 #1 NEW YORK TIMES BESTSELLER • NAACP IMAGE AWARD WINNER
 • A dramatic expansion of a groundbreaking work of journalism, *The 1619 Project: A New Origin Story* offers a profoundly revealing vision of the American past and present.
 FINALIST FOR THE KIRKUS PRIZE • ONE OF THE BEST BOOKS OF THE YEAR: *The Washington Post*, NPR, *Esquire*, *Marie Claire*, *Electric Lit*, *Ms. magazine*, *Kirkus Reviews*, *Booklist* In late August 1619, a ship arrived in the British colony of Virginia bearing a

cargo of twenty to thirty enslaved people from Africa. Their arrival led to the barbaric and unprecedented system of American chattel slavery that would last for the next 250 years. This is sometimes referred to as the country's original sin, but it is more than that: It is the source of so much that still defines the United States. *The New York Times Magazine's* award-winning 1619 Project issue reframed our understanding of American history by placing slavery and its continuing legacy at the center of our national narrative. This book substantially expands on that work, weaving together eighteen essays that explore the legacy of slavery in present-day

America with thirty-six poems and works of fiction that illuminate key moments of oppression, struggle, and resistance. The essays show how the inheritance of 1619 reaches into every part of contemporary American society, from politics, music, diet, traffic, and citizenship to capitalism, religion, and our democracy itself. This book that speaks directly to our current moment, contextualizing the systems of race and caste within which we operate today. It reveals long-glossed-over truths around our nation's founding and construction—and the way that the legacy of slavery did not end with emancipation, but continues to shape contemporary American life.

Leading the way in
 current thinking on
 environmental
 logistics, *Green
 Logistics* provides a
 unique insight on the
 environmental impacts
 of logistics and the
 actions that companies
 and governments can

take to deal with them.
 It is written by leading
 researchers in the field
 and provides a
 comprehensive view of
 the subject for
 students, managers
 and policy-makers.
 Fully updated, the 3rd
 edition of *Green
 Logistics* has a more
 global perspective than
 previous editions. It
 introduces new
 contributors and
 international case
 studies that illustrate
 the impact of green
 logistics in practice.
 There is a new chapter
 on the links between
 green logistics and
 corporate social
 responsibility and a
 series of postscripts
 examining the effects
 of new developments,
 such as 3D printing,
 distribution by drone,
 the physical internet
 and the concept of
 peak freight. Other key

topics examined include: carbon auditing of supply chains; transferring freight to greener transport modes; reducing the environmental impact of warehousing; improving the energy efficiency of freight transport; making city logistics more environmentally sustainable; reverse logistics for the management of waste; role of government in promoting sustainable logistics. The 3rd edition of *Green Logistics* includes indispensable online supporting materials, including graphics, tables, chapter summaries, and guidelines for lecturers. *Green Logistics* Boston, J. Loring Izzy is always shuffling, jiggling, squirming and

twitching. She just can't keep still! So when Izzy's school goes on a trip to the zoo, her teacher warns her to behave. She must never wriggle, she must never fidget and she must certainly NEVER TICKLE A TIGER! But does Izzy listen? She does NOT - and what happens next throws the zoo into complete chaos. With eye-catching illustrations by the internationally acclaimed bestselling illustrator, Marc Boutavant, *Never Tickle a Tiger* will amaze and delight children and parents alike! **Loft Living** Academic Press
École coranique, collège, séminaire, pensionnat, cité universitaire avant la lettre ... : en arabe, le

terme de "madrasa" recouvre quantité d'acceptions. Du Proche-Orient au Maghreb, l'ouvrage étudie l'évolution de l'architecture des principales madrasas (historique, éléments architectoniques, études des plans et masses, analyses des formes décoratives, rapports avec la maison particulière), et renouvelle les hypothèses sur la signification des madrasas cruciformes à quatre iwans = Koranic school, college, seminary, boarding school, campus before the letter ... : in Arabic, the term "madrassa" covers many of these meanings. From Middle East to North Africa, the book examines the evolution of the architecture of main madrassas (historical,

architectural elements, study plans and bodies, analysis of decorative forms, reports with the special house); it also renews the assumptions on the significance of cross-shaped madrasas at four iwans.

Challenging the popular myth of a present-day 'information revolution', *Media Technology and Society* is essential reading for anyone interested in the social impact of technological change. Winston argues that the development of new media forms, from the telegraph and the telephone to

computers, satellite and virtual reality, is the product of a constant play-off between social necessity and suppression: the unwritten law by which new technologies are introduced into society only insofar as their disruptive potential is limited.

Widely acknowledged as a contemporary classic that has introduced thousands of readers to American literature, *From Puritanism to Postmodernism: A History of American Literature* brilliantly charts the fascinating story of American literature from the Puritan legacy to the advent of postmodernism. From

realism and romanticism to modernism and postmodernism it examines and reflects on the work of a rich panoply of writers, including Poe, Melville, Fitzgerald, Pound, Wallace Stevens, Gwendolyn Brooks and Thomas Pynchon. Characterised throughout by a vibrant and engaging style it is a superb introduction to American literature, placing it thoughtfully in its rich social, ideological and historical context. A tour de force of both literary and historical writing, this Routledge Classics edition includes a new preface by co-author Richard Ruland, a new foreword by Linda Wagner-Martin and a fascinating interview

with Richard Ruland, in which he reflects on the nature of American fiction and his collaboration with Malcolm Bradbury. It is published here for the first time.

This late 19th-century work is very thoughtful in its writing and is respectful of the Iroquois and Tuscarora people, whom the author sought to illuminate to the American public and world at large. Johnson attempts to dispel the negative connotations associated with the Iroquois generally held by people of European descent living in the U.S.

Cet ouvrage intéressera l'amateur de théâtre à plus d'un titre. Il propose un panorama du théâtre mondial à travers 52 articles traitant des deux dernières saisons. La singularité de cette forme mérite d'être soulignée. Chacun des pays représentés ici a confié à un spécialiste un regard analytique sur les deux saisons théâtrales écoulées. Cela donne une juxtaposition d'approches qui, unies dans un objectif commun, gardent leurs spécificités. Ici, on met l'accent sur la perpétuation des traditions théâtrales, là, on est attentif aux signes d'ouverture aux aventures du théâtre international. Ici, on scrute les résistances que le théâtre peut opposer aux pouvoirs,

là, on souligne l'intelligence de l'institution théâtrale et de l'État. Partout, on nous fait découvrir des formes, des pratiques et des répertoires qui retrouvent ainsi droit de cité à côté des artistes qui dominent les scènes internationales. De l'Allemagne à la Turquie, nous explorons la vie théâtrale dans son actualité avec ce léger recul qui permet de dégager quelques lignes de force. On pioche ainsi informations et détails insolites sur le travail des acteurs, les projets des metteurs en scène ou les goûts du public. C'est ainsi que nous portons un autre regard sur le théâtre dans le monde. Flying the Line

Chikungunya and Zika Viruses: Global Emerging Health Threats is the go-to resource for both historical and current information on this important virus that is rapidly increasing its global range. Epidemics since 2005 have spread from Africa and Asia, and through Europe, and an ongoing epidemic has caused nearly two million cases in the Americas. It causes severe crippling arthritis, with symptoms lasting for months or years. As no vaccine or treatment is available, there is

international interest in the virus, thus funding opportunities for research have dramatically increased. This book presents our understanding of the virus, bringing comprehensive knowledge in a single source. Provides a comprehensive collection of the state-of-the-art on CHIKV biology in a go-to reference book Edited by leaders in the field who provide a single, up-to-date source of information Gives a better understanding of the transmission and spread of chikungunya virus, a clear, coherent description of the outcomes of infection (both acute and chronic), and its biology and risk factors Pulls relevant background information to justify

projects of many professionals developing vaccines and mosquito vector control approaches *Le Bulletin du livre* Kogan Page Publishers The University of Notre Dame Press is pleased to bring Ernst Haas's classic work on European integration, *The Uniting of Europe*, back into print. First published in 1958 and last printed in 1968, this seminal volume is the starting point for anyone interested in the pre-history of the European Union. Haas uses the European Coal and Steel Community (ECSC) as a case study of the community formation processes that occur across traditional national and state boundaries. Haas points to the ECSC as an example of an organization with the

"power to redirect the loyalties and expectations of political actors." In this pathbreaking book Haas contends that, based on his observations of the actual integration process, the idea of a "united Europe" took root in the years immediately following World War II. His careful and rigorous analysis tracks the development of the ECSC, including, in his 1968 preface, a discussion of the eventual loss of the individual identity of the ECSC through its absorption into the new European Community. Featuring a new introduction by Haas analyzing the impact of his book over time, as well as an updated bibliography, *The Uniting of Europe*

is a must-have for political scientists and historians of modern and contemporary Europe. This book is the inaugural volume of Notre Dame's new Contemporary European Politics and Society Series.

In many senses, viewers have cut their teeth on the violence in American cinema: from Anthony Perkins

slashing Janet Leigh in the most infamous of shower scenes; to the 1970s masterpieces of Martin Scorsese, Sam Peckinpah and Francis Ford Coppola; to our present-day undertakings in imagining global annihilations through terrorism, war, and alien grudges.

Transfigurations brings our cultural obsession with film violence into a renewed dialogue with contemporary theory. Grønstad argues that the use of violence in Hollywood films should be understood semiotically rather than viewed realistically; *Tranfigurations* thus alters both our methodology of reading violence in films and the meanings we assign to them,

depicting violence not as a self-contained incident, but as a convoluted network of our own cultural ideologies and beliefs.

Le monde du théâtre

Behind the dirty, cast-iron facades of nineteenth-century loft buildings, an elegant style of life developed during the 1960s and 1970s. This style of life -- of using the city as a consumption mode -- was tied to the presence of artists, whose "happenings," performances, and studio spaces shaped a public perception of the good life at the center of the city.
