This book takes the mystery out of the sewing machine, holding first-time stitchers by the hand and showing the easiest ways to get the most from their machine. This book takes the mystery out of the sewing machine, holding first-time stitchers by the hand and showing the easiest ways to get the most from their machine. In the climate of "make do and mend," sales of sewing machines have soared, but many are only accompanied by a difficult-to-understand technical manual. Here, Jane Bolsover provides a comprehensive guide for beginners. Starting with an essential overview of the sewing machine, learn how to thread it and wind bobbins, why tension is important, and which needles to choose. There's information on the basic sewing kit you will need, plus advice on which fabrics to choose and how to cut out. The chapters then build into a complete sewing course, and at the end of each chapter is a simple project to consolidate the skills you have just mastered. The projects include items for the home, including a cushion cover and a lampshade, stylish accessories, such as bags and scarves, plus great clothing basics, such as an A-line skirt and a simple shift dress. Also included at the back of the book are two full-size pull-out paper pattern sections.

Fidel Castro is one of the most interesting and controversial personalities of our time – he has become a myth and an icon. He was the first Cuban Caudillo – the man who freed his country from dependence on the USA and who led his people to rediscover their national identity and pride. Castro has outlived generations of American presidents and Soviet leaders. He has survived countless assassination attempts by the CIA, the Mafia, and Cubans living in exile. He has become one of the greatest politicians of the 20th Century. His biography, and the history of his country exemplify the tensions between East and West, North and South, rich and poor. As Castro's life draws to a close, the question as to what will become of Cuba is more important than ever. Will Castro open Cuba to economic reform and democratization, or stick to his old slogan socialism or death? In this remarkable, up-to-date reconstruction of Castro's life, Volker Skierka addresses these questions and provides an account of the economic, social, and political history of Cuba since Castro's childhood. He draws on a number of little-known sources, including material from the East German communist archives on Cuba, which were until recently inaccessible. This is an exciting,

painstakingly researched, and authoritative account of the life of one of the most extraordinary political figures of our time.

Bhupen Khakhar (1934–2003) was active in India from the late 1960s. A gentle radical, his luminous paintings addressed issues of class, gender and sexuality with sensitive, often tragicomic nuance. This publication presents a fresh take on his artistic, social and spiritual interests. Significant essays on Khakhar's artistic influences are accompanied by focused responses to key works by leading writers, curators and artists. Khakhar's unique voice is revealed in excerpts from the last interview before his death in 2003, and in a facsimile reproduction of the artist's book *Truth is Beauty and Beauty is God*, out of print since 1972. With personal and touching contributions by those who knew him, this richly illustrated publication is an essential reference to one of the most compelling and unique voices in twentieth-century art, as well as a significant contribution to the field of international modernism. 0Exhibition: Tate Modern, London, UK (01.06-06.11.2016) / Deutsche Bank Kunsthalle, Berlin, Germany (18.11.2016-06.03.2017).
