Data compiled by the Center for Disease Control and Prevention indicates an alarming and continuing increase in the prevalence of autism. Despite intensive research during the last few decades, autism remains a behavioral defined

syndrome wherein diagnostic criteria lack in construct validity. And, contrary to other conditions like diabetes and hypertension, there are no biomarkers for autism. However, new imaging methods are changing the way we think about autism, bringing us closer to a falsifiable definition for the condition, identifying affected individuals earlier in life, and recognizing different subtypes of autism. The imaging modalities discussed in this book emphasize the power of new technology to uncover important clues about the condition with the hope of developing effective interventions. Imaging the Brain in Autism was created to examine autism from a unique perspective that would emphasize results from different imaging technologies. These techniques show brain abnormalities in a significant percentage of patients, abnormalities that translate into aberrant functioning and significant clinical symptomatology. It is our hope that this newfound understanding will make the field work collaborative and provide a path that minimizes technical impediments.

" An enraged elephant flips a car onto its roof. A lioness prises open the door of a terrified couple. A leopard helps itself to a family's picnic breakfast. A fleeing impala leaps through an open car window. A lion charges around inside a busy rest camp. A hyaena snatches a baby from a tent. A tourist takes a bath in a croc-infested dam...These are just a few of the 101 jaw-dropping sightings, scrapes and encounters in this collection of extraordinary true stories from the roads, camps, picnic sites and walking trails of South Africa's Kruger National Park, as told by the very people who experienced them. There are no game ranger tales here - each and every story happened to an ordinary Kruger visitor doing what over a million tourists do in this spectacular reserve each year." -- Back cover.

When Frank and Kevin first met in an empty Arab airport lounge on their way to India in January 1985, it was the beginning of a friendship which would take them together across the length and breadth of the Indian sub-continent, ending up in the foothills of the Himalayas in Nepal. 'Kevin and I in India' is the unexpurgated, often outrageous, diary of their travels - from the hill-stations of the deep south to the Taj Mahal in the north, from the Goan beaches of the west to the sacred Ganges and the Bodhi Tree in the east. Full of anecdotes, observations and travellers' tales, the two Englishmen weave a crazy, erratic path through a variety of adventures and misadventures, in constant battle against officialdom, insects, heat, dust, ticket-queues and mad traffic. Here is the real India - stripped of illusion, but adorned with humour and exuberance. Here is a kaleidoscopic potpourri of fascinating sights, scenes and people, with each day of the journey more exciting, more packed with incident, than the last.

An urgent critique of the biopolitical subject and omnipresent Empire. Historical conflict no longer opposes two massive molar heaps, two classes—the exploited and the exploiters, the dominant and dominated, managers and workers—between which, in each individual case, it would be possible to differentiate. The front line no longer cuts through the middle of society; it now runs through each one of us... “—from *This Is Not a Program* Traditional lines of revolutionary struggle no longer hold. Rather, it is ubiquitous cybernetics, surveillance, and terror that create the illusion of difference within hegemony. Configurations of dissent and the rhetoric of revolution are merely the other face of capital, conforming identities to empty predicates, ensuring that even “thieves,” “saboteurs,” and “terrorists” no longer exceed the totalizing space of Empire. *This Is Not a Program* offers two texts, both originally published in French by Tiqqun with Introduction to Civil War in 2001. In *This Is Not a Program*, Tiqqun outlines a new path for resistance and struggle in the age of Empire, one that eschews the worn-out example of France's May '68 in favor of what they consider to be the still fruitful and contemporary insurrectionary movements in Italy of the 1970s. “As a Science of Apparatuses” examines the way Empire has enforced on the subject a veritable metaphysics of isolation and pacification, “apparatuses” that include chairs, desks, computers; surveillance (security guards, cameras); disease

(depression); crutch (cell phone, lover, sedative); and authority. Tiqqun's critique of the biopolitical subject and omnipresent Empire is all the more urgent as we become inured to the permanent state of exception that is the War on Terror and to other, no less intimate forms of pacification. But all is not lost. In its unrelenting production of the Same, Empire itself creates the conditions necessary for the insurrection to come. *Ship Automation* Lippincott Williams & Wilkins

You know what happens when bad boys get what they wish for? Everything. . . New York Times Bestselling Author Lori Foster *Playing Doctor* Attitude makes a huge difference in bed. It could be Axel Dean's motto. The sexy physician likes his women with sensual moxie, and Libby Preston definitely seems to fit that bill. There's that naughty grin. That hot bod. Her eager kisses and cheeky insults. Her. . . admitted virginity. Whoa. Okay, cue cold shower. Axel may not be an honorable man, but he has his limits. Except Libby won't take no for an answer. She's determined to have someone show her what she's been missing, and suddenly, Axel can't bear to think of Libby playing doctor with anyone else. . . USA Today Bestselling Author Erin McCarthy *The Lady of the Lake* Pro baseball player Dylan Diaz is pretty sure he's going to hell. When you rescue a drowning woman from a lake your first thought should be, "Are you okay?" not, "Can I make mad, passionate love to you?" But the minute sputtering kindergarten teacher Violet Caruthers is on Dylan's

boat, that's all he can think about. Maybe it's the potent combo of a nun's personality inside a stripper's body. Maybe it's the way she drives him crazy with desire and laughter. Or maybe, Dylan's finally found what's been missing in his life, and he's not about to let go. . .

This collection, which won the 2015 Costa Poetry Award, is an exhibition of the Dundee-born poet's stunningly accomplished adoption of the sonnet's ancient structure. This collection from Don Paterson, his first since the Forward Prize-winning *Rain* in 2009, is a series of forty luminous sonnets. Some take a traditional form, while others experiment with the reader's conception of the sonnet, but they all share the lyrical intelligence and musical gift that has made Paterson one of our most celebrated poets. Addressed to friends and enemies, the living and the dead, children, musicians, poets, and dogs, these poems are as ambitious in their scope and tonal range as in the breadth of their concerns. Here, voices call home from the blackout and the airlock, the storm cave and the s^oance, the coal shed, the war, the highway, the forest, and the sea. These are voices frustrated by distance and darkness, which ring with the "sound that fades up from the hiss, / like a glass some random downdraught had set ringing, / now full of its only note, its lonely call." In *40 Sonnets*, Paterson returns to some of his central themes—contradiction and

strangeness, tension and transformation, the dream world, and the divided self—in some of the most powerful and formally assured poems of his career.

This practical and helpful volume details how clinicians can work through various common challenges in individual, couple, or group psychotherapy. Chapters draw upon clinical wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt and unilateral termination of therapy, the therapist's loss of compassionate neutrality when treating a couple, and many more. Many of the "Clinical Pearls" prioritize working in the here-and-now. In addition to offering advice and strategies for therapists, the book also addresses concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, *Addressing Challenging Moments in Psychotherapy* is essential reading for all

clinicians, teachers, and supervisors of psychotherapy.
