[Study Guide for Maternal Child Nursing Care - Revised Reprint](#) Saunders This money-saving package includes the 4th edition of Maternal Child Nursing Care - Text and Simulation Learning System. *Maternity, Newborn, and Women's*

Health Nursing Elsevier Health Sciences Assure your mastery of maternal and newborn nursing knowledge while honing your critical-thinking and test-taking skills. Over 1,160 NCLEX®-style questions on maternal and newborn nursing care reflect the latest test plan, including the more difficult SATA format. Rationales for correct and incorrect responses as well as test-taking tips help you to critically analyze the question types. Together, with a comprehensive exam at the end of the book, they provide the practice you need to build your confidence for course exams and the NCLEX.

Maternal and Child Health Nursing Mosby

Prepare today's LPN/LVN students for success on the NCLEX-PN® and in clinical practice with this proven introduction to the essentials of maternity and pediatric nursing. Designed specifically for the LPN curriculum, *Introductory Maternity and Pediatric Nursing, 5th Edition*, focuses on need-to-know coverage of pregnancy, birth, and pediatrics, combining a clear, straightforward approach with built-in workbook features that reinforce understanding without the need for an additional study guide. Accompanied by

engaging online resources, this up-to-date learning package provides the ideal foundation for your students' success in LPN/LVN practice.

Maternal-Child Nursing Mosby

Growing research shows that many children from immigrant and refugee families are not doing well in school, due in part to linguistic and cultural disadvantages. Teaching dual-language learners requires cultural sensitivity, an understanding of language acquisition, and intentional teaching strategies. Combining research and techniques, this resource helps early childhood educators support dual-language learners as they develop the skills necessary for school readiness and success.

Introductory Maternity & Pediatric Nursing Lww

This money saving package includes the Perry: Maternal Child Nursing Care, 4th edition textbook, and the Simulation Learning System (SLS) User Guide & Access Code for Perry's Maternal Child Nursing Care, 4th edition. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED. The Simulation Learning System (SLS) integrates simulation technology into your combined maternity and pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to Perry: Maternal Child Nursing Care, 4th edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references.

Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing.

Study Guide for Maternal-Child Nursing Mosby

This market-leading textbook provides just the "right amount" of maternity and pediatric content in an easy-to-understand manner. Divided into two sections, the first part of the book includes 28 chapters on maternity nursing and the second part contains 27 chapters covering pediatric nursing. Numerous illustrations, photos, boxes, and tables clarify key content and help you quickly find essential information. And because it's written by market-leading experts in maternity and pediatric nursing, you can be sure you're getting the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX(R) examination. UNIQUE! Nursing Alerts point out critical information to consider when caring for patients. UNIQUE! Guidelines boxes outline instructions for skills or procedures in an easy-to-follow, step-by-step format. UNIQUE! Emergency boxes offer quick reference to emergency procedures for critical maternity and pediatric emergencies. UNIQUE! Home Care boxes offer helpful guidelines for delivering effective care in the home environment. UNIQUE! Atraumatic Care boxes in the pediatric section illustrate how to provide competent nursing care without creating undue physical or psychological stress for pediatric patients, families, and nurses. UNIQUE! Community Focus boxes examine community issues and provide resources and guidance on caring for families outside the clinical setting. UNIQUE! Cultural Awareness boxes address

culturally competent care for patients with a variety of customs and beliefs. UNIQUE! Family-Centered Care boxes discuss the family's role and needs in caring for the patient. UNIQUE! Nursing Process boxes offer quick access to nursing process information for major diseases and conditions. Critical Thinking Exercises provide case scenarios to promote sound clinical decision making. Nursing Care Plans include rationales for interventions and provide specific guidelines for delivering effective nursing care. Patient Teaching boxes highlight important information for communicating continuing care instructions to patients and families. New and consolidated content on pain assessment and management focuses on this key aspect of pediatric nursing. Updated content on evidence-based practice illustrates how current research can be used to improve patient outcomes. The latest information in the field is included throughout, including expanded coverage of the late preterm infant and fetal heart rate pattern identification.
