According to history books, the Roman Empire ended in 476 CE with the fall of Rome. But if you asked most people alive at that time, they would have pointed you to what they considered the continuation of the Roman Empire—the civilization we now call the Byzantine Empire. The Byzantines, however, were more than just a remnant of Roman

glory. At its geographical peak, the Byzantine Empire stretched out across the Mediterranean world. Culturally, the Byzantines both preserved the knowledge of the classical world, much of which was lost in the West, and added to it. Inside you will read about... ✓ A Divided Empire ✓ The Fall of the West ✓ Rising to Glory ✓ An Age of War ✓ The Destruction of Icons ✓ The House of Macedon ✓ The Comnenian Revival ✓ The Final Decline And much more! Shaped by its

classical roots, its Christian religion, and the changing medieval world, the story of the Byzantine Empire is one of both glorious victories and terrible defeats, of a civilization that rose from the brink of destruction again and again, and of the development of a culture whose vestiges remain today.

One of the markers of globalization is that most Western societies have become diverse, and pluralism is the new

challenge. With Islam and Muslims receiving so much media coverage, it begs the question of nativity and the evolution of Islam, as it should be interpreted from a Westerner's experience and perspective. There are many mosques and communities filled with immigrant Muslims. Naturally, they have brought along their own culture and religious practices. We must contextualize the value of the immigrant experience. The book Muted Imam, although speaking of

events in Bermuda, sheds light on what should be an inherent right of expression in every part of the world. It speaks of Islam coming out of environments, as opposed to being parachuted in. This is the story of a man who climbs through isms and ideology to discover truth. There are some axiomatic questions posed in the book that may help shed the notion of Islam as a cultural phenomenon, while placing man and human consciousness at the center of the universe and

the purpose of being. The book emphasizes and re-emphasizes that attaining truth is the repository of the whole of humanity, and it dispels the notion of the Quran belonging to a sect, rather than to all of humanity. Muted Imam strives to give young people the courage and inspiration needed to stand up with open hearts, without fear of tradition to face modern challenges and see the wisdom already imbedded in the Quran. This allows us to reach new heights living together in a

pluralistic world.

The crossbow is an iconic weapon of the Middle Ages and, alongside the longbow, one of the most effective ranged weapons of the pre-gunpowder era. Unfortunately, despite its general fame it has been decades since an in-depth history of the medieval crossbow has been published, which is why Stuart Ellis-Gorman's detailed, accessible, and highly illustrated study is so valuable. The Medieval

Crossbow approaches the history of the crossbow from two directions. The first is a technical study of the design and construction of the medieval crossbow, the many different kinds of crossbows used during the Middle Ages, and finally a consideration of the relationship between crossbows and art. The second half of the book explores the history of the crossbow, from its origins in ancient China to its decline in sixteenth-century Europe. Along the way it explores the

challenges in deciphering the crossbow's early medieval history as well as its prominence in warfare and sport shooting in the High and Later Middle Ages. This fascinating book brings together the work of a wide range of accomplished crossbow scholars and incorporates the author's own original research to create an account of the medieval crossbow that will appeal to anyone looking to gain an insight into one of the most important weapons of the Middle Ages.

History stands as the most effective and valuable source of putting nation on the course of progress and prosperity and saving them from the path of disgrace and degradation. At a time, when there is tough competition among the nations of the world to excel one another, the Muslim, despite having the most glorious history, appear to be detached and careless as regards their history. This book

presents the true Islamic events and their actual causes before the English readers because the other books in the English language found on the Islamic history have been written by such authors and compilers who did no justice in presenting the true picture of Islamic Era but their prejudice prevented them from doing so.

This book was published in tribute to Khalid Bin Al-Waleed, whom is believed to be "the greatest military general in history", and who campaigned in the Middle

East about 630-650 C.E. Khalid Bin Al-Waleed was a commander in the service of prophet Muhammad (peace be upon him) and the caliphs Abu Bakr (r. 632-634) and Umar (r. 634-644).

Khalid Bin Waleed (R) Dar Salam

Khalid bin Al-Waleed was one of the greatest generals in history, and one of the greatest heroes of history. Besides him, Genghis Khan was the only other general to remain undefeated in his entire military life. Khalid was sent to the Persian

Empire with an army consisting of 18,000 volunteers to conquer the richest province of the Persian empire, Euphrates region of lower Mesopotamia, (present day Iraq). Khalid entered lower Mesopotamia with this force. He won quick victories in four consecutive battles: the Battle of Chains, fought in April 633; the Battle of River, fought in the third week of April 633; the Battle of Walaja, fought in May 633 (where he successfully used a double envelopment

manoeuvre), and Battle of Ullais, fought in the mid-May 633. In the last week of May 633, al-Hira, the regional capital city of lower Mesopotamia, fell to Khalid. The inhabitants were given peace on the terms of annual payment of jizya (tribute) and agreed to provide intelligence for Muslims. After resting his armies, in June 633, Khalid laid siege to Anbar which despite fierce resistance fell in July 633 as a result of the siege imposed on the town. Khalid then moved towards the south, and

captured Ein ul Tamr in the last week of July, 633. **Khalid Bin Walid** Darussalam Volume X of al-Ṭabarī's massive chronicle is devoted to two main subjects. The first is the selection of Abū Bakr as the first caliph or successor to the Prophet Muh'ammad following the Prophet's death in 632 C.E. This section of the History reveals some of the inner divisions that existed within the early Muslim community, and sheds light on the interests and motivations

of various parties in the debates that led up to Abū Bakr's acclamation as caliph. The second main subject of Volume X is the riddah or "apostasy"-- actually a series of rebellions against Muslim domination by various tribes in Arabia that wished to break their ties with Medina following the Prophet's death. The History offers one of the more extensive collections of accounts about this early sequence of events to be found in the Arabic historical literature. It provides

richly detailed information on the rebellions themselves and on the efforts made by Abū Bakr and his Muslim supporters to quell them. It also tells us much about relationships among the tribes of Arabia, local topography, military practice, and the key personnel, organization, and structure of the early Islamic state. The successful suppression of the riddah marked the transformation of the Muslim state from a small faith community of importance only in West

Arabia to a much more powerful political entity, embracing all of the Arabian peninsula and poised to unleash a wave of conquests that would shortly engulf the entire Near East and North Africa. The riddah era is, thus, crucial to understanding the eventual appearance of Islam as a major actor on the stage of world history. *The History of al-Ṭabarī Vol. 10* Hourly History A #1 New York Times Bestseller! This book is about Aisha bint Abu Bakr, who was the beloved wife of the noble Prophet, the daughter of the blessed Prophet's best friend, Abu Bakr and the Mother of the Believers. She is one of the best examples for Muslims to look to for inspiration and her story

sheds light on the life of the early Muslims and the Messenger of Allah. Prepared for young readers, the book delivers a life of love, dedication, and struggle. Devoted to the beloved Prophet and to Islam, Aisha spent her life in the service of Allah. She was the best example of helping the poor and needy and giving charity. Together with the noble Prophet, she lived a simple life, fasting and praying constantly and often going without herself. She learned everything from the

blessed Prophet and spent her time improving herself religiously. The Messenger of Allah chose to be with her during his final illness, preferring her company to that of anyone else. She looked after him devotedly and after his death, she dutifully spent her time teaching others about Islam to ensure it was practiced correctly. Aisha ensured that many of Allah's Messenger's teachings were passed on so that we can benefit from them today. Her invaluable legacy will be a

source of inspiration for Muslims until the end of time.

The Sword and the Well Praeger

A Biographical Study of the Greatest Military General in History. Khalid Bin Al-Waleed was one of the greatest generals in history. Abu Bakr (ra) said 'Women will never give birth to the likes of Khalid Bin Al-Waleed.' Truly one of the most brilliant biographies written on the Companion of the Prophet (SAWS), Khalid bin Al-Waleed, is the Sword of Allah by Ibn Kathir. Ibn

Kathir wrote the original story in his book Al-Bidayah wan-Nihayah. Khalid bin al Waleed (ra) said: "If I were to marry a beautiful woman whom I love, or if I were given the good news of having a newborn son, it is less beloved and dear to my heart than to be, in a cold icy night, in an army waiting to meet the enemy the next morning. These were the words of Khalid before his death. [Under My Hijab](#) Darussalam This Atlas is new in its subject, a subject that has

not been touched before. It helps whoever recites the Qur'an or studies it to specify the locations mentioned by the Noble Verses, and to mark those places of ancient people mentioned in the Qur'an. This is besides locating areas where the incidents of the prophetic Seerah occurred. Eventually the diligent reader will easily recognize those places, learn about them, and take heed of them while reciting. Eventually the diligent reader will easily recognize those places, learn about them, and

take heed of them while reciting. The Atlas has also revealed obscure places we used to pass through inattentively, like the site where Nuh's Ark settled, the site of the curved Sand-hills {Al Ahqah}, the cave of the young faithful men, the houses of median, the site of Sodom and other places determined by the Atlas depending on reliable sources. Thus the Atlas eliminates all the guessing and the fantasies we used to encounter when reciting the Noble Quran, and

takes us to the specific place.
