Ein Deutschland ohne Ausländer – eine schreckliche Vorstellung oder doch der geheime Traum vieler Bundesbürger? Fast 40 Prozent aller Deutschen wünschen sich weniger Ausländer in der Bundesrepublik. Ob aus rechtsradikalen Ressentiments, aus Angst vor "Überfremdung" oder aus Angst um einen Arbeitsplatz. In diesem Buch lassen sich die renommierten Journalisten Matthias Thieme und Pitt von Bebenburg gedanklich auf das Experiment Deutschland ohne Ausländer ein: Was wäre, wenn plötzlich alle Mitbürger ohne deutschen Pass um uns herum verschwänden, letztlich Millionen Menschen von heute auf morgen weg wären? Was wäre mit dem Gesundheitssystem, den Unternehmen, dem Einzelhandel, aber auch bei Sport und Schulen? Was wären unsere Städte ohne Dönerbuden und chinesische Restaurants?

### Tod eines Politikers John Wiley & Sons

Offers a detailed account of the influence of English in German based on a large scale corpus analysis of the newsmagazine "Der Spiegel". This book presents a study that is structured into three parts, each of which deals with fundamental questions and as of yet unsolved and disputed issues in the domain of anglicism research and language contact.

### Satierisch lustig Blanvalet Verlag

Written without notes in Ireland, and first published pseudonymously in 1948, Imperium is Francis Parker Yockey's masterpiece. It is a critique of 19th-century rationalism and materialism, synthesising Oswald Spengler, Carl Schmitt, and Klaus Haushofer's geopolitics. In particular, it rethinks the themes of Spengler's *The Decline of the West* in an effort to account for the United States' then recent involvement in World War II and for the task bequeathed to Europe's political soldiers in the struggle to unite the Continent—heroically, rather than economically—in the realisation of the destiny implied in European High Culture. Yockey's radical attack on liberal thought, especially that embodied by Americanism (distinct from America or Americans), condemned his work to obscurity, its appeal limited to the post-war fascist underground. Yet, Imperium transcends both the immediate post-war situation and its initial readership: it opened pathways to a deconstruction of liberalism, and introduced the concept of cultural vitalism—the organic conceptualisation of culture, with all that attends to it. These contributions are even more relevant now than in their day, and provide us with a deeper understanding of, as well as tools to deal with, the situation in the West in current century. It is with this in mind that the present, 900-page, fully-annotated edition is offered, complete with a major foreword by Dr Kerry Bolton, Julius Evola's review as an afterword (in a fresh new translation), a comprehensive index, a chronology of Yockey's life, and an appendix, revealing, for the first time, much previously unknown information about the author's genealogical background.

### Pig Farm The Palingogenesis Project (Wermod and Wermod Publishing Group)

Adding some 20 percent to the original content, this is a completely updated edition of Steven Weisenburger's indispensable guide to Thomas Pynchon's *Gravity's Rainbow*. Weisenburger takes the reader page by page, often line by line, through the welter of historical references, scientific data, cultural fragments, anthropological research, jokes, and puns around which Pynchon wove his story. Weisenburger fully annotates Pynchon's use of languages ranging from Russian and Hebrew to such subdialects of English as 1940s street talk, drug lingo, and military slang as well as the more obscure terminology of black magic, Rosicrucianism, and Pavlovian psychology. The Companion also reveals the underlying organization of *Gravity's Rainbow*—how the book's myriad references form patterns of meaning and structure that have eluded both admirers and critics of the novel. The Companion is keyed to the pages of the principal American editions of *Gravity's Rainbow*: Viking/Penguin (1973), Bantam (1974), and the special, repaginated Penguin paperback (2000) honoring the novel as one of twenty "Great Books of the Twentieth Century."

Understanding the potential synergies between computer simulation and wargaming Based on the insights of experts in both domains, Simulation and Wargaming comprehensively explores the intersection between computer simulation and wargaming. This book shows how the practice of wargaming can be augmented and provide more detail-oriented insights using computer simulation, particularly as the complexity of military operations and the need for computational decision aids increases. The distinguished authors have hit upon two practical areas that have tremendous applications to share with one another but do not seem to be aware of that fact. The book includes insights into: The application of the data-driven speed inherent to computer simulation to wargames The application of the insight and analysis gained from wargames to computer simulation The areas of concern raised by the combination of these two disparate yet related fields New research and application opportunities emerging from the intersection Addressing professionals in the wargaming, modeling, and simulation industries, as well as decision makers and organizational leaders involved with wargaming and simulation, Simulation and Wargaming offers a multifaceted and insightful read and provides the foundation for future interdisciplinary progress in both domains.

Since its first appearance in 1962, the impact of The Gutenberg Galaxy has been felt around the world. It gave us the concept of the global village; that phrase has now been translated, along with the rest of the book, into twelve languages, from Japanese to Serbo-Croat. It helped establish Marshall McLuhan as the original 'media guru.' More than 200,000 copies are in print. The reissue of this landmark book reflects the continuing importance of McLuhan's work for contemporary readers. *Das Alexandria-Komplott* YOUPublish

Twenty-five years ago, Edward Said's Orientalism spawned a generation of scholarship on the denigrating and dangerous mirage of "the East" in the Western colonial mind. But "the West" is the more dangerous mirage of our own time, Ian Buruma and Avishai Margalit argue, and the idea of "the West" in the minds of its self-proclaimed enemies remains largely unexamined and woefully

misunderstood. Occidentalism is their groundbreaking investigation of the demonizing fantasies and stereotypes about the Western world that fuel such hatred in the hearts of others. We generally understand "radical Islam" as a purely Islamic phenomenon, but Buruma and Margalit show that while the Islamic part of radical Islam certainly is, the radical part owes a primary debt of inheritance to the West. Whatever else they are, al Qaeda and its ilk are revolutionary anti-Western political movements, and Buruma and Margalit show us that the bogeyman of the West who stalks their thinking is the same one who has haunted the thoughts of many other revolutionary groups, going back to the early nineteenth century. In this genealogy of the components of the anti-Western worldview, the same oppositions appear again and again: the heroic revolutionary versus the timid, soft bourgeois; the rootless, deracinated cosmopolitan living in the Western city, cut off from the roots of a spiritually healthy society; the sterile Western mind, all reason and no soul; the machine society, controlled from the center by a cabal of insiders—often Jews—pulling the hidden levers of power versus an organically knit-together one, a society of "blood and soil." The anti-Western virus has found a ready host in the Islamic world for a number of legitimate reasons, they argue, but in no way does that make it an exclusively Islamic matter. A work of extraordinary range and erudition, Occidentalism will permanently enlarge our collective frame of vision
