New Images of Nazi Germany Oxford
University Press, USA

The fourteen chapters in this anthology feature original analyses of contemporary German-language literary texts, films, political cartoons, cabaret, and other types of performance. The artworks display a wide spectrum of humor modes, such as irony, satire, the grotesque, Jewish humor, and slapstick, as responses to unification with the accompanying euphoria, but also alienation and dislocation. Kerstin Hensel's Lärchenau, Christoph Hein's Landnahme, and vignette collections by Jakob Hein (Antrag auf ständige Ausreise und andere

Mythen der DDR) and Wladimir Kaminer (Es gab keinen Sex im Sozialismus) are interpreted as examples of the grotesque. The popular films Lola rennt, Sonnenallee, Herr Lehmann, NVA, Alles auf Zucker!, and Mein Führer—Die wirklich wahrste Wahrheit über Adolf Hitler are reexamined through the lens of traditional and more recent humor or comic book theories. The contributors focus on how each artwork enriches four prominent postwall German cultural trends: post-unification identity reconstruction, Vergangenheitsbewältigung (including Hitler humor), New German Popular Literature (Christian Kracht's ironic subtexts), and immigrant perspectives (a "third voice" in the East-West binary reflected here pointedly in Eulenspiegel

cartoons). To date, no other scholarly work provides as comprehensive an overview of the diverse strategies of humor used in the past two decades in German-speaking countries.

This book covers the essentials of Computational Science and gives tools and techniques to solve materials science problems using molecular dynamics (MD) and first-principles methods. The new edition expands upon the density functional theory (DFT) and how the original DFT has advanced to a more accurate level by GGA+U and hybrid-functional methods. It offers 14 new worked examples in the LAMMPS, Quantum Espresso, VASP and MedeA-VASP

programs, including computation of stress-strain behavior of Si-CNT composite, mean-squared displacement (MSD) of ZrO₂-Y₂O₃, band structure and phonon spectra of silicon, and Mo-S battery system. It discusses methods once considered too expensive but that are now cost-effective. New examples also include various post-processed results using VESTA, VMD, VTST, and MedeA.

While it may seem impossible to imagine, LL Cool J didn't always have a diesel body—he chiseled it the old-fashioned way, with hard work and discipline.

Together with his longtime trainer, Dave

"Scooter" Honig, LL developed a revolutionary workout system that not only burns away body fat for good but also built the amazing muscle and flawless physique you see in every one of his latest music videos. In LL Cool J's Platinum Workout, LL let you in on the secrets of his transformation with his uniquely creative, yet no-nonsense regimen—enlivened with humor and sheer force of personality—he will inspire you to enjoy working out as never before, while building a body you never thought possible. LL Cool J and Scooter Honig blend standard free-weight lifts, plyometrics, fighters' moves, calisthenics, endurance training, and much more to create what they call their "combination platter"—a highly effective, dynamic, and diversified total-body workout. Whether you are just starting a program or looking to get to the next level, you can choose from four levels of fitness, from Bronze to Platinum, including:

- THE BRONZE BODY: A 4- week beginners' program that will take inches off your waist and boost your energy.
- THE SILVER BODY: A 5-week program for intermediates that increases strength while also maintaining muscular and

cardiovascular endurance. - THE GOLD BODY: An advanced 9-week program that turns the body into a muscle-building fat-burning machine—complete with six-pack abs and as much energy as LL Cool J. - THE PLATINUM BODY: A hard-core 3-week fat-torching program LL used to prepare for his "Control Myself" video—a new level in ripped-to-the-bone fitness and sex appeal. - PLUS, THE DIAMOND BODY: A special 4-week program for women who want to shape up fast for summer or a special event. Jam-packed with photos of LL demonstrating exercises and complete with meal plans and recipes that will fuel your workouts while promoting fat loss, LL Cool J's Platinum Workout will transform your body and the way you think about exercise—for life.

Donald Sanders had unprecedented access to the stars of Charlies Angels in their 1st season. The photos shared in this scrapbook catch each Angel in unguarded moments and clearly comfortable with their photographer. While only working with the 1st season actresses, Farrah Fawcett, Jaclyn Smith and Kate Jackson,

Donald was also a still photographer on the ABC morning show Good Morning America. There he was able to photograph Angels Cheryl Ladd, Shelley Hack and even Bos himself, David Doyle. The scrapbook lets the photos speak for themselves, yet Donald shares some insight to each of the actresses.

Bridges the gap between the history and theory of twentieth-century architecture and cultural theories of modernity. In this exploration of the relationship between modernity, dwelling, and architecture, Hilde Heynen attempts to bridge the gap between the discourse of the modern movement and cultural theories of modernity. On one hand, she discusses architecture from the perspective of critical theory, and on the other, she modifies positions within critical theory by

linking them with architecture. She assesses architecture as a cultural field that structures daily life and that embodies major contradictions inherent in modernity, arguing that architecture nonetheless has a certain capacity to adopt a critical stance vis-à-vis modernity. Besides presenting a theoretical discussion of the relation between architecture, modernity, and dwelling, the book provides architectural students with an introduction to the discourse of critical theory. The subchapters on Walter Benjamin, Ernst Bloch, Theodor Adorno, and the Venice School (Tafuri, Dal Co, Cacciari) can be studied independently for this purpose.

The Flamethrower Walter de Gruyter Regio Esercito: the Italian Royal Army in Mussolini's Wars 1935-1943. Foreword by Colonel John R. Griffin (retired), US Army Special Forces. A history of the Italian Army's campaigns in East Africa, Spain, North Africa, Greece, Yugoslavia, Russia, and Sicily. Sources include Italian, Russian, Yugoslav, and German texts; includes translated Russian passages. Mr. Cloutier brings attention to Italian battlefield successes. He examines a few strategic

situations of World War 2, and holds that Italian forces at times were a key asset, whose misuse by the Axis cost them important victories. New material on the Spanish Civil War and Russian Front. Black and white; 232 pages, 76 maps, 70 photos, 19 drawings, appendix, and photo annex; 353 footnotes.

I'm Off Then has sold more than three million copies in Germany and has been translated into eleven languages. The number of pilgrims along the Camino has increased by 20 percent since the book was published. Hape Kerkeling's spiritual journey has struck a chord. Overweight, overworked, and disenchanting, Kerkeling was an unlikely candidate to make the arduous pilgrimage across the Pyrenees to the Spanish shrine of St. James, a 1,200-year-old journey undertaken by nearly 100,000 people every year. But he decided to get off the couch and do it anyway. Lonely and searching for meaning along the way, he began the journal that turned into this utterly frank, engaging book. Filled with unforgettable characters, historic landscapes, and Kerkeling's self-

deprecating humor, I'm Off Then is an inspiring travelogue, a publishing phenomenon, and a spiritual journey unlike any other.

With its battlefields paved over and its bunkers crumbled, the Third Reich of Nazi Germany nevertheless lives on in countless photographs that record an era of extraordinary brutality. This collection of more than 500 photographs taken by amateurs and professional propagandists provides a panoramic overview of Nazi Germany, offering intimate glimpses into living rooms and killing grounds, kitchens

and concentration camps, movie theaters and battle fronts. The explanatory text explores the context of the images.

Together, these photographs, most never before seen, create a time capsule, capturing the faces of Hitler's soldier's as well as those who suffered under the Nazi onslaught on humanity.

Channel Surfing: Charlie's Angles (originally The Q Guide: Charlie's Angles) contains over 70 new pages including a Q&A with Kate Jackson, Shelley Hack memories; Toy Guide; Quickie Episode Guide; new co-star interviews (Judy & Audrey Landers, Brian Cutler (Deputy Dan); Alan Feinstein; Harvey Jason (Alvin); Lee Delano; Cissy Wellmen, PLUS a rare interview with Cis Rundle, Cheryl Ladd's series stuntwoman! Once upon a time, there were six little Angels who worked for a detective agency, reporting to a mysterious man named Charlie! Charlie's Angels made over-night stars of Farrah Fawcett, Kate Jackson, Jaclyn Smith, Cheryl Ladd, Shelley Hack and Tanya Roberts. Because of the bikinis and plunging necklines, "Jiggle TV" became a

new vernacular expression. At the same time, Charlie's Angels expanded the boundaries of the role women played on television proving that women could do anything that a man could. Author Mike Pingel goes undercover to explore the hit TV detective show Charlie's Angels and what made it such an iconic sensation. "Channel Surfing: Charlie's Angels" includes interviews with Farrah Fawcett, Jaclyn Smith, Cheryl Ladd, Tanya Roberts and Executive Producer, Leonard Goldberg. It goes behind-the-scenes, highlighting angelic cases and filming locations. It's packed with interviews of exciting guest stars. It has an in-depth look at merchandising from bubble gum cards to magazines to posters to heavenly toys. Not a single cloud is left unturned in this must-have Charlie's Angels book. Foreword by Tanya Roberts, who played Julie Rogers on the final season of the series.

Animals that Saw Me Little, Brown
Roaming the natural and urban world with a camera for over 16 years, often alone, on foot and keeping a low profile, Ed Panar has repeatedly been caught in the act of photography--not by other people, but by

a random assortment of familiar animals: cows, cats, frogs, dogs, turtles, deer, geese. The animal sees Ed; Ed sees the animal. An unspoken message passes between them. If the photographer is lucky, the moment is captured on film, cataloged and tagged for future reference. In *Animals That Saw Me (Volume One)*, Panar brings together the first collection of his most surprising and unexpected encounters with ordinary beasts--a brief, beautifully deadpan field study of the uncanny moment of recognition between species. What exactly have these animals seen? Panar's photographs serve as a reminder that we must appear at least as strange to them as they do to us.

Game of Thrones: A Guide to Westeros and Beyond McGraw Hill Professional

The remarkable true story of Chesley "Sully" Sullenberger's heroic crash landing in the Hudson River, as told by the passengers who owe him their lives. Millions watched the aftermath on television, while others witnessed the event actually happening from the windows of nearby skyscrapers. But only 155 people know firsthand what really happened on U.S. Airways Flight 1549 on January 15, 2009. Now, for the first time, the survivors detail their astounding,

terrifying, and inspiring experiences on that freezing winter day in New York City. Written by two esteemed journalists, *Miracle on the Hudson* is the entire tale from takeoff to bird strike to touchdown to rescue, seen through the eyes and felt in the souls of those on board the fateful flight. Revealing many new and compelling details, *Miracle on the Hudson* dramatically evokes the explosion and "smell of burning flesh" as both engines were destroyed by geese, the violent landing on the river that felt like a "huge car wreck," the gridlock in the aisles as the plane filled swiftly with freezing water, and the thrill of the passengers' rescue from the wings and from rafts—all of it recalled by the "cross section of America" on board. Jay McDonald, a thirty-nine-year-old software developer, had survived brain-tumor surgery just two years earlier and now faced the unimaginable. Tracey Wolsko, a nervous flier, suddenly became other people's rock: "Just pray. It's going to be all right." Jim Whitaker, a construction executive, reassured a nervous mother of two young children on board, only later admitting, "I was pathologically lying the whole time." As

the plane started sinking, Lucille Palmer, eighty-five, told her daughter to save herself: "Just leave me!" Featuring much more than what the media reported—moments of chaos in addition to stoicism and common sense, and the fortuitous mistakes and quick instincts that saved lives that otherwise would have been lost—*Miracle on the Hudson* is the chronicle of one of the most phenomenal feel-good stories of recent years, one that could have been a nightmare and instead became a stirring narrative of heroism and hope for our times.

Emphasising essential methods and universal principles, this textbook provides everything students need to understand the basics of simulating materials behaviour. All the key topics are covered from electronic structure methods to microstructural evolution, appendices

provide crucial background material, and a wealth of practical resources are available online to complete the teaching package. Modelling is examined at a broad range of scales, from the atomic to the mesoscale, providing students with a solid foundation for future study and research. Detailed, accessible explanations of the fundamental equations underpinning materials modelling are presented, including a full chapter summarising essential mathematical background. Extensive appendices, including essential background on classical and quantum mechanics, electrostatics, statistical thermodynamics and linear elasticity, provide the background necessary to fully engage with the fundamentals of computational modelling. Exercises, worked examples, computer codes and discussions of practical implementations methods are all provided online giving students the hands-on experience they need.

Having left motor racing in the early 1950s - at least officially - Alfa Romeo returned to

the sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those were the strong points of this car, which scored results of absolute prestige in its brief career at Sebring, in the Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.
