Students will become experts of all things shapes through identification and measurement. Our resource introduces the mathematical concepts taken from real-life experiences, and provides warm-up and timed practice questions to strengthen procedural proficiency skills. Learn the different parts of a circle and how to calculate the radius, diameter and circumference. Calculate the area of squares, rectangles, parallelograms, triangles, circles, and trapezoids. Then, find the volume of cubes and rectangular prisms. Measure the surface area of spheres, cylinders, cubes, and rectangular prisms. Use a protractor to measure angles. Identify pairs of lines as parallel, perpendicular, skew, or intersecting. The task and drill sheets provide a leveled approach to learning, starting with grade 6 and increasing in difficulty to grade 8. Aligned to your State Standards and meeting the concepts addressed by the NCTM standards, reproducible task sheets, drill sheets, review and answer key are included.

"The lessons in Sizing Up Measurement: Activities for Grades 3-5 Classrooms focus on length, area, volume, angles, weight, time, and temperature. Each lesson is organized in an accessible, easy-to-use format that includes an overview, a list of materials, a vocabulary list, and step-by-step teaching directions. Students come away from these lessons with a deeper understanding of why and how to measure, and they develop the confidence required to make sense of any situation and the measurement tools involved."--pub. desc.

Measurement - Task Sheets Vol. 5 Gr. 6-8 Carson-Dellosa Publishing

This continuation of the Using the Standards series incorporates activities that focus on length, volume, weight, area, time, standard and nonstandard units, plus selecting appropriate tools for measuring. There are 6 books total with this series.

Spectrum Test Prep Grade 4 includes strategy-based activities for language arts and math, test tips to help answer questions, and critical thinking and reasoning. The Spectrum Test Prep series for grades 1 to 8 was developed by experts in education and was created to help students improve and strengthen their test-taking skills. The activities in each book not only feature essential practice in reading, math, and language arts test areas, but also prepare students to take standardized tests. Students learn how to follow directions, understand different test formats, use effective strategies to avoid common mistakes, and budget their time wisely. Step-by-step solutions in the answer key are included. These comprehensive workbooks are an excellent resource for developing skills for assessment success. Spectrum, the best-selling workbook series, is proud to provide quality educational materials that support your students' learning achievement and success.

Measurement - Task Sheets Vol. 2 Gr. 6-8 Carson-Dellosa Publishing

This is the chapter slice "Word Problems Vol. 5 Gr. 6-8" from the full lesson plan "Measurement"* For grades 6-8, our resource meets the measurement concepts addressed by the NCTM standards and encourages the students to learn and review the concepts in unique ways. We provide students the opportunity to learn, review, and master essential measurement skills by encouraging them to use, compare, analyze, and assess different units of measurement. Students will reinforce and develop their knowledge of measurement tools including: length, volume, time, money, weight and area. Students will be asked to use standard as well as metric units of measure as they practice these measurement skills. The task sheets offer space for reflection, and opportunity for the appropriate use of technology. Also contained are assessment and standards rubrics, review sheets, color activity posters and bonus worksheets. All of our content meets the Common Core State Standards and are written to Bloom's Taxonomy, STEM, and NCTM standards.
