Uncorked quenches our curiosity about the inner workings of one of the world's most prized beverages. Esteemed for its freshness, vitality, and sensuality, champagne is a wine of great complexity. Mysteries aplenty gush forth with the popping of that cork. Just what is that fizz? Can you judge champagne quality by how big the bubbles are, how long they last, or how they behave before they fade? And why does serving champagne in a long-stemmed flute prolong its chill and

effervescence? Through lively prose and a wealth of state-of-the-art photos, this revised edition of *Uncorked* unlocks the door to what champagne is all about. Providing an unprecedented close-up view of the beauty in the bubbles, Gérard Liger-Belair presents images that look surprisingly like lovely flowers, geometric patterns, even galaxies as the bubbles rise through the glass and burst forth on the surface. He illustrates how bubbles form not on the glass itself but are "born" out of debris stuck on the glass wall, how they rise, and how they pop. Offering a colorful history of champagne, Liger-Belair tells us how it is made and he asks if global warming could spell champagne's demise. In a brand-new afterword, he updates the

reader on new developments in the world of bubble science and delves even more deeply into the processes that give champagne its unique and beautiful character. Bubbly may tickle the nose, but *Uncorked* tackles what the nose and the naked eye cannot--the spectacular science that gives champagne its charm and champagne drinkers immeasurable pleasure.

Fresh herbs offer a healthy and delicious way to spice up any meal, but growing and cooking with these delectable plants are endeavors fraught with uncertainty. What herbs will grow year-round on my kitchen windowsill? What foods complement rosemary? Which part of a lemongrass

plant has the best flavor? Can I really eat the geraniums growing in my flower bed? This indispensable guide from The Herb Society of America takes the guesswork out of using herbs in the garden and in the kitchen by providing detailed information for cultivating a wide variety of herbs, along with easy-to-follow recipes that will surely impress even the most discerning palate. Ranging from Alliums (onions, chives, and garlic) to Zingiber (ginger), the volume's first section provides horticultural information for each of the sixty-three herbs found in the National Herb Garden's Culinary Garden, including common and botanical names, family, place of origin, hardiness, and general light and soil requirements. Botanical sketches accompany many of the entries. Each entry also includes a short history of the herb, gardening basics, and suggestions for using the herb in your kitchen. Culinary herbs without Generally Recognized as Safe (GRAS) Status are included in a separate section, with an explanation of their history and ornamental value. An informative introduction to this section compares several different definitions of the word

herb, explains the advantages of fresh over dried herbs, describes the proper storage and use of spices, and suggests the best timing and methods for harvesting herbs. In the second part of the book, HSA members offer classic and creative recipes for more than two hundred dishes incorporating a variety of herbs. Learn how to use the aromatic and flavorful herbs in your garden to enhance stews and casseroles, create dips and pestos, and add a new dimension to your favorite liqueurs. Among the mouth-watering recipes featured are Lemon Basil Tea Bread, Chicken Linguine with Fennel and Tarragon, Five-Herb Pasta Salad, and Rosemary Fizz. The concluding section of the book contains a fascinating personal tour of the two-and-one-half-acre National Herb Garden, which lies in the heart of Washington, D.C., at the center of the United States National Arboretum, and of its various themed areas, including the Knot Garden, the Antique and Heritage Rose Garden, the Dye Garden, the Colonial Garden, the Native American Garden, the Beverage Garden, the Medicinal Garden, and many others. Complete plant lists accompany the description of each

garden. Green thumbs and gourmets alike will find inspiration in these pages to look at herbs in new ways -- perhaps to see beyond their cupboards and into their own yards for ways to liven up their meals -- and will gain the knowledge and confidence to grow and use herbs effectively. More than a gardening book, more than a cookbook, The Herb Society of America's Essential Guide to Growing and Cooking with Herbs will prove to be an indispensable companion for all herb lovers.

Harry N. Abrams

Take One's Essential Guide to Canadian Film is the most exhaustive and up-to-date reference book on Canadian film and filmmakers, combining 700 reviews and biographical listings with a detailed chronology of major events in Canadian film and television history. Compiled by Wyndham Wise, the editor and publisher of Take One, Canada's most respected film magazine, with a foreword by Canadian director Patricia Rozema, this is the only reference book of its kind published in English. Each film title is listed with credits, a mini review, and significant awards. Biographical listings of directors, producers, actors, writers, animators, cinematographers, distributors, exhibitors, and independent filmmakers are accompanied by date and place of birth, date of death if applicable, a brief career overview, and a filmography. Wise celebrates Canadian achievement on both a national and an international scale, and juxtaposes the distinctly Canadian with Canada's exports to Hollywood: Maury Chaykin and Jim Carrey, John Candy and William Shatner, Mon Oncle Antoine and

Porky's, Highway 61 and Meatballs, The Red Violin and The Art of War. From great early Hollywood stars like Walter Huston, Fay Wray, Mary Pickford, Norma Shearer, and Marie Dressler, to our current crop of star directors - including Patricia Rozema, Atom Egoyan, David Cronenberg, Denys Arcand, Peter Mettler, Guy Maddin, and Robert Lepage - Canadians have made an important but largely unrecorded contribution to the history of world cinema. Impressive for its breadth of coverage, refreshing in its opinionated informality, this comprehensive and lively look at Canadian film culture at the start of the twenty-first century admirably fills the gap.

Both the region of Champagne and its wines have always been associated with prestige and luxury. Knowledgeable wine enthusiasts have long discussed top Champagnes with the same reverence they reserve for the finest wines of Bordeaux and Burgundy. But everyday Americans usually keep Champagne way back on the high shelf. It's for big celebrations, send-offs, and wedding toasts and, more often than not, is bought by the case. The good stuff costs plenty—and frankly, rarely seems worth the price. Today, though, Champagne is in the midst of a renaissance—no longer to be unjustly neglected. Over the past decade, an increasing number of wine enthusiasts have discovered the joys of grower Champagne—wines made by the farmers who grow the grapes. Thanks to a few key wine importers and America's newfound obsession with knowing where food comes from, these shipments have

been climbing steadily. In *But First, Champagne*, author David White details Champagne's history along with that of its wines, explains how and why the market is changing, and profiles the region's leading producers. This book is essential reading for wine enthusiasts, adventurous drinkers, foodies, sommeliers, and drinks professionals. With a comprehensive yet accessible overview of the region, its history, and its leading producers, *But First, Champagne* will demystify Champagne for all. From the foreword: "Smart, entertaining, and valuable . . . one of those rare wine books that should appeal to people just getting into Champagne and longtime Champagne obsessives." —Ray Isle, Executive Wine Editor, Food & Wine
