The Expedition of Cyrus Hassell Street
Press

In an absorbing account of a critical chapter in Rome's mastery of the Mediterranean, Robin Waterfield reveals the peculiar nature of Rome's eastern policy. For over seventy years, the Romans avoided annexation so that they could commit their military and financial resources to the fight against Carthage and elsewhere. Though ultimately a failure, this policy of indirect rule, punctuated by periodic brutal military interventions and intense diplomacy, worked well for several decades, until the Senate finally settled on more direct forms of control. Waterfield's fast-paced narrative focuses mainly on military and diplomatic maneuvers, but throughout he interweaves other topics and themes, such as the influence of Greek culture on Rome, the Roman aristocratic ethos, and

the clash between the two best fighting machines the ancient world ever produced: the Macedonian phalanx and Roman legion.

Xenophon's Anabasis Truman Talley Books

The year is 403 B.C. The Athenian philosopher Xenophon finds himself with an army of Greeks marching to what is now Turkey. Their mission: to aid the Persian pretender Cyrus in a war against his brother Artaxerxes. At a great battle, Cyrus is killed and his army destroyed—except for the Greeks holding his right flank. Xenophon and the Greeks are now stranded in the heart of the Persian Empire, outnumbered a hundred to one. The story of Xenophon's march to escape the Persian noose is an intensely personal and human tale, replete with clashes of arms and

desperate hardships. It is also the tale of two civilizations at mortal odds with each other. With their turbulent mix of anarchy and democracy, Xenophon's men resembled a mobile Greek city, cutting both a military and a cultural slash through the Persian Empire. Though Xenophon's journey would end badly, his experience in the East would prove invaluable for those who followed, for sixty years later, the Greeks would return to Persia under Alexander. John Prevas brings this epoch-shaping story to life with a compelling narrative vivified by his personal retracing of much of the route trod by Xenophon and his men in one of history's great adventures.

The Historie of Xenophon Franklin Classics

Xenophon's Hellenica is a Classical Greek ancient storyline separated into seven books that portray Greco-Persian history in the years 411–362 BC. Hellenica is one of the most important primary sources for the History of the Peloponnesian War and the war's aftermath. Many consider this a very personal work, written by Xenophon in retirement on his Spartan estate, intended primarily for circulation among his friends, for people who knew the main protagonists and events, often because they had participated in them. It covers the events in Greece from 411 to 362 BC, and is considered to be the continuation of the History of the Peloponnesian War by Thucydides. Hellenica Simon and Schuster In 1906, a stilted English translation of

Xenophon of Athens' story about Cyrus the Great's military campaigns was published. Now, a century later, a much more accessible edition of one of history's most extraordinary and successful leaders is emerging. Among his many achievements, this great leader of wisdom and virtue founded and extended the Persian Empire; conquered Babylon; freed 40,000 Jews from captivity; wrote mankind's first human rights charter; and ruled over those he had conquered with respect and benevolence. According to historian Will Durant, Cyrus the Great's military enemies knew that he was lenient, and they did not fight him with that desperate courage which men show when their only choice is "to kill or die." As a result the Iranians regarded him as

"The Father," the Babylonians as "The Liberator," the Greeks as the "Law-Giver," and the Jews as the "Anointed of the Lord." By freshening the voice, style and diction of Cyrus, Larry Hedrick has created a more contemporary Cyrus. A new generation of readers, including business executives and managers, military officers, and government officials, can now learn about and benefit from Cyrus the Great's extraordinary achievements, which exceeded all other leaders' throughout antiquity.

The Cyropaedia DigiCat

Cyropaedia The Education of Cyrus By Xenophon Classic Greek Literature Greek Classics Brand New Edition Xenophon; c. 430 - 354 BC, son of Gryllus, of the deme Erchia of Athens, also known as Xenophon of Athens, was a Greek

historian, soldier, mercenary, philosopher and a contemporary and admirer of Socrates. He is known for his writings on the history of his own times, the 4th century BC, preserving the sayings of Socrates, and descriptions of life in ancient Greece and the Persian Empire. Xenophon's birth date is uncertain, but most scholars agree that he was born around 430 BC near the city of Athens. Xenophon was born into the ranks of the upper classes, thus granting him access to certain privileges of the aristocracy of ancient Attica. While a young man, Xenophon participated in the expedition led by Cyrus the Younger against his older brother, king Artaxerxes II of Persia, in 401 BC. Xenophon writes that he had asked the veteran Socrates for advice on whether

to go with Cyrus, and that Socrates referred him to the divinely inspired Delphic oracle. Xenophon's query to the oracle, however, was not whether or not to accept Cyrus' invitation, but "to which of the gods he must pray and do sacrifice, so that he might best accomplish his intended journey and return in safety, with good fortune". The oracle answered his question and told him to which gods to pray and sacrifice. When Xenophon returned to Athens and told Socrates of the oracle's advice, Socrates chastised him for asking so disingenuous a question.

Xenophons Anabasis, Books 1-4 (1910)
Forgotten Books

The Expedition of Cyrus tells the story of the march of the Ten Thousand. The exploits of this famous army of Greek

mercenaries in modern-day Turkey, Syria, and Iraq were described by one of their leaders, the Athenian historian and philosopher Xenophon. Their long march, across mountains and plateaux to the sight of 'The sea! The sea!', back to the fringes of the Greek world, is the most exciting adventure story to survive from the ancient world.

Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks.

DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

Anabasis DigiCat

"Anabasis" (from the Greek "expedition") is the most famous work of the Ancient Greek professional soldier and writer Xenophon. The book tells about the expedition of a large army of Greek mercenaries hired by Cyrus the Younger to help him seize the throne of Persia from his brother, Artaxerxes II, in 401 BC.

The Persian Expedition Legare Street Press

"With this first masterpiece of Western military history forming the backbone of his book, Robin Waterfield explores what remains unsaid and assumed in Xenophon's account - much about the

gruesome nature of ancient battle and logistics, the lives of Greek and Persian soldiers, and questions of historical, political, and personal context, motivation, and conflicting agendas. The result is a rounded version of the story of Cyrus's ill-fated march and the Greeks' perilous retreat - a nuanced and

dramatic perspective on a critical moment in history that may tell us as much about our present-day adventures in the Middle East, site of Cyrus's debacle and the last act of the Golden Age, as it does about the great powers of antiquity in a volatile period of transition."--BOOK JACKET.
