Originally published in 1972, *A Literary History of Iowa*, which features writers published in book form between 1856 and the late 1960s, returns to print. One of Iowa's native sons, Ellis Parker Butler, once said that in Iowa 12 dollars were spent for fertilizer each time a dollar was spent for literature. Many readers will be surprised to learn from this book the extent of Iowa's distinguished literary past--the many prizes and praise received by her authors. To those already familiar with Iowa's credits, *A Literary History of Iowa* will be a nostalgic and informative delight. During the 1920s and 1930s, Iowa had good claim to recognition as the literary capital of the country. Clarence Andrews says that as he grew up he knew a host of Iowa writers. "I also knew that Iowa was winning a disproportionate share of the Pulitzer Prizes---Hamlin Garland, Margaret Wilson, Susan Glaspell, Frank Luther Mott, "Ding" Darling, Clark Mollenhoff. It was winning its share or more of prizes offered by publishers---and its authors' books were being selected as Book-of-the-Month and Literary Guild books. I knew too about Carl Van Vechten as part of that avant-garde group of midwest exiles---including Fitzgerald, Anderson, and Hemingway." *A Literary History of Iowa* looks at lowans who knew and cared for the state---people who wrote poetry, plays, musical plays, novels, and short stories about Iowa subjects, Iowa ideas, Iowa people. These writers often have dealt with such themes as the state's history, the rise of technology and its impact on the community, provincialism and exploitation, the problems of personal adjustment, and the family and the community. John T. Frederick, whose own books are paramount in Iowa's literary history, has pointed to Iowa's special contributions to the literature of rural life in saying that no other state can show its portrayal in "fiction so rich, so varied, and so generally sound as can Iowa."

Remember the movie Fatal Attraction? And the movie Basic Instinct? And the movie Play Misty For Me? Toss all three of the movies in a blender, hit frappe and stand back. What comes out would be Gary Taylor's new book Luggage By Kroger. Self-Publishing Review Magazine. And what a story it turned out to be! Reader Views online review. A riveting true story that reads like a high-octane crime thriller Midwest Book Review Catherine was destined to become several important things to me. But most prominently, she would become my problem-solver. Before I met her, I had a bunch of problems. Then, all of sudden, with her in my life I had only one. In Luggage By Kroger, former Houston Post reporter Gary Taylor recounts his intensely personal involvement in the trail of controversy that has followed Texas attorney Catherine Meheffey Shelton for nearly three decades. It's a trail littered with murder investigations and acts of violence that has warranted coverage by media outlets as diverse as People magazine, The Dallas Morning News, the Houston Chronicle, the Houston Press, CBS-News 48 Hours and the A&E channel's American Justice. It's a trail that has placed Taylor in the public eye as a true-life fatal attraction interview subject on talk shows from Oprah Winfrey to Sally Jesse Raphael. It's a story that has been twice-optioned for television docudramas and served as the lead segment on a prime-time TV special called Crimes of Passion. But the intimate details of Taylor's fatal attraction tale have remained under the radar until now. With his true crime memoir, Taylor invites the reader to grab a seat on the wild ride of an obsessive relationship, from its erotic beginning through the violent end and the trials required to clean up the mess. Laying bitterness aside, he employs self-deprecating humor to share comical anecdotes and maintain a reporter's detachment on what becomes a tale of self-discovery through a potentially deadly encounter that nearly cost him his life. Beyond that volatile relationship, Taylor's brief backstory offers a historical treasure trove of information from his days as a crime and courts reporter for The Post, covering some of the state's most significant criminal events: from the 1972 murder of Dr. John Hill, through the 1974 siege of Huntsville prison, the trial of officers accused in the death of Joe Campos Torres, early capital murder cases in the death penalty center of America and the Houston trial of Fort Worth tycoon T. Cullen Davis. Luggage By Kroger defies all efforts to pigeonhole it into one specific genre. In the end, however, it emerges as an action-packed and suspenseful memoir of a personal odyssey that should tantalize a wide range of reading interests.

Born in 1922 in a poor section of Jersey City, New Jersey, to parents with only third grade educations, this is the life story of Gus Prinsell. In this autobiography, Gus starts by reflecting on his humble beginnings -- his earliest childhood memories are of poverty wrought by the Great Depression. His father was unemployed for a decade. Gus's parents never wavered in insisting that their children pursue an education. World War II started as he was entering his 20s, and he served his country in the US Navy. After becoming a "born again" Christian in the early 1940s and marrying Louise Bininger, he finished college and earned his medical doctor degree from Columbia University in 1952. From there, Gus went on to study surgery and tropical medicine. He then turned away from material gains and dedicated his life to medical missions in West Africa, where he moved with Louise and their four sons and opened the new Kamakwie Wesleyan Hospital in 1959. In 1964, Gus returned to the States where he served as a family physician in Western New York until his retirement. Gus still lives in Houghton, New York, with his wife of over 70 years, Louise. At the ages of 94 and 91, Gus and Louise now have seven grandchildren and two great grandchildren. Gus takes us through his life's journey in his own words. Not only does he tell the story of his own life, but he effectively weaves in the stories of many of his family and friends. His trust in the Lord through faith has led Gus through his life of achievement. When asked to describe himself in one phrase, he defines himself as "a Christian missionary physician and humanitarian." His life of dedication to God and mankind is an example for us all.

A two-time National Book Award finalist delivers a stirring tale of the passions - tender, obsessive, even murderous - that are unleashed by a wartime love triangle. Seventeen-year-old Wyatt Hillyer is suddenly orphaned when his parents, within hours of each other, jump off two different bridges - the result of their separate involvements with the same compelling neighbor, a Halifax switchboard operator and aspiring actress. The suicides cause Wyatt to move to small-town Middle Economy to live with his uncle, aunt, and ravishing cousin Tilda. Setting in motion the novel's chain of life-altering passions and the wartime perfidy at its core is the arrival of the German student Hans

Mohring, carrying only a satchel. Actual historical incidents - including a German U-boat's sinking of the Nova Scotia-Newfoundland ferry *Caribou* - lend intense narrative power to Norman's uncannily layered story. Wyatt's account of the astonishing events leading up to his fathering of a beloved daughter spills out twenty-one years later. *What Is Left the Daughter* is Howard Norman at his celebrated best.

This book is about how you listen and what you hear, about how to have a dialogue with the sounds around you. Marcia Jenne Epstein gives readers the impetus and the tools to understand the sounds and noise that define their daily lives in this groundbreaking interdisciplinary study of how auditory stimuli impact both individuals and communities. Epstein employs scientific and sociological perspectives to examine noise in multiple contexts: as a threat to health and peace of mind, as a motivator for social cohesion, as a potent form of communication and expression of power. She draws on a massive base of specialist literature from fields as diverse as nursing and neuroscience, sociology and sound studies, acoustic ecology and urban planning, engineering, anthropology, and musicology, among others, synthesizing and explaining these findings to evaluate the ubiquitous effects of sound in everyday life. Epstein investigates speech and music as well as noise and explores their physical and cultural dimensions. Ultimately she argues for an engaged public dialogue on sound, built on a shared foundation of critical listening, and provides the understanding for all of us to speak and be heard in such a discussion. *Sound and Noise* is a timely evaluation of the noise that surrounds us, how we hear it, and what we can do about it.

The Sea of Separation HarperCollins

Existing books on the analysis of popular music focus on theory and methodology, and normally discuss parts of songs briefly as examples. The impression often given is that songs are being chosen simply to illuminate and exemplify a theoretical position. In this book the obverse is true: songs take centre stage and are given priority. The authors analyse and interpret them intensively from a variety of theoretical positions that illuminate the song. Thus, methods and theories have to prove their use value in the face of a heterogeneous, contemporary repertoire. The book brings together researchers from very different cultural backgrounds and encourages them to compare their different hearings and to discuss the ways in which they make sense of specific songs. All songs analysed are from the new millennium, most of them not older than three years. Because the most widely popular styles are too often ignored by academics, this book aims to shed light on how million sellers work musically. Therefore, it encompasses a broad palette, highlighting mainstream pop (Lady Gaga, Ke\$ha, Lucenzo, Amy McDonald), but also accounting for critically acclaimed 'indie' styles (Fleet Foxes, Death Cab for Cutie, PJ Harvey), R&B (Destiny's Child, Janelle Monae), popular hard rock (Kings of Leon, Rammstein), and current electronic music (Andrés, Björk). By concentrating on 13 well-known songs, this book offers some model analyses that can very easily be studied at home or used in seminars and classrooms for students of popular music at all academic levels.

A true story of hundreds of Jewish refugees and the sea journey they hoped would save them. On May 13, 1939, the eve of the Second World War, the *MS St. Louis* left port in Hamburg, Germany,

headed for Havana, Cuba. Among the ship's passengers were more than six hundred Jews attempting to escape Nazi rule. But most of the visas the passengers had purchased turned out to be fake, and after several days in limbo in Havana's harbor, the ship's captain turned back for Europe. Canadian and American activists petitioned their governments to accept the refugees on humanitarian grounds, but to no avail. On its return, the ship would distribute its passengers among European countries, and over the course of the war, an estimated 250 would die in Nazi concentration camps. This volume in the Stories of our Past series is illustrated with photos and sidebar features on the voyage, glimpses into the lives of passengers, a look at Canada's postwar refugee policy, and memorials dedicated to preserving the story of this tragic event in Canadian immigration history.

What does it mean to be a Canadian? What great ideas have changed our country? An award-winning writer casts her eye over our nation's history, highlighting some of our most important stories. From the acclaimed historian Charlotte Gray comes a richly rewarding book about what it means to be Canadian. Readers already know Gray as an award-winning biographer, a writer who has brilliantly captured significant individuals and dramatic moments in our history. Now, in *The Promise of Canada*, she weaves together masterful portraits of nine influential Canadians, creating a unique history of our country. What do these people—from George-Étienne Cartier and Emily Carr to Tommy Douglas, Margaret Atwood, and Elijah Harper—have in common? Each, according to Charlotte Gray, has left an indelible mark on Canada. Deliberately avoiding a top-down approach to history, Gray has chosen Canadians—some well-known, others less so—whose ideas, she argues, have become part of our collective conversation about who we are as a people. She also highlights

many other Canadians from all walks of life who have added to the ongoing debate, showing how our country has reinvented itself in every generation since Confederation, while at the same time holding to certain central beliefs. Beautifully illustrated with evocative black-and-white historical images and colorful artistic visions, and written in an engaging style, *The Promise of Canada* is a fresh, thoughtful, and inspiring view of our historical journey. Opening doors into our past, present, and future with this masterful work, Charlotte Gray makes Canada's history come alive and challenges us to envision the country we want to live in.

When Tessa Lloyd's sons-in-law became fathers, she searched for resources that would help inspire them—especially parenting stories from other fathers. However, that book didn't seem to exist. As a counsellor for children and families, Lloyd understood the ways a father-child relationship can have a lasting effect through the generations. Seeing a need, Lloyd decided to gather these stories herself. This resulting volume collects the stories and portraits of forty Canadian fathers who open up about both their own fathers and their deeply personal parenting experiences. This diverse group includes Prime Minister Justin Trudeau, writer Lawrence Hill, academic Niigaan Sinclair, athlete Trevor Linden, restaurateur Vikram Vij, anthropologist Wade Davis, musician Alan Doyle, artist Robert Bateman and philanthropist Rick Hansen. The contributors reflect on their varied parenting experiences and challenges, including parenting while incarcerated, parenting across cultural barriers, parenting through divorce, parenting while transgender, parenting as a celebrity and parenting with a disability. Many common themes emerge throughout the stories, including the process of overcoming cultural messages that encourage men to be strong, authoritarian and emotionally unavailable. The stories are extraordinarily candid and vulnerable, as the fathers describe their own failings, regrets and childhood traumas, as well as the humbling process of trying to do better. In one anecdote, Dr. Greg Wells describes the experience of meeting another father walking the empty streets at three a.m. with an infant, and how that moment of shared recognition gave him strength at a difficult time. The stories in this book offer a similar glimpse into the shared experiences and trials of fatherhood, but also offer fascinating reflections on the more universal experiences of finding one's place within a family and striving to be a better person for the sake of others.
