Why bother to praise mathematics when you claim, as Alain Badiou does, that philosophy is first and foremost a metaphysics of happiness, or else it's not worth an hour of trouble? What possible relationship can there be between mathematics and happiness? That is precisely the issue at stake in this dialogue, which serves as a very accessible introduction to what mathematics is and an exploration of the crucial influence it has always exerted on the greatest philosophers. Far from the thankless, pointless exercises they are often thought to be, mathematics and logic are indispensable guides to ridding ourselves of dominant opinions and making possible an access to truths, or to a human experience of the utmost value. That is why mathematics may well be the shortest path to the true life, which, when it exists, is characterized by an incomparable happiness.

Little Goose's Autumn is a second stunning story from an exciting picture book pairing and the uplifting tale of a lively young goose finding her place in the world. As summer fades to autumn, a lively young goose feels a change in the air and senses she has something important to do - but what? The beavers are chopping wood, the squirrels are storing nuts in the ground and the bears are busy building a den. The plucky little goose tries to join in, but without great success. She realizes her wings weren't built for chopping wood, or burying food, or building a den, but they were built for something magnificent - they were built for flight . . . A beautiful, lyrical and hopeful story about finding your wings and your place in the world. Written by star picture book author, Elli Woollard with wonderful illustrations by rising talent, Briony May Smith, whose artwork brings an autumnal landscape of mountains and forests to life with truly breathtaking beauty.
