Reference Guide to Russian Literature

Harvill Press

This important novel, first published in Russian in 1978, reveals a master of the Stalinist era. The Year of Terror, 1937. Zybin, an exiled intellectual and

archaeologist in the far province of Alma-Ata, finds himself wrongly accused of a crime during the darkest days of Stalin's reign. Soon, he and his colleagues are caught up in an ambitious Cheka investigator's attempts to set up a show trial to rival those taking place in Moscow. Vivid, courageous and defiant, *The Faculty of Useless Knowledge* is the crowning achievement by the author of *The Keeper of Antiquities* and *The Dark Lady* and draws heavily on autobiographical experience. A masterpiece of anti-totalitarian literature, it stands alongside the works of Solzhenitsyn and Bulgakov in illuminating the chaos, absurdity and bureaucratic labyrinths of Soviet Russia. *Traité de droit commercial cours professé a la faculté de droit de Paris*

Conscience is the writer's production tool. If he has not got that, he has not got anything. All the artistic fabric crumbles and frays at the first touch.- Iurii Dombrovskii Iurii Dombrovskii (1909-1978) was a Soviet writer of immense courage and integrity, whose

life and literary career were repeatedly disrupted by unjust arrests and long periods of imprisonment. Born and educated in Moscow, he was first detained in 1932, and spent a total of twenty-three years in exile in Alma-Ata and in Siberian labour camps. Even after his rehabilitation in 1956 he was never free from surveillance and harassment by Soviet authorities. Only able to publish infrequently, he was forced to eke out a meagre existence yet produced original works of high quality. This book is the first full-length monograph on Iurii Dombrovskii, widely acclaimed in recent years as a writer of major importance and interest, following the publication in Russia and the West of his last novel *The Faculty of Unnecessary Things*. The book is based

on a thorough study of published materials by and about Dombrovskii and on research into unpublished archive sources, to which no previous Western scholar has had access. Iurii Dombrovskii: Freedom under Totalitarianism provides a detailed overview of the writer, and lays the foundations for further research. Peter Doyle gives the most substantive account of Dombrovskii's biography yet written, along with detailed interpretive studies of his main prose works, an assessment of his little known poetry, and a comprehensive bibliography. *The Faculty of Unnecessary Things*. Somme de la Foi Catholique contre les Gentils ... Traduction avec le texte Latin, accompagnée de notes nombreuses, et suivie d'une table analytique complète, par ... P.-F. Écalle Macmillan

This book studies the importance of typographic shapes in French Renaissance literature in the context of psychoanalysis and of the history of

printed writing. Focusing on the poetry of Clement Marot, Rabelais's Gargantua, Ronsard's sonnets and the Essais of Montaigne, it argues that printed characters can either supplement or betray what they appear to articulate. They often reveal compositional patterns that do not appear to be under authorial control, and open political and subjective dimensions through the interaction of verbal and visual materials. This unconscious, proto-Freudian writing has complex historical relations with practices found in the media of the twentieth century.

Commentaires de la Faculté de médecine de Paris, 1777 à 1786 Harvill Press

First Published in 1998. This volume will surely be regarded as the standard

guide to Russian literature for some considerable time to come... It is therefore confidently recommended for addition to reference libraries, be they academic or public.
