An amazing and extraordinary account of how an ordinary group of people could experience a huge range of psychic phenomena. With the 'supernatural' being an every day occurrence. At the end of the 19th century, the group formed a Society to develop and safely practise the paranormal. Villified by the public and

critics, the Spiritualists fought back against those who said they were involved in witchcraft, demons and possession in order to assert a "rugged individualism" in matters of the spirit. For the first time the role of class within the psychic community is examined. The impact of the First World War and social conditions is looked at in particular reference to people in the city of York and using a wealth of new material and photographs, never before published, from local and national archives the author is able to explore in depth the lives of the Society and the experience of attending a

Physical Seance over an extended period of more than 30 years at the beginning of the 20th century.

What could the team of EVP Investigations expect to find at their next ghost hunt?

What started out as a typical paranormal investigation ends up leading them to an abandoned house deep in the wilds of the Appalachian Mountains, turns terribly wrong. A malevolent, wicked entity puts these friends through one of the worst nightmarish experiences anyone could imagine. This excerpt gives the reader a taste of what demented twists can be found in this novel by Evansville

Vanderburgh Paranormal founder and author Rick Kueber: Two things crossed my mind; first, this can't be happening, I should have passed out and be dead long before now... and second, this much torment and torture would surely cause a hatred that only one who had experienced it could understand. The flames engulfed me and the heat was so concentrated that the muscles of my legs were burning to a charred crisp in some areas, and in other

places... well, let's just say 'so tender it falls off the bone' had a whole new morbid meaning to me. I collapsed. When my body hit the floor, the floor itself gave way beneath me. I fell to the cellar floor about four feet below, but the chain did not reach the floor. Its short length caused my leg to abruptly stop with a snap and my upper body and head slammed into the dirt floor below, along with the cinders, and ash and burning embers of the wooden floor. Then as if by some supernatural force, a shadow came over me, and even the flames lost their light. They not only lost their light, but they went out completely. I laid there face down, my body contorted in such an inhuman way, and my leg still caught in the irons two feet off of the ground. I cannot fathom how my consciousness remained. My body was a mass of charred flesh and bubbling blood and bodily fluids only oozed slightly, as most had evaporated, and been 'cooked' out of me. The pain would not end and seemed to only worsen with each passing second. I sobbed in my mind, for I could no longer move my body. A realization came over me at that point, and there were truths I

could not deny. I could feel pain. Though I knew I was too badly burnt, I could see. I also knew that during the horror of the experience I could remember my ears burning off of my head, and feeling my eardrums burst, yet somehow I could hear...everything. I...was...dead. I closed my 'mind's eye' and let everything go dark.

"Occult Investigator, Real Cases from the Files of X-Investigations," chronicles author and private detective Bob Johnson's REAL-WORLD experiences investigating all manner of paranormal and occult events. He is the founder of the world's only occult and paranormal investigation firm - X-

Investigations, that's affiliated with a licensed New York City private investigations company. Unlike the myriad "ghost busting" teams that garner media attention for their "scary photos and creepy sound recordings," Johnson and X-Investigations first uses its PI resources to verify if a case warrants any kind of actual occult solutions and if so confronts the events face-to-face using clairvoyant and proven ritualistic methods. Their company credo: "We Face Your Fears." He's the Sam Spade of ghosts, witches, demons and things that scare the hell out of you at night who's studied under preeminent ghost hunter Hans Holzer. That's the best way to describe the protagonist and real-life pilgrim of the night as he and his voluptuous Czech sidekick, Silvana recount their adventures into the supernatural around the globe. The author, takes you on a roller coaster ghost busting ride across the country and even into the dark woods of Transylvania (that's right, in Romania). In eleven riveting chapters, written in a hard-boiled detective staccato style, the X-Investigations team reveals the details of their most frightening and in some ways

totally unexplained occult cases. Unlike the myriad "paranormal" investigations and ghost hunting books on the market, Occult Investigator tackles more bizarre challenges including a computer cursed by black magick, a vampire teen who has a blood sucking psychic link with his spitting-image cousin, the werewolf of Van Nuys, California, killer cats, Satanic neighbors in a Manhattan apartment, and our favorite, a sexually crazed succubus housewife who blames demons for her insatiable cravings!

They hear strange things at night - eerie moans and wails from tiny windows up on the roof. They see flickering lights too, like someone's moving about inside. But no one's been in there for years. A woman on her first trip to Louisiana takes a French Quarter ghost tour. She sees the darkened structure and realizes it's the source of terrifying dreams since her childhood. The point of departure for this book is a phenomenon which is often referred to as the "return of the religious," a recent but apparently ubiquitous phenomenon which does not fit the modernist axiom of secularization, neither in the "developed" nor the "developing" worlds. In Africa, the last two decades have witnessed a remarkable and steady increase in the spread and reinforcement of occult and paranormal phenomena. The reports on these developments are not restricted to specific countries or areas; they cover the whole continent and surface in the most diverse images, media, stories, and rumors. The credence accorded to them has become an important factor that shapes social relationships in everyday life, economic and political actions,

medical decisions, and religious adherence. (Series: African Studies / Afrikanische Studien - Vol. 47)

Thomas Bell is an analyst for the Department of Paranormal Study and Defense, where he goes toe-to-toe with the invisible supernatural threats that pierce every layer of society, and covers up every trace of their presence. His estranged ex-wife, anxiety and depression, and persistent memories of childhood trauma serve as constant obstacles in his struggle to stay sane in the face of the impossible. Though substance abuse and casual sex will keep the inner demons at bay, the real ones just find more and more to prey on. A routine arrest-and-exorcise op goes awry, and Tom must escort the entity to Japan, where it'll be handed off to Harold Saldana--the man with all of Japan's supernatural trafficking under his thumb. Hosting the demon is professional medium Shinichiro Keda, and Tom is suspicious of this soft-spoken freelancer, especially when it seems that he and Harold have something of a history. Meanwhile in the

small town of Orchard, West Virginia, a terrifying presence has taken root. When Tom arrives to track down a missing girl, he comes face to face with a horror from his past, adding yet more to his psychological balancing act. A CLASSIC IN PARANORMAL RESEARCH AND ABNORMAL PSYCHOLOGY THE ONLY COMPLETE AND UNABRIDGED EDITION  
Learn how a medical doctor and psychiatrist working in conjunction with a spiritualist medium cured many psychogenic abnormalities and removed obsessions and supposed "curses" from those among the living who were undergoing fits of mental suffering and physical maladies This is the only unabridged edition of this classic work that caused a sensation when originally published and for decades after. For many, including those in the psychiatric profession, this book offered solutions to problems and situations that could NOT be

found using any other forms of treatment. THIRTY YEARS AMONG THE DEAD details the work of Dr. Carl A Wickland and his wife, medium Anna Wickland who cured many obsessed persons, persuading discarnate spirits to give up their hold on their victims, thus restoring their patients to normal, happy lives. Together, for more than a quarter of a century they "conversed" with spirits of the dead who had lead less than exemplary lives while inhabiting a human body. They had been the worse lowlifes - criminals, alcoholics, drug users, wife beaters, and the all around depraved. The Wickland's theorized that these demented spirits of the dead liked to hang around the living "like a sponge" so that they could continue their vulturine activities. In essence they would leach onto those who were prone to similar fits of debauchery, or were well on their way to a life of unabated revelry and eventual damnation. Many of Dr Wickland's patients had given up all hope of a normal, sane life. They accepted methods of treating and possibly curing such aberrant behavior through neurological and conventional medical concepts did NOT hold much weight with

the doctor and his spiritualist spouse who could communicate with those on the other side of the veil. One doctor from the Mental Section of the American Medical Association, might have been overstepping his bounds when he declared: "I often see the spirits who cause insanity. . . At times, I even hear their voices. Insane persons who are spoken of as hopelessly insane are frequently lost under the overwhelming control of a spirit or crowd of spirits. We frequently find by postmortem examination that no physical disorder exists in the brain or nervous system of such persons." Here is the eerie paranormal "truth" as Dr Wickland saw it, about: Spirits and Crime. - Spirits and Suicide. - Spirits and Narcotics, Insobriety and Amnesia - Tormented Spirits. - Marriage Disturbances. - Opposition To The Use Of The Ouija Board. - The Use Of The Wimhurst Generator In Treating Patients. And much more! Perhaps with all the madness we see in the world and all those who suffer in silence and walk the streets with mental illness - hearing voices that tell them to kill - suffocating their lives and affecting us all in a very negative

manner - we should take another look at Dr Wickland's controversial theories - for it is he who for thirty years walked among the dead!
