This volume, the first of six to be published, studies fundamental values of Islam, along with the nature of rights and the responsibilities in a general context. The authors analyse the development of social thought and morality in Islam, and ways in which they are enforced through the family and education. Particular attention is paid to the status of women, children, youth and the socially excluded. Several chapters broach specially Islamic approaches to economics, government and justice. A world religion since its inception in the seventh century A.D., Islam is today seeking vigorous answers to contemporary problems through its multi-faceted history. Issues of poverty and wealth, inequality and demands for political expression, and respect for diversity in a difficult world of conformity are dealt with in this series. The study is organized along thematic rather than chronological lines and thus it is not necessary to read the volumes in order. Volume II is in fact the first to have been published. Volume IV is forthcoming end 2002, volume V mid 2003 and volumes III and VI in 2004. This book brings into focus the innovative methods of learning in many Indian schools. It sheds light on schools that make the learning process fun for the teacher as well as the taught, in contrast to the whirl of examination-oriented learning in mainstream schools. The researched data on alternative schools in the country offer the reader an array of institutions all over the country, where efforts are being made to move away from traditional and mainstream learning. It includes exclusive articles by leading practitioners in the field, who offer an insight into the ground reality when a certain philosophy is applied to a school, and also experiential accounts of how such alternative practices mould the learner, teacher and impact the parent as well. The book also consists of a directory of alternative schools in India, including many schools that are tucked away in remote corners of the country. Interestingly, the common thread binding these 'alternative schools' is concern for the welfare of the child by teachers who see their work as much more than a job.

Throughout his career, Eduardo Galeano has turned our understanding of history and reality on its head. Isabelle Allende said his works "invade the reader's mind, to persuade him or her to surrender to the charm of his writing and power of his idealism." Mirrors, Galeano's most ambitious project since Memory of Fire, is an unofficial history of the world seen through history's unseen, unheard, and forgotten. As Galeano notes: "Official history has it that Vasco Núde Balboa was the first man to see, from a summit in Panama, the two oceans at once. Were the people who lived there blind??" Recalling the lives of artists, writers, gods, and visionaries, from the Garden of Eden to twenty-first-century New York, of the black slaves who built the White House and the women erased by men's fears, and told in hundreds of kaleidoscopic vignettes, Mirrors is a magic mosaic of our humanity.

A look at Iceland's 2008 meltdown from multiple perspectives: "The story is at once shocking and hilarious . . . But also a testament to human resilience." —Keith Hart, London School of Economics Iceland's 2008 financial collapse was the first case in a series of meltdowns, a warning of danger in the global order. This full-scale anthropology of financialization and the economic crisis broadly discusses this momentous bubble and burst and places it in theoretical, anthropological, and global historical context through descriptions of the complex developments leading to it and the larger social and cultural implications and consequences. Chapters from anthropologists, sociologists, historians, economists, and key local participants focus on the neoliberal policies—mainly the privatization of banks and fishery resources—that concentrated wealth among a select few, skewed the distribution of capital in a way that Iceland had never experienced before, and plunged the country into a full-scale economic crisis. Gambling Debt significantly raises the level of understanding and debate on the issues relevant to financial crises, painting a portrait of

the meltdown from many points of view—from bankers to schoolchildren, from fishers in coastal villages to the urban poor and immigrants, and from artists to philosophers and other intellectuals. Gambling Debt is a game-changing contribution to the discussion of economic crises and neoliberal financial systems and strategies that touches upon anthropology, sociology, economics, philosophy, political science, business, and ethics. "Honest, entertaining, and informative . . . Explores the changing distribution of wealth and the impact of privatization as well as the historical identity of Iceland and the numerous factors that came together to help produce such an economic meltdown." —Choice Publication supported in part by the National Science Foundation

NEW YORK TIMES BESTSELLER • The life and loves of Prince Charles are illuminated in a major new biography from the New York Times bestselling author of Elizabeth the Queen—perfect for fans of The Crown. Sally Bedell Smith returns once again to the British royal family to give us a new look at Prince Charles, the oldest heir to the throne in more than three hundred years. This vivid, eye-opening biography—the product of four years of research and hundreds of interviews with palace officials, former girlfriends, spiritual gurus, and more, some speaking on the record for the first time—is the first authoritative treatment of Charles’s life that sheds light on the death of Diana, his marriage to Camilla, and his preparations to take the throne one day. Prince Charles brings to life the real man, with all of his ambitions, insecurities, and convictions. It begins with his lonely childhood, in which he struggled to live up to his father’s expectations and sought companionship from the Queen Mother and his great-uncle Lord Mountbatten. It follows him through difficult years at school, his early love affairs, his intellectual quests, his entrepreneurial pursuits, and his intense search for spiritual meaning. It tells of the tragedy of his marriage to Diana; his eventual reunion with his true love, Camilla; and his relationships with William, Kate, Harry, and his grandchildren. Ranging from his glamorous palaces to his country homes, from his globe-trotting travels to his local initiatives, Smith shows how Prince Charles possesses a fiercely independent spirit and yet has spent more than six decades waiting for his destined role, living a life dictated by protocols he often struggles to obey. With keen insight and the discovery of unexpected new details, Smith lays bare the contradictions of a man who is more complicated, tragic, and compelling than we knew, until now. Praise for Prince Charles “[Smith] understands the British upper classes and aristocracy (including the royals) very well indeed. . . . [She] makes many telling, shrewd points in pursuit of realigning the popular image of Prince Charles.”—William Boyd, The New York Times Book Review “[A] masterly account.”—The Wall Street Journal “Thoroughly researched and insightful . . . In this profile, it is clear [Smith] got inside the circular barriers that protect the man and his position. The Charles that emerges is, as the subtitle suggests, both a paradox and a creature of his passions.”—The Washington Times “[A] compellingly juicy bio . . . Windsor-philes will be mesmerized.”—People “Prince Charles paints an affectingly human portrait. . . . Smith writes about [Charles's life] with a skill and sympathy she perfected in her 2012 biography of Charles's mother.”—The Christian Science Monitor “Comprehensive and admirably fair . . . Until his accession to the throne, Smith’s portrait will stand as the definitive study.”—Booklist (starred review) “[A] fascinating book that is not just about a man who would be king, but also about the duties that come with privilege.”—Walter Isaacson “Sally Bedell Smith has given us a complete and compelling portrait of the man in the shadow of the throne. It’s all here, from the back stairs of the palaces to the front pages of the tabs.”—Tom Brokaw
