Your journey to financial freedom starts here!

Kapoor/Dlabay/Hughes' market-leading Personal Finance provides practical guidance on how students can achieve peace of mind with regard to their financial situation. It provides many financial planning tools using a step-by-step approach to help students identify and evaluate choices as well as understand the consequences of decisions in terms of opportunity costs. Managing money in order to obtain freedom from financial worries – that's what the 10th edition of Personal Finance is all about! This is the looseleaf version of the text.

**Focus on Personal Finance** McGraw-Hill/Irwin

Money-related stress dates as far back as concepts of money itself. Formerly it may have waxed and waned in tune with the economy, but today more individuals are experiencing financial mental anguish and self-destructive behavior regardless of bull or bear markets, recessions or boom periods. From a fringe area of psychology, financial therapy has emerged to meet increasingly salient concerns. Financial Therapy is the first full-length guide to the field, bridging theory, practical methods, and a growing cross-disciplinary evidence base to create a framework for improving this crucial aspect of clients' lives. Its contributors identify money-based disorders such as compulsive buying, financial hoarding, and workaholism, and analyze typical early experiences and the resulting mental constructs ("money scripts") that drive toxic relationships with money. Clearly relating financial stability to larger therapeutic goals, therapists from varied perspectives offer practical tools for assessment and intervention, advise on cultural and ethical considerations, and provide instructive case studies. A diverse palette of research-based and practice-based models meets monetary mental health issues with well-known treatment approaches, among them: Cognitive-behavioral and solution-focused therapies. Collaborative relationship models. Experiential approaches. Psychodynamic financial therapy. Feminist and humanistic approaches. Stages of change and motivational interviewing in financial therapy. A text that serves to introduce and define the field as well as plan for its future, Financial Therapy is an important investment for professionals in psychotherapy and counseling, family therapy, financial planning, and social policy.

Personal Finance, 2e by Walker/Walker offers students an engaging treatment of personal finance, while incorporating unique themes, an application-driven pedagogy, and a definitive action plan. Unlike other texts on the market, it offers a frank and timely discussion of living within one's means and incorporating personal values and priorities into a personal financial plan. The intent is to help readers set priorities that guide their finances, rather than the other way around. This book establishes a path toward financial freedom that is less about accumulating wealth and more about building a future tailored to individual goals. With Walker/Walker, your future looks bright!

**SmartBook Access Card for Personal Finance** Pearson Higher Ed Focus on Personal Finance is a brief, 14-chapter book, covering the critical topics in Personal Finance courses. This 4-color, paperback text is designed and written to appeal to a range of ages, life situations, and levels of financial literacy. A unique aspect of this text is its active approach. This text will not only get your students thinking about their current situation and financial goals, but also to put these in writing to use as a guide and revise over the course of their lives. The more a student involves themselves in the assessments, exercises and worksheets provided, the more they will discover about their current habits and how to improve them for greater financial freedom. Students have many different financial goals, but none are more important than having a basic understanding of financial issues and peace of mind with regard to their decisions. The ultimate goal of Focus on Personal Finance is to get students to this point as a first step to achieving the many financial goals they have set for themselves. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.
