A great read for today's global business leaders." —Charles Denson, president, Nike Brand "Leading Organization Design has some unique features that make it valuable. It is one of the few and certainly only recent books to take us through an explicit process to design modern organizations. This is accomplished with the five-milestone process. The process is not a simple cookbook. Indeed, the authors have achieved a balance between process and content. In so doing, Kesler and Kates show us what to do as well as how to do it." —Jay Galbraith, from the Foreword

This book establishes a new, holistic framework for disaster recovery and mitigation, providing a multidisciplinary perspective on the field of risk management strategies and societal and communal resilience. Going beyond narrow approaches that are all too prevalent in the field, this work builds on an optimum combination of community-level networks, private market mechanisms and state-based assistance strategies. Its chapters describe best practices in the field and elucidate cutting-edge research on recovery, highlighting the interaction between government, industry and civil society. The book uses new data from a number of recent disasters across southeast and east Asia to understand the interactions among residents, the state, and catastrophe, drawing on events in Malaysia, Vietnam, Cambodia, Japan, China and Thailand. Grounded in theories of risk mitigation and empirical research, the book provides practical guidance for decision makers along with future research directions for scholars. The Asian region is highly prone to natural disasters which devastate large and mostly poor populations. This book deals with some of the root issues underlying the continued vulnerability of these societies to catastrophic shocks. The book is unusual in that it comprehensively covers resilience and fragilities from community levels to market mechanisms and governance and it analyses these issues in very different economic and structural settings. Recommended for development and disaster risk managers—without question. Buku ini cuba mengupas persoalan mengenai kedudukan dan perkembangan tasawuf dan tarekat di Tanah Melayu/Malaysia. Tasawuf dan tarekat kini seolah-olah dilihat sebagai sesuatu yang terasing dalam Islam oleh sesetengah pihak. Justeru, melalui buku ini persoalan mengenai tasawuf dan tarekat dibincangkan secara agak menyeluruh berkaitan dengan peristilahan tasawuf dan tarekat serta sejarahnya yang bermula pada zaman Nabi Muhammad SAW, kemudian pada zaman

sahabat sehinggalah ke zaman seterusnya. Penulis juga melihat dari aspek kedatangan Islam di Alam Melayu dari sudut peranan golongan sufi dan tarekat. Dalam kajian ini, penulis turut menyentuh secara spesifik tentang kepelbagaian organisasi tarekat yang ada di Malaysia bagi menilai sejauh mana kedudukannya di persada masyarakat serta sumbangan kelompok sufi terhadap pembangunan negara. Secara umumnya penulisan buku ini lebih kepada sejarah dan tradisi kesufian yang terdapat di Malaysia yang penulis anggap sebagai kurang disoroti oleh pengkaji secara amnya. Semoga buku ini dapat memberikan maklumat dan panduan tambahan tentang keberadaan tasawuf dan tarekat di Malaysia, khususnya dari sudut perkembangan dan alirannya.
