*Labour Mini-Library Juta and Company
Ltd*

This volume presents a theoretical and strategic discussion on the linkages between sustainable graduate employability and economic growth. With case studies from India, South Africa, Taiwan, UK, Germany, USA, UAE,

Australia, and France, it looks at the skills training and education landscape around the world, examines the state of employment, and offers case-specific recommendations. The book analyzes the role of higher education and vocational education policies and strategies in integrating skill training in education in order to achieve quality education and sustainable employment for all. An important critique of skills training, education policy and planning, the volume will be an essential read for scholars and researchers of sustainable development, development studies, public policy, political economy, labour studies, and education. It will also be useful for policymakers.

Directory of Law-related CD-ROMs Juta and Company Ltd

Book & CD. This fourth edition makes it clear that all who are interested in the sustainability of South Africa -- and Africa -- must put human resource management (HRM) at the very core of the management of organisations generally. The content is aligned to outcomes that are geared towards analytical and critical thinking about the theory and practice of HRM in South Africa. The African context is addressed, and ample information about HRM aspects 'elsewhere in Africa' is provided. This edition breaks away even further from the traditional structure of so many standard HRM textbooks. It challenges a broadening of the 'agenda' and scope of HRM work: HRM is not only about managing employees, but also about managing the work and the people who

do the work of and in organisations. This may involve alternative ways of getting the work of organisations done superiorly. This book will help you to apply HRM effectively to achieve its ultimate aim, namely to add value to people, to organisations and to society. This comprehensive book is organised around themes such as: Developing an appreciation for the context of HRM in South Africa; Strategising, designing and planning as preparatory HRM work; Sourcing work talent; Facing the countrys people empowerment challenge; Meeting the reward and care challenge; Handling labour and employee relations challenges; Championing change and transformation; Managing HRM-related information, including HRM and

sustainability reporting. Based on most recent theoretical developments, the emphasis is on the practical applications. Samples of relevant documents are included, and an accompanying CD contains a wealth of relevant resources as well as a continuing, integrating case study that serves as a basis for these applications, and individual and group activities. As a package, South African Human Resource Management will be extremely valuable to both current and aspirant managers, and human resource practitioners.

South African Labour Bulletin AOSIS

Preface -- Table of cases -- 1.

Introduction to administrative law -- 2.

The control of administrative power -- 3.

Judicial review -- 4. Administrative action

-- 5. Lawfulness -- 6. Reasonableness --

Comprehensive directory of databases as well as services "involved in the production and distribution of information in electronic form." There is a detailed subject index and function/service classification as well as name, keyword, and geographical location indexes.

Social and Economic Rights in Theory and Practice Routledge

"Labour Relations: A southern African perspective is the seventh edition of a text first published in 1989 under the title Labour Relations in South Africa. At that time, it was the first comprehensive textbook of its kind and was hailed as having reached the finishing line when others were still at the starting block. Since then continuous social, political

and legislative developments, and the ever-changing labour relations scenario, have necessitated regular updates, as well as the more recent change to its title. Like its predecessors, this edition uses the labour 'relationship' as its starting point, guiding readers through the establishment of labour relations systems, the key participants and interactions involved and the legislation governing these interactions. It does this by using detailed practical examples, explanations and real-life cases where applicable. In various parts of this latest edition, the text touches on the Fourth Industrial Revolution, the nature of changes to come and the implications for the world of work."--Publisher's description.

This is a guide to computer-readable databases available online, in CD-ROM format, or in other magnetic formats. Details include database descriptions, costs, and whom to contact for purchase. The material is indexed alphabetically, and by subject, vendor, and producer.

Community Development Juta and Company Ltd

Let's begin with the basics: violence is an inherent part of policing. The police represent the most direct means by which the state imposes its will on the citizenry. They are armed, trained, and authorized to use force. Like the possibility of arrest, the threat of violence is implicit in every police encounter. Violence, as well as the law,

is what they represent. Using media reports alone, the Cato Institute's last annual study listed nearly seven thousand victims of police "misconduct" in the United States. But such stories of police brutality only scratch the surface of a national epidemic. Every year, tens of thousands are framed, blackmailed, beaten, sexually assaulted, or killed by cops. Hundreds of millions of dollars are spent on civil judgments and settlements annually. Individual lives, families, and communities are destroyed. In this extensively revised and updated edition of his seminal study of policing in the United States, Kristian Williams shows that police brutality isn't an anomaly, but is built into the very meaning of law enforcement in the United States. From antebellum slave patrols to today's

unarmed youth being gunned down in the streets, "peace keepers" have always used force to shape behavior, repress dissent, and defend the powerful. Our Enemies in Blue is a well-researched page-turner that both makes historical sense of this legalized social pathology and maps out possible alternatives.

Bowker's Law Books and Serials in Print African Books Collective

This book is written to fulfil a need among industrial relations practitioners and students for a comprehensive reference work in industrial relations, with particular emphasis on the South African situation.

Labour Relations Gale Cengage

students and lecturers have come to rely on.

The Oera Linda Book Juta and Company Ltd

The average 21st-century career is one of constant change: an individual can no longer expect to remain with one organisation his or her entire life, achieving managerial status through natural progression. Today's job market requires constant re-training and adjustment because of skills obsolescence, age discrimination and technological illiteracy. On the other hand, younger or less qualified workers find it difficult to enter the labour market because of a lack of skills or experience. Career counsellors should be able to help clients to navigate this difficult and changing role. The book offers a

practical framework within which the career counsellor can work. The text explains the role of the career counsellor within the organisation; discusses the key concepts that influence career behaviour; explains the use of counselling and guidance tools and techniques; offers insight into the profession and practice of career counselling; and provides guidance within an international and a South African context. Integrating theoretical and practical perspectives, this book offers a comprehensive overview of career counselling and guidance services, practices, tools and techniques in an organisational context. It consists of five chapters, each of which has a summary, key terms and review and discussion questions.

Contemporary Research on Business and Management Juta and Company Ltd

The Handbook is a comprehensive account of over a decade of South African Bill of Rights jurisprudence. The extensive detail of the Handbook and its coverage of all aspects of Bill of Rights jurisprudence and practice have made it a standard reference work for this important area of law. The book has been thoroughly revised for the fifth edition, in particular to cover developments in the areas of application, constitutional jurisdiction and remedies and the emerging jurisprudence on the positive duties imposed by the Bill of Rights.

The Influence of Labour Legislation on Job Creation and Job Sustainability in South Africa Juta

The book deals with labour relations/employment relations matters encountered by HR officers, managers, union representatives and those engaged in advisory services.

Law and Legal Information Directory Juta and Company Ltd

The book provides articles on child law in South Africa. It includes topics such as: maintenance for children; legal representation; adoption; special protection; Socio economic rights; ; inter country adoption; school discipline; sexual offences and detention of children.

Administrative Law in South Africa Gale Cengage

The book, made up of three parts, covers a wide spectrum of political economy issues on post-apartheid South Africa.

Although the text is mainly descriptive, to explain various areas of the political economy of post-apartheid South Africa, the first and the last parts provide illuminating insights on the kind of society that is emerging during the twenty-one years of democracy in the country. The book discusses important aspects of the political history of apartheid South Africa and the evolution of post-apartheid society, including an important recap of the history of southern Africa before colonialism. The text is a comprehensive description of numerous political economy phenomena since South Africa gained its political independence and covers some important themes that have not been discussed in detail in other publications on post-apartheid South Africa. The book

also updates earlier work of the author on policy and law making, land and agriculture, education and training as well as on poverty and inequality in post-apartheid South Africa thereby providing a wide-ranging overview of the socio-economic development approaches followed by the successive post-apartheid administrations. Interestingly, three chapters focus on various aspects of the post-apartheid South African economy: economic policies, economic empowerment and industrial development. Through the lens of the notion of democratic developmental state and taking apartheid colonialism as a point of departure, the book suggests that, so far, post-apartheid South Africa has mixed socio-economic progress. The authors extensive experience in the

South African government ensures that the book has policy relevance while it is also theoretically sound. The text is useful for anyone who wants to understand the totality of the policies and legislation as well as the political economy interventions pursued since 1994 by the South African Government.

Political Economy of Post-apartheid South Africa CRC Press

Social science researchers in the global South, and in South Africa particularly, utilise research methods in innovative ways in order to respond to contexts characterised by diversity, racial and political tensions, socioeconomic disparities and gender inequalities. These methods often remain undocumented – a gap that this book starts to address. Written by experts

from various methodological fields, *Transforming Research Methods in the Social Sciences* is a comprehensive collation of original essays and cutting-edge research that demonstrates the variety of novel techniques and research methods available to researchers responding to these context-bound issues. It is particularly relevant for study and research in the fields of applied psychology, sociology, ethnography, biography and anthropology. In addition to their unique combination of conceptual and application issues, the chapters also include discussions on ethical considerations relevant to the method in similar global South contexts. *Transforming Research Methods in the Social Sciences* has much to offer to

researchers, professionals and others involved in social science research both locally and internationally.

Career Counselling and Guidance in the Workplace AK Press

This book deals with labour relations act, basic conditions of employment and employment equity acts, affirmative action, discrimination in employment, strikes and lock-outs, collective bargaining and many other issues.

Finance Week Taylor & Francis

This book contains selected papers presented at the 4th International Seminar of Contemporary Research on Business and Management (ISCRBM 2020), which was organized by the Alliance of Indonesian Master of Management Program (APMMI) and held in Surabaya, Indonesia, 25-27 November

2020. It was hosted by the Master of Management Program Indonesia University and co-hosts Airlangga University, Sriwijaya University, Trunojoyo University of Madura, and Telkom University, and supported by Telkom Indonesia and Triputra. The seminar aimed to provide a forum for leading scholars, academics, researchers, and practitioners in business and management area to reflect on current issues, challenges and opportunities, and to share the latest innovative research and best practice. This seminar brought together participants to exchange ideas on the future development of management disciplines: human resources, marketing, operations, finance, strategic management and entrepreneurship.

Our Enemies in Blue NYU Press Schwarz on Tax Treaties is the definitive analysis of tax treaties from United Kingdom and Irish perspectives and provides in-depth expert analysis of the interpretation and interaction of those treaty networks with the European Union and international law.
