 Winner of the Nobel
 Prize in Economics Get
 ready to change the
 way you think about
 economics. Nobel
 laureate Richard H.
 Thaler has spent his
 career studying the
 radical notion that the
 central agents in the
 economy are
 humans—predictable,
 error-prone individuals.
 Misbehaving is his
 arresting, frequently
 hilarious account of the
 struggle to bring an
 academic discipline
 back down to
 earth—and change the
 way we think about
 economics, ourselves,
 and our world.
 Traditional economics
 assumes rational
 actors. Early in his
 research, Thaler
 realized these Spock-
 like automatons were

nothing like real
 people. Whether
 buying a clock radio,
 selling basketball
 tickets, or applying for
 a mortgage, we all
 succumb to biases and
 make decisions that
 deviate from the
 standards of rationality
 assumed by
 economists. In other
 words, we misbehave.
 More importantly, our
 misbehavior has
 serious consequences.
 Dismissed at first by
 economists as an
 amusing sideshow, the
 study of human
 miscalculations and
 their effects on
 markets now drives
 efforts to make better
 decisions in our lives,
 our businesses, and
 our governments.
 Coupling recent
 discoveries in human
 psychology with a
 practical
 understanding of

incentives and market behavior, Thaler enlightens readers about how to make smarter decisions in an increasingly mystifying world. He reveals how behavioral economic analysis opens up new ways to look at everything from household finance to assigning faculty offices in a new building, to TV game shows, the NFL draft, and businesses like Uber. Laced with antic stories of Thaler's spirited battles with the bastions of traditional economic thinking, *Misbehaving* is a singular look into profound human foibles. When economics meets psychology, the implications for individuals, managers, and policy makers are both profound and

entertaining. Shortlisted for the Financial Times & McKinsey Business Book of the Year Award **Improving Job Attendance** John Wiley & Sons

The tribal areas of central and eastern India have been under the intractable shadow of left-wing extremism in recent years, fuelling a serious internal crisis in the country. While the clashes between the Maoists and the State have been highlighted by the media, academics and others, the situation of the people caught between the crossfire has often been overlooked. Kindling of

an Insurrection provides a gripping account of the lives of people in the conflict-affected district of Paschim Medinipur, West Bengal as experienced by a District Collector. By focusing on the plight of the people of Junglemahals — the term for the forested areas of the region — the author draws attention to the harsh living conditions, unstable occupations and almost non-existent education, highlighting the people's lack of access to developmental schemes implemented by the government and non-governmental organisations. Based on extensive tour notes, the narrative attempts a subtle balance between a personal diary and

official documentation, bringing to fore complexities, challenges and dynamics of the ground reality as also the administrative work carried out in the region. Accompanied by photographs, this book offers a rare chronicle of life in rural West Bengal, exposing the roots of the alienation of marginalised tribal communities, and the circumstances leading to the rise of an insurrection within the nation's heartland. Authoritative and lucid, the book will be indispensable for scholars and researchers in the areas of public administration, social work, development studies, social anthropology and politics. It will also

prove useful to policy makers, journalists and the general reader interested in West Bengal and left-wing extremism.
