The author of the famed American poem 'The Raven', Edgar Allan Poe didn't just write poems. He was also a literary critic of them. 'The Rationale of Verse' is an essay on the writing of poetic verses. Poe argues for verses to be written in a systematic manner and style, in respect to the arrangement of the words and syllables. Amongst his various suggestions on how to go about this, he opines that, "one-tenth of it, possibly, may be called ethical; nine-tenths, however, appertain to mathematics." He also makes a claim of being among the few critics, in his time, to study the aspect of systematic verse composition for a modern language such as English.

Considered by many to be the most characteristically American of

our twentieth-century poets, William Carlos Williams "wanted to write a poem / that you would understand / ,,But you got to try hard—." Using, or rather mimicking, traditional forms of storytelling Gogol created stories that are complete within themselves and only tangentially connected to a meaning or moral. His work belongs to the school of invention, where each twist and turn of the

narrative is a surprise unfettered by obligation to an overarching theme. Selected from Evenings on a Farm near Dikanka, Mirgorod, and the Petersburg tales and arranged in order of composition, the thirteen stories in *The Collected Tales of Nikolai Gogol* encompass the breadth of Gogol's literary achievement. From the demon-haunted "St. John's Eve" to the heartrending humiliations and trials of a titular councilor in "The Overcoat," Gogol's knack for turning literary conventions on their heads combined with his overt joy in the art of story telling shine through in each of the tales. This translation, by Richard Pevear and Larissa Volokhonsky, is as vigorous and darkly funny as the

original Russian. It allows readers to experience anew the unmistakable genius of a writer who paved the way for Dostevsky and Kafka.
