Presented here in a new and complete translation is the Japanese classic Okagami, an historical talc that mirrors a man's life and the times in which he lived. Dating from the late eleventh or early twelfth century, it focuses on Fujiwara Michinaga, the leading political figure in the great family that dominated the court during most of the Helan period. Originally published in 1980. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. Japanese Poetic Diaries BRILL

Haiku Vol III (Summer and Autumn) continues Blyth's seasonal exploration of haiku. It seems that something about the hot and uncomfortable months of summer in particular brought out the humor and sarcasm of the great haiku poets.

Zen was popularized in the West largely through the writings of Dr. D.T. Suzuki, who followed the school of Rinzaï Zen. Although it remains relatively unknown in the West, Soto Zen eventually attracted

the greatest number of followers in Japan. With its gentle, more intellectual approach, Soto Zen relies on deep meditation (zazen) rather than the "sudden," direct method (using koan) of Rinzaï Zen, in striving for enlightenment. The Shobogenzo Zuimonki consists largely of brief talks, horatory remarks, and instructional and cautionary comments by the Soto Zen Master Dogen (1200-1253). Translated, shobogenzo means "the eye of the true law." Roughly translated, zuimonki means "easy for the ears to understand," or "simplified."

Shôtetsu monogatari was written by a disciple of Shôtetsu (1381-1459), whom many scholars regard as the last great poet of the courtly tradition. The work provides information about the practice of poetry during the 14th and 15th centuries, including anecdotes about famous poets, advice on how to treat certain standard topics, and lessons in etiquette when attending or participating in poetry contests and gatherings. But unlike the many other works of that time that stop at that level, Shôtetsu's contributions to medieval aesthetics gained prominence, showing him as a worthy heir—both as poet and thinker—to the legacy of the great poet-critic Fujiwara no Teika (1162-1241). The last project of the late Robert H. Brower, *Conversations with Shôtetsu* provides a translation of the complete Nihon koten bungaku taikai text, as edited by Hisamatsu Sen'ichi. Steven D. Carter has annotated the translation and provided an introduction that details Shôtetsu's life, his place in the poetic circles of his day, and the relationship of his work to the larger poetic tradition of medieval Japan. *Conversations with Shôtetsu* is important reading for anyone interested in medieval Japanese literature and culture, in poetry, and in aesthetics. It provides a unique look at the literary world of late medieval Japan.

This volume is the first work in either English or Japanese to offer a comprehensive explanation and analysis of the principles of the Noh theatre. The book painstakingly outlines both physical and intellectual aspects of Noh, its technical principles and its philosophical perspectives, unknown until now.

"There is hardly any book equal to *Ways of Thinking of Eastern Peoples* in terms of its thorough and systematic presentation of the intricate thought patterns of Asian peoples. The book not only is an essential reference for the student of Asian culture, but also for students of philosophy, religion, anthropology, and art, as it is an excellent source for aiding the student in gaining a deeper understanding of each facet of Oriental thought." --Isshi Yamada, Northwestern University "The clearest discussion and analysis of these complex subjects that I have found. My advanced undergraduate students find this work to be 'stimulating', 'challenging' and 'comprehensible.' The organization of the text enhances the usefulness of this volume, but it is the high quality of the scholarship that makes *Ways of Thinking* a most valuable addition to Asian studies and to the academic training of upper division students." --Ann B. Radwan, University of North Florida "I find *Ways of thinking* a most provocative source for exploring with my students certain basic themes in Eastern religion and culture. Used carefully, it is a most stimulating and effective source for tapping Eastern 'ways' at a fundamental level of inquiry." --Wilbur M. Fridell, University of California, Santa Barbara
A Tale of Flowering Fortunes Simon and Schuster

Originally published in 1931, this classic work of interpretative Japanese scholarship was revised in 1946 and again in 1952. Although termed "a short history," the book—the only distinguished general survey of Japanese history in English before World War II—covers the economic, social, and religious changes in Japan from the fourth through to the nineteenth century and the breakdown of feudalism. Based on both primary and secondary sources in Japan, Sansom makes plain the way Japanese have come, and shows why they are what they are, enabling the reader to get some grip on the situation in the Far East. Fine plates, line drawings, a map, and an excellent index complement this instructive and fascinating Japanese history book.

Haiku (Volume III) Floating World Editions

The second volume carries forward the story of Japanese court poetry through its Early Classical period, drawing from sources dating from the 890s to the 1080s. These two centuries saw the revival of the prestige of poetry in the native tongue after a century of official preference for versification in Chinese. An anthology of anthologies, *Grasses of Remembrance* draws copiously from the first four imperially ordered collections, *Kokinshu*, *Gosenshu*, *Shuishu*, and *Goshuishu*, examining the structure and illustrating the content of each. In all, the book contains over 2,600 poems in lively and readable translation, including selections from *Shinsen Man'yoshu*, a late-ninth-century collection of parallel verses in Chinese and Japanese, and all 795 poems from *The Tale of Genji*.

This work provides the first complete annotated translation of Dogen's collected Japanese poetry (waka) along with an analysis of the role of aesthetics in Dogen's philosophical writings in light of medieval Japanese literature. It argues that Dogen's approach to Buddhist thought is not characterized by a clear-cut and one-sided rejection of aesthetics. Rather, Dogen's standpoint is based on a fundamental paradoxicality encompassing the interplay of religion and literature, didacticism and lyricism, and absolute and relative expressing a contemplative view of nature and impermanence that is compatible with traditional Japanese religio-aesthetics. This work also critically assesses recent Japanese scholarship on Dogen's poetry in cultural history and textual studies, and examines the medieval and modern history of the waka collection text and commentaries."

In this revisionist study of texts from the mid-Heian period in Japan, H. Richard Okada offers new readings of three well-known tales: *The Tale of the Bamboo-cutter*, *The Tale of Ise*, and *The Tale of Genji*. Okada contends that the cultural and gendered significance of these works has been distorted by previous commentaries and translations belonging to the larger patriarchal and colonialist discourse of Western civilization. He goes on to suggest that this universalist discourse, which silences the feminine aspects of these texts and subsumes their writing in misapplied Western canonical literary terms, is sanctioned and maintained by the discipline of Japanese literature. Okada develops a highly original and sophisticated reading strategy that demonstrates how readers might understand texts belonging to a different time and place without being complicit in their assimilation to categories derived from Western literary traditions. The author's reading strategy is based on the texts' own resistance to modes of analysis that employ such Western canonical terms as novel, lyric, and third-person narrative. Emphasis is also given to the distinctive cultural circles, as well as socio-political and genealogical circumstances that surrounded the emergence of the texts. Indispensable readings for specialists in literature, cultural studies, and Japanese literature and history, *Figures of Resistance* will also appeal to general readers interested in the problems and complexities of studying another culture.

The writings of Zen master Dogen are among the highest achievements not only of Japanese literature but of world literature. Dogen's writings are a near-

perfect expression of truth, beautifully expressing the best of which the human race is capable. In this volume, Francis Cook presents ten selections from Dogen's masterwork, the *Shobogenzo*, as well as six of his own essays brilliantly illuminating the mind of this peerless master.

A Blade of Grass Princeton University Press

The Heian court of the late ninth and early tenth centuries represents one of the most innovative and influential periods in the history of Japanese poetry. It witnessed the creation of entirely new forms of verse in poetry matches, screen poems, and officially sponsored anthologies, none of which had a precedent in earlier times. At the apex of these phenomena lay compilation of the *Kokin Wakashu* (Collection of Poems Ancient and Modern), whose status as the first imperial anthology of native poetry would make it integral to Japanese court culture for centuries afterward. Despite the enormous historical significance of these new forms of poetry and the marked interest displayed by powerful individuals in patronizing them, however, little sustained attention has been paid to the ties between the practices of producing and performing verse and processes of economic, ideological, political, and social change in this period. This book is intended to address such issues through an investigation of the ways in which different members of the court community deployed poems in the pursuit of power.

Leading literary scholar and critic Koji Kawamoto examines traditional Japanese poetry and shows how the deceptively simple metrics of seven and five syllables

packs information and intense emotional content into a short space. The book also provides an overview of the development

of the "waka" and "haiku" forms, using hundreds of examples from ancient to

modern poets to illustrate the ways in which meaning and image are transmitted by traditional metric forms.
