trace Conger is establishing himself as one of the most original voices in crime fiction." - Gregory Petersen, author of Open Mike. "The Mr. Finn series breathes new life into the P.I. genre...These are some of the most fully realized characters I've encountered in a long time, and this is one of the best detective series I've ever read." - Gumshoes, Gats and Gams "Conger's writing is direct. It moves clearly and quickly, perfect for thrillers... With Finn, Conger has created a distinctive and most likely enduring main character..." - Ronald Tierney, author of the Deets Shanahan Mysteries. *Dead Flowers* Vintage Crime/Black Lizard

Award Winner! For twenty-five years, the trusted family doctor in a small Wyoming town had been raping and molesting the women and children who most relied on him. Mostly Mormons, the naive victims sometimes realized on their wedding nights the truth about what had happened in Dr. Story's office. In riveting detail, veteran crime writer Jack Olsen tells the searing story of a small group of courageous women who decided to bring a doctor to justice — and unearthed a legacy of pain and anger that would divide their families, their neighbors, and an entire town Publishers Weekly: This masterful book by the author of *Son*, as much a searching sociological study as a true-crime narrative, tells what happened in Lovell when these happenings came to light: the community lost its bearings and the doctor was convicted of rape. Kirkus: From popular true-crime veteran Olsen (*Son*; *Cold Kill*; etc.), the widely publicized case that tore a small Wyoming town apart when the local doctor was accused, then convicted, of raping patients under the guise of giving them pelvic examinations. Lowell, Wyoming, was a town divided largely along religious lines: a Mormon majority and a Baptist minority. When Dr. John Story arrived to start up a practice, he found a warm welcome: a doctor was needed and, though he was a Baptist, his strict habits (which led him to start his own, more fundamentalist church) won the respect of Mormons who flocked to him as patients. But in 1983, after years of suspicions they had tried to dismiss, two sisters came forward with accusations of rape, inspiring dozens of other women (some elderly) to at last speak up. Some victims had been silent because of the Mormon code that seemed to hold women responsible for any extramarital sex; others had taken their case to the police (and not been believed), to Church leaders (who told them to switch doctors), and to the medical association (which did nothing). The 1983 accusers were vilified by the town (even by many Mormons, some grateful for Story's medical care, others sensitive to his claim that the case was a Mormon conspiracy); some lost their jobs and businesses, but Story was eventually convicted and is now doing 15-20 years. Engrossing true drama--and a more balanced than usual picture of Mormon life and values. The award-winning author of thirty-three books, Jack Olsen's books have published in fifteen countries and eleven languages. Olsen's journalism earned the National Headliners Award, Chicago Newspaper Guild's Page One Award, commendations from Columbia and Indiana Universities, the Washington State Governor's Award, the Scripps-Howard Award and

other honors. He was listed in Who's Who in America since 1968 and in Who's Who in the World since 1987. The Philadelphia Inquirer described him as "an American treasure." Olsen was described as "the dean of true crime authors" by the Washington Post and the New York Daily News and "the master of true crime" by the Detroit Free Press and Newsday. Publishers Weekly called him "the best true crime writer around." His studies of crime are required reading in university criminology courses and have been cited in the New York Times Notable Books of the Year. In a page-one review, the Times described his work as "a genuine contribution to criminology and journalism alike."

'I was gripped immediately' Katerina Diamond, Sunday Times bestseller How much do you know about the couple next door?

*Slow Bleed* Wildfire

Be careful who you trust. The Mailer family are oblivious to the terrible danger that enters their lives when seven-year-old Anthony is referred to the child guidance service by the family GP following the breakdown of his parents' marriage. Fifty-eight year old Dr. David Galbraith, a sadistic, predatory paedophile employed as a consultant child psychiatrist, has already murdered one child in the soundproofed cellar below the South Wales Georgian townhouse he shares with his wife and two young daughters. Anthony becomes Galbraith's latest obsession and he will stop at nothing to make his grotesque fantasies reality. A note from the author: While fictional, this book was inspired by true events. It draws on the author's experiences as a police officer and child protection social worker. The story contains content that some readers may find upsetting. It is dedicated to survivors everywhere. \*Previously published as *White is the Coldest Colour*\*

*The Plague Doctor* Minotaur Books

In Robert Pobi's thriller *Do No Harm*, a series of suicides and accidental deaths in the medical community are actually well-disguised murders and only Lucas Page can see the pattern and discern the truth that no one else believes. Lucas Page is a polymath, astrophysicist, professor, husband, father of five adopted children, bestselling author, and ex-FBI agent—emphasis on "ex." Severely wounded after being caught in an explosion, Page left the FBI behind and put his focus on the rebuilding the rest of his life. But Page is uniquely gifted in being able to recognize patterns that elude others, a skill that brings the F.B.I. knocking at his door again and again. Lucas Page's wife Erin loses a friend, a gifted plastic surgeon, to suicide and Lucas begins to realize how many people Erin knew that have died in the past year, in freak accidents and now suicide. Intrigued despite himself, Page begins digging through obituaries and realizes that there's a pattern—a bad one. These deaths don't make sense unless the doctors are being murdered, the target of a

particularly clever killer. This time, the FBI wants as little to do with Lucas as he does with them so he's left with only one option—ignore it and go back to his normal life. But then, the pattern reveals that the next victim is likely to be...Erin herself.

[Do No Harm](#) Boldwood Books Ltd

A mysterious death in respectable society: a brilliant historical true crime story In 1849, a woman called Ellen Langley died in Nenagh, Co. Tipperary. She was the wife of a prosperous local doctor. So why was she buried in a pauper's coffin? Why had she been confined to the grim attic of the house she shared with her husband, and then exiled to a rented dwelling-room in an impoverished part of the famine-ravaged town? And why was her husband charged with murder? Following every twist and turn of the inquest into Ellen Langley's death and the trial of her husband, *The Doctor's Wife is Dead* tells the story of an unhappy marriage, of a man's confidence that he could get away with abusing his wife, and of the brave efforts of a number of ordinary citizens to hold him to account. Andrew Tierney has produced a tour de force of narrative nonfiction that shines a light on the double standards of Victorian law and morality and illuminates the weave of money, sex, ambition and respectability that defined the possibilities and limitations of married life. It is a gripping portrait of a marriage, a society and a shocking legal drama. 'An astonishing book ... a vivid chronicle of the unspeakable cruelty perpetrated by a husband on his spouse at a time when, in law, a wife was a man's chattel' Damian Corless, Irish Independent 'Opens in gripping style and rarely falters ... fascinating and well researched' Mary Carr, Irish Mail on Sunday (5 stars) 'Truly illuminating ... Tierney's exploration of the case's influence on Irish and English lawmaking and literature is particularly intriguing, drawing comparisons with Kate Summerscale's similar work in *The Suspicions of Mr Whicher*' Jessica Traynor, Sunday Times 'Riveting ... meticulously researched and deftly told' Irish Examiner 'A nonfiction work with the pulse of a courtroom drama ... Tierney's book is a moving account of Ellen Langley's squalid last days, but it's also a study of Famine-era Irish society. Men dominate, be they grimly professional gents in tall hats and grey waistcoats or feckless scoundrels using women as chattel' Peter Murphy, Irish Times 'A dark tale of spousal abuse, illicit sex and uncertain justice, set against a backdrop of poverty and privilege, marital inequality and the deep religious divide between Catholics and Protestants. Tierney is an archaeologist, and his skill in unearthing the past is on display as he digs deep into the historical record of a murder case so shocking and controversial that it was debated in parliament. ... Tierney writes with passion ... and deftly weaves a plot that's filled with surprising twists and turns' History Ireland
