“DON'T  
believe the  
naysayers.  
The American  
Dream—the  
fable that says  
if you work  
hard and

follow the  
rules, you'll  
make it—is  
alive and  
well.” —New  
York Post  
Adam W.  
Shepard's  
Scratch

Beginnings is the fascinating and eye-opening account of the grand social experiment the author undertook in response to Barbara Ehrenreich's Nickel and Dimed. Subtitled "Me, \$25, and the Search for the American Dream," Scratch Beginnings chronicles Shepard's successful efforts to raise himself up from self-imposed rock bottom in one year's time—a personal

odyssey that is sure to inspire anyone who reads about it, instilling new faith in the solid principles on which our democracy was built. The Assault on Justice in Egypt's Crackdown on Homosexual Conduct The 9/11 Commission Report Final Report of the National Commission on Terrorist Attacks Upon the United States Ninety-eight of the chief complaints and disorders

you're most likely to encounter in the ED! A clear, concise guide for clinicians new to the Emergency Department A Doody's Core Title for 2015! Written by authors who are practicing emergency physicians and emergency medicine educators, Clinical Emergency Medicine distills the entire content of the emergency medicine curriculum into less than one hundred

succinct, clinically relevant chapters. This unique book is intended to guide you through what you must know and be able to do during an actual shift and give you a better understanding of the issues and problems you will face while working in the Emergency Department. Featuring a consistent, find-it-now design, Clinical Emergency Medicine delivers concise, must-

know information on ninety-eight chief complaints and disorders, ranging from asthma and chest pain to fever and poisoning. Each chapter begins with Key Points, followed by an Introduction, Clinical Presentation (History and Physical Examination), Diagnostic Studies, Medical Decision Making, Treatment and Disposition, and Suggested Reading.

Whenever possible, the authors provide practical advice on drug dosing, the medical decision-making process, treatment plans, and dispositions that will be of value in a clinical environment. Numerous diagnostic algorithms simplify the problem and point you towards a solution. Valuable to medical students, physician assistants,

nurse practitioners, and junior level residents, Clinical Emergency Medicine teaches you things that may not have been covered in medical or physician assistant school, but have an important bearing on patient outcomes. [The Battle for Pakistan](#) Penguin Michael Schwartz gets behind the headlines, revealing the real dynamics of the Iraq debacle and

its legacy. *Clinical Emergency Medicine* HarperCollins For over forty years in more than sixty countries, Raymond Baker has witnessed the free-market system operating illicitly and corruptly, with devastating consequences . In *Capitalism's Achilles Heel*, Baker takes readers on a fascinating journey through the global free-market system and reveals how dirty money,

poverty, and inequality are inextricably intertwined. Readers will discover how small illicit transactions lead to massive illegalities and how staggering global income disparities are worsened by the illegalities that permeate international capitalism. Drawing on his experiences, Baker shows how Western banks and businesses use secret transactions and ignore laws while handling some

\$1 trillion in illicit proceeds each year. He also illustrates how businesspeople, criminals, and kleptocrats perfect the same techniques to shift funds and how these tactics negatively affect individuals, institutions, and countries.

**Death on the Edge** John Wiley & Sons  
NEW YORK TIMES BESTSELLER • The first definitive history of the Mossad, Shin Bet, and the IDF's targeted

killing programs, hailed by The New York Times as "an exceptional work, a humane book about an incendiary subject."  
WINNER OF THE NATIONAL JEWISH BOOK AWARD IN HISTORY NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY JENNIFER SZALAI, THE NEW YORK TIMES NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Economist • The New York Times Book Review • BBC

History Magazine • Mother Jones • Kirkus Reviews The Talmud says: "If someone comes to kill you, rise up and kill him first." This instinct to take every measure, even the most aggressive, to defend the Jewish people is hardwired into Israel's DNA. From the very beginning of its statehood in 1948, protecting the nation from harm has been the responsibility of its intelligence

community and armed services, and there is one weapon in their vast arsenal that they have relied upon to thwart the most serious threats: Targeted assassinations have been used countless times, on enemies large and small, sometimes in response to attacks against the Israeli people and sometimes preemptively. In this page-turning, eye-opening book, journalist and

military analyst Ronen Bergman—praised by David Remnick as “arguably [Israel’s] best investigative reporter”—offers a riveting inside account of the targeted killing programs: their successes, their failures, and the moral and political price exacted on the men and women who approved and carried out the missions. Bergman has gained the exceedingly rare cooperation of

many current and former members of the Israeli government, including Prime Ministers Shimon Peres, Ehud Barak, Ariel Sharon, and Benjamin Netanyahu, as well as high-level figures in the country’s military and intelligence services: the IDF (Israel Defense Forces), the Mossad (the world’s most feared intelligence agency), Caesarea (a “Mossad within the Mossad” that carries out

attacks on the highest-value targets), and the Shin Bet (an internal security service that implemented the largest targeted assassination campaign ever, in order to stop what had once appeared to be unstoppable: suicide terrorism). Including never-before-reported, behind-the-curtain accounts of key operations, and based on hundreds of on-the-record interviews and

thousands of files to which Bergman has gotten exclusive access over his decades of reporting, *Rise and Kill First* brings us deep into the heart of Israel's most secret activities. Bergman traces, from statehood to the present, the gripping events and thorny ethical questions underlying Israel's targeted killing campaign, which has shaped the Israeli nation, the Middle East, and the

entire world. "A remarkable feat of fearless and responsible reporting . . . important, timely, and informative." —John le Carré  
*Surprise, Kill, Vanish* CQ Press  
It has, improbably, been called uncommonly lucid, even riveting by *The New York Times*, and it was a finalist for the 2004 National Book Awards nonfiction honor. It is a literally chilling read, especially in its minute-by-

minute description of the events of the morning of 9/11 inside the Twin Towers. It is The 9/11 Commission Report, which was, before its publication, perhaps one of the most anticipated government reports of all time, and has been since an unlikely bestseller. The official statement by the National Commission on Terrorist Attacks Upon the United States-which was instituted in late 2002 and chaired

by former New Jersey Governor Thomas Kean-it details what went wrong on that day (such as intelligence failures), what went right (the heroic response of emergency services and self-organizing civilians), and how to avert similar future attacks. Highlighting evidence from the day, from airport surveillance footage of the terrorists to phone calls from the doomed flights, and offering

details that have otherwise gone unheard, this is an astonishing firsthand document of contemporary history. While controversial in parts-it has been criticized for failing to include testimony from key individuals, and it completely omits any mention of the mysterious collapse of WTC 7-it is nevertheless an essential record of one of the most transformational events of modern times.

*My Autobiography* Harper Collins Mapping Cyberspace is a ground-breaking geographic exploration and critical reading of cyberspace, and information and communication technologies. The book: \* provides an understanding of what cyberspace looks like and the social interactions that occur there \* explores the impacts of cyberspace, and

information and communication technologies, on cultural, political and economic relations \* charts the spatial forms of virtual spaces \* details empirical research and examines a wide variety of maps and spatialisations of cyberspace and the information society \* has a related website at <http://www.MappingCyberspace.com>. This book will be a valuable addition to the

growing body of literature on cyberspace and what it means for the future.

### **The Coming Collapse of the International Monetary System**

Haymarket Books  
In essays covering everything from art and common sense to charisma and constructions of the self, the eminent cultural anthropologist and author of *The Interpretation of Cultures* deepens our understanding

of human societies through the intimacies of "local knowledge." A companion volume to *The Interpretation of Cultures*, this book continues Geertz's exploration of the meaning of culture and the importance of shared cultural symbolism. With a new introduction by the author. [The Fist of God](#)  
Routledge  
In their Second Edition of *Cases in Intelligence*

Analysis:  
Structured Analytic Techniques in Action, accomplished instructors and intelligence practitioners Sarah Miller Beebe and Randolph H. Pherson offer robust, class-tested cases studies of events in foreign intelligence, counterintelligence, terrorism, homeland security, law enforcement, and decision-making support. Designed to give analysts-in-training an

opportunity to apply structured analytic techniques and tackle real-life problems, each turnkey case delivers a captivating narrative, discussion questions, recommended readings, and a series of engaging analytic exercises. [Playing It My Way](#) Rand Corporation  
Winner of the 2018 National Book Critics Circle Award for Nonfiction  
Longlisted for the 2018 National Book Award for

Nonfiction  
From the  
Pulitzer Prize-  
winning  
author of  
Ghost Wars,  
the epic and  
enthraling  
story of  
America's  
intelligence,  
military, and  
diplomatic  
efforts to  
defeat Al  
Qaeda and the  
Taliban in  
Afghanistan  
and Pakistan  
since 9/11  
Prior to 9/11,  
the United  
States had  
been carrying  
out small-  
scale covert  
operations in  
Afghanistan,  
ostensibly in  
cooperation,  
although often  
in direct  
opposition,  
with I.S.I., the  
Pakistani  
intelligence  
agency. While  
the US was  
trying to quell  
extremists, a  
highly  
secretive and  
compartmenta-  
lized wing of  
I.S.I., known  
as  
"Directorate  
S," was  
covertly  
training,  
arming, and  
seeking to  
legitimize the  
Taliban, in  
order to  
enlarge  
Pakistan's  
sphere of  
influence.  
After 9/11,  
when fifty-  
nine countries,  
led by the U.  
S., deployed  
troops or  
provided aid  
to Afghanistan  
in an effort to  
flush out the  
Taliban and Al  
Qaeda, the  
U.S. was set  
on an invisible  
slow-motion  
collision  
course with  
Pakistan.  
Today we  
know that the  
war in  
Afghanistan  
would falter  
badly because  
of military  
hubris at the  
highest levels  
of the  
Pentagon, the  
drain on  
resources and  
provocation in  
the Muslim  
world caused  
by the U.S.-led  
invasion of  
Iraq, and

corruption. But more than anything, as Coll makes painfully clear, the war in Afghanistan was doomed because of the failure of the United States to apprehend the motivations and intentions of I.S.I.'s "Directorate S". This was a swirling and shadowy struggle of historic proportions, which endured over a decade and across both the Bush and Obama administrations, involving multiple secret

intelligence agencies, a litany of incongruous strategies and tactics, and dozens of players, including some of the most prominent military and political figures. A sprawling American tragedy, the war was an open clash of arms but also a covert melee of ideas, secrets, and subterranean violence. Coll excavates this grand battle, which took place away from the gaze

of the American public. With unsurpassed expertise, original research, and attention to detail, he brings to life a narrative at once vast and intricate, local and global, propulsive and painstaking. This is the definitive explanation of how America came to be so badly ensnared in an elaborate, factional, and seemingly interminable conflict in South Asia. Nothing less than a forensic

examination of the personal and political forces that shape world history, Directorate S is a complete masterpiece of both investigative and narrative journalism. Me, \$25, and the Search for the American Dream McGraw Hill Professional Seventy-nine Short Essays on Design brings together the best of designer Michael Bierut's critical writing—serious or humorous, flattering or biting, but always on the mark. Bierut is widely considered the finest observer on design writing today. Covering topics as diverse as Twyla Tharp and ITC Garamond, Bierut's intelligent and accessible texts pull design culture into crisp focus. He touches on classics, like Massimo Vignelli and the cover of *The Catcher in the Rye*, as well as newcomers, like McSweeney's Quarterly Concern and color-coded terrorism alert levels. Along the way Nabakov's *Pale Fire*; Eero Saarinen; the paper clip; Celebration, Florida; the planet Saturn; the ClearRx pill bottle; and paper architecture all fall under his pen. His experience as a design practitioner informs his writing and gives it truth. In *Seventy-nine Short Essays on Design*, designers and

nondesigners alike can share and revel in his insights.

**U.S. Army  
Special  
Operations  
Forces in  
Afghanistan  
[i.e.  
Afghanistan]**

Nicholas Brealey  
First published in 2003, this is the first unclassified official history authored by the U.S. Army Special Operations Command relating to Operation Enduring Freedom. Contains extensive maps and illustrations.

Previously difficult to obtain, this extensive study shows what Army Special Operations Forces (ARSOF) accomplished to drive the Taliban from power and to destroy al-Qaeda and Taliban strongholds as part of the global war on terrorism during Operation Enduring Freedom. **Structured Analytic Techniques in Action**  
Mango Media Inc.  
The Battle for

Pakistan showcases a marriage of convenience between unequal partners. The relationship between Pakistan and the United States since the early 1950s has been nothing less than a whiplash-inducing rollercoaster ride. Today, surrounded by hostile neighbors, with Afghanistan increasingly under Indian influence, Pakistan does not wish to break ties with the United

States. Nor does it want to become a vassal of China and get caught in the vice of a US-China rivalry, or in the Arab-Iran conflict. Internally, massive economic and demographic challenges as well as the existential threat of armed militancy pose huge obstacles to Pakistan's development and growth. Could its short-run political miscalculations in the Obama years prove too

costly? Can the erratic Trump administration help salvage this relationship? Based on detailed interviews with key US and South Asian leaders, access to secret documents and operations, and the author's personal relationships and deep knowledge of the region, this book untangles the complex web of the US-Pakistani relationship and identifies

a clear path forward, showing how the United States can build better partnerships in troubled corners of the world. [Cybersecurity Advice from the Best Hackers in the World](#) Chronicle Books

 world of  
 individuals  
 working in  
 treacherous  
 environments  
 populated  
 with killers,  
 connivers, and  
 saboteurs.

Despite Hollywood notions of off-book operations and external secret hires, covert action is actually one piece in a colossal foreign policy machine. Written with the pacing of a thriller, *Surprise, Kill, Vanish* brings to vivid life the sheer pandemonium and chaos, as well as the unforgettable human will to survive and the intellectual challenge of not giving up hope that define

paramilitary and intelligence work. Jacobsen's exclusive interviews -- with members of the CIA's Senior Intelligence Service (equivalent to the Pentagon's generals), its counterterrorism chiefs, targeting officers, and Special Activities Division's Ground Branch operators who conduct today's close-quarters killing operations around the

world -- reveal, for the first time, the enormity of this shocking, controversial, and morally complex terrain. Is the CIA's paramilitary army America's weaponized strength, or a liability to its principled standing in the world? Every operation reported in this book, however unsettling, is legal. *Local Knowledge* John Wiley & Sons Are you a hard worker? Are

you tired of busting your butt and not having the size and strength to show for it? You can't reach your goals in the gym without a plan! Now you will never have to hit the gym without a set workout again! What you have in your hands is the ultimate blueprint to a bigger, stronger you! Now all your hours sweating and toiling away on the weight pile won't be in vain. Even the most seasoned gym

veterans and highly skilled trainers have difficulty consistently coming up with fresh and effective workouts. But for those willing to put in the time (the lazy and uncommitted need not apply), the Size and Strength Blueprint is here to take your strength and physique game to the next level. In this book we show you exactly what to do to put on pounds of quality lean muscle mass, and strength

levels to match, in a matter of weeks! These are not theory-based workouts. They have been tested and proven on world-class athletes from IFBB Pros Johnnie Jackson and Branch Warren, World Record Holder Jeremy Hoornstra, professional athletes, and some of the strongest men in the world. Josh and Noah Bryant have "been there and done that" and are full-time trainers whose

clients make up the A-List of the weightlifting world. You can now use the secrets and methods of two of the world's best trainers in your own program. Imagine, in just a couple of months, being more confident, feeling better physically and mentally, and reaching goals you previously thought unattainable, all without living in the gym and doing hours of cannibalizing cardio! The Blueprint is

going to be the greatest training investment you have ever made and is an absolute necessity for any serious strength athlete or personal trainer. If you have the work ethic, we have the plan! *Theory, Research, and Prevention* Cambridge University Press  
The greatest run-scorer in the history of cricket, Sachin Tendulkar retired in 2013 after an astonishing 24 years at the top. The most

celebrated Indian cricketer of all time, he received the Bharat Ratna Award - India's highest civilian honour - on the day of his retirement. Now Sachin Tendulkar tells his own remarkable story - from his first Test cap at the age of 16 to his 100th international century and the emotional final farewell that brought his country to a standstill. When a boisterous Mumbai youngster's excess

energies were channelled into cricket, the result was record-breaking schoolboy batting exploits that launched the career of a cricketing phenomenon. Before long Sachin Tendulkar was the cornerstone of India's batting line-up, his every move watched by a cricket-mad nation's devoted followers. Never has a cricketer been burdened with so many expectations; never has a

cricketer performed at such a high level for so long and with such style - scoring more runs and making more centuries than any other player, in both Tests and one-day games. And perhaps only one cricketer could have brought together a shocked nation by defiantly scoring a Test century shortly after terrorist attacks rocked Mumbai. His many achievements with India include

winning the World Cup and topping the world Test rankings. Yet he has also known his fair share of frustration and failure - from injuries and early World Cup exits to stinging criticism from the press, especially during his unhappy tenure as captain. Despite his celebrity status, Sachin Tendulkar has always remained a very private man, devoted to his family and his country. Now,

for the first time, he provides a fascinating insight into his personal life and gives a frank and revealing account of a sporting life like no other. *Munitions of the mind* [www.Militarybookshop.com](http://www.Militarybookshop.com) anyUK The next financial collapse will resemble nothing in history. . . . Deciding upon the best course to follow will require comprehending a minefield of risks, while poised at a

crossroads, pondering the death of the dollar. The U.S. dollar has been the global reserve currency since the end of World War II. If the dollar fails, the entire international monetary system will fail with it. But optimists have always said, in essence, that confidence in the dollar will never truly be shaken, no matter how high our national debt or how dysfunctional our government. In the last few

years, however, the risks have become too big to ignore. While Washington is gridlocked, our biggest rivals—China, Russia, and the oil-producing nations of the Middle East—are doing everything possible to end U.S. monetary hegemony. The potential results: Financial warfare. Deflation. Hyperinflation. Market collapse. Chaos. James Rickards, the

acclaimed author of *Currency Wars*, shows why money itself is now at risk and what we can all do to protect ourselves. He explains the power of converting unreliable investments into real wealth: gold, land, fine art, and other long-term stores of value.

**ColdFusion Presents: New Thinking**

Human Rights Watch  
 “A stunning debut by a truly gifted writer—an

eye-opening read for both liberals and conservatives—and it could not come at a better time.”—Adam Grant, *New York Times* bestselling author of *Option B*, with Sheryl Sandberg  
 What is the opposite of hate? As a progressive commentator on Fox News and now CNN, Sally Kohn has made a career out of bridging intractable political differences and learning how to talk respectfully with people

whose views she disagrees with passionately. Her viral TED Talk on the need to practice emotional—rather than political—correctness sparked a new way of considering how often we amplify our differences and diminish our connections. But these days even famously “nice” Kohn finds herself wanting to breathe fire at her enemies. It was time, she decided, to look into

the epidemic of hate all around us and learn how we can stop it. In *The Opposite of Hate*, Kohn talks to leading scientists and researchers and investigates the evolutionary and cultural roots of hate and how incivility can be a gateway to much worse. She travels to Rwanda, the Middle East, and across the United States, introducing us to former terrorists and white supremacists,

and even some of her own Twitter trolls, drawing surprising lessons from dramatic and inspiring stories of those who left hate behind. As Kohn confronts her own shameful moments, whether it was back when she bullied a classmate or today when she harbors deep partisan resentment, she discovers, "The opposite of hate is the beautiful and powerful reality of how we are all fundamentally linked and

equal as human beings. The opposite of hate is connection." Sally Kohn's engaging, fascinating, and often funny book will open your eyes and your heart. [\*The Secret History of CIA Paramilitary Armies, Operators, and Assassins\*](#) Manchester University Press From the bestselling author of *The Day of the Jackal*, international master of intrigue Frederick Forsyth,

comes a thriller that brilliantly blends fact with fiction for one of this summer's—or any season's—most explosive reads! From the behind-the-scenes decision-making of the Allies to the secret meetings of Saddam Hussein's war cabinet, from the brave American fliers running their dangerous missions over Iraq to the heroic young spy planted deep in the heart of

Baghdad, Forsyth's incomparable storytelling skill keeps the suspense at a breakneck pace. Somewhere in Baghdad is the mysterious "Jericho," the traitor who is willing—for a price—to reveal what is going on in the high councils of the Iraqi dictator. But Saddam's ultimate weapon has been kept secret even from his most trusted advisers, and the nightmare scenario that haunts

General Schwarzkopf and his colleagues is suddenly imminent, unless somehow, the spy can locate that weapon—The Fist of God—in time. Peopled with vivid characters, brilliantly displaying Forsyth's incomparable knowledge of intelligence operations and tradecraft, moving back and forth between Washington and London, Baghdad and Kuwait, desert vastnesses

and city  
bazaars, this  
breathtaking  
novel is an

utterly  
convincing  
story of what  
may actually

have  
happened  
behind the  
headlines.
