MOODY MADDOX

The Crowded Greenhouse Academic Press
In Everyday Harumi, now reissued as an attractive jacketed paperback, Harumi Kurihara, Japan's most popular cookery writer, selects her favourite foods and presents more than 60 new home-style recipes for you to make for family and friends. Harumi wants everyone to be able to make her recipes and she demonstrates how easy it is to cook Japanese food for every day occasions without needing to shop at specialist food stores. Using many of her favourite ingredients, Harumi presents recipes for soups, starters, snacks, party dishes, main courses and family feasts that are quick and simple to

prepare, all presented in her effortless, down-to-earth and unpretentious approach to stylish living and eating. Every recipe is photographed and includes beautiful step-by-step instructions that show key Japanese cooking techniques. Texture and flavour are important to Japanese food and Harumi takes you through the basic sauces you can make at home and the staples you should have in your store cupboard. Photographed by award-winning photographer Jason Lowe, this warm and approachable cookbook invites you to cook and share Japanese food in a simple and elegant style.

Der Schlepper im Rückblick Delius Klasing Verlag GmbH

What is the best way to move our planet to a safe and sustainable future? This book

focuses on two global issues - rapid population growth and a human-induced climate change caused by emissions - that lie at the heart of this problem. John Firor and Judith Jacobsen summarize the current status of these two issues, show how they are related to one another, and prescribe steps that governments, economies, societies, and individuals can adopt to ensure their stability.

AI and Cloud Computing, Volume 120 in the Advances in Computers series, highlights new advances in the field, with this updated volume presenting interesting chapters on topics including A Deep-forest based Approach for Detecting Fraudulent Online Transaction, Design of Cyber-Physical-Social Systems with Forensic-awareness Based on Deep Learning, Review on Privacy-preserving Data Comparison Protocols in Cloud Computing, Fingerprint Liveness Detection Using an Improved CNN with the Spatial Pyramid Pooling Structure, Protecting Personal Sensitive Data Security in the Cloud with Blockchain, and more. Provides the authority and expertise of leading contributors from an international board of authors Presents the latest release in the Advances in Computers series Includes the latest information on AI and Cloud Computing

Everyday Harumi University of Chicago Press

The best-selling memoir *Confessions of a Kamikaze Cowboy* tells the fascinating story of actor Dirk Benedict's journey from

the big sky country of Montana to the hustle and hype of Hollywood. It also describes his odyssey of self-discovery and growth as he changes from struggling actor to celebrity, from meat eater to vegetarian, from cancer victim to cancer victor. Brilliantly written—insightful, witty, and always challenging—*Confessions of a Kamikaze Cowboy* may change the way you perceive actors, and even make you reconsider the truths in your own life. *Sowing Ideas. Harvesting the Future.*

Amberley Publishing Limited

This series is directed to healthcare professionals who are leading the transformation of health care by using information and knowledge. Launched in 1988 as *Computers in Health Care*, the series offers a broad range of titles: some addressed to specific professions such as nursing, medicine, and health administration; others to special areas of practice such as trauma and radiology. Still other books in the series focus on interdisciplinary issues, such as the computer-based patient record, electronic health records, and networked healthcare systems. Renamed *Health Informatics* in 1998 to reflect the rapid evolution in the

discipline now known as health informatics, the series will continue to add titles that contribute to the evolution of the field. In the series, eminent - perts, serving as editors or authors, offer their accounts of innovations in health informatics. Increasingly, these accounts go beyond hardware and software to address the role of information in influencing the transformation of healthcare delivery systems around the world. The series also increasingly focuses on “peopleware” and the organizational, behavioral, and societal changes that accompany the diffusion of information technology in health services environments.

Claas-Maschinen im Einsatz Sarah Crichton Books

The complete illustrated story of the combine harvester. Accompanied by a wide variety of new colour photographs, this book will appeal to farm machinery enthusiasts and those interested in the development of modern industrial machinery.

When a Crocodile Eats the Sun University of Michigan Library

Few scholars have been as influential in

finance, both as an academic field and an industry, as Eugene Fama. Since writing his groundbreaking 1970 essay on efficient capital markets, Fama has written over 100 papers and books that have been cited hundreds of thousands of times. Yet there is no one collection where one can easily find his best work in all fields. “The Fama Portfolio” will be an outstanding and unprecedented resource in a field that still concentrates mainly on questions stemming from Fama’s work: Is the finance industry too large or too small? Why do people continue to pay active managers so much? What accounts for the monstrous amount of trading? Do high-speed traders help or hurt? The ideas, facts, and empirical methods in Fama’s work continue to guide these investigations. “The Fama Portfolio” will be a historic and long-lasting collection of some of the finest work ever produced in finance.”

The Record Interpreter LIT Verlag Münster

One of our most influential anthropologists reevaluates her long and illustrious career by returning to her roots—and the roots of life as we know it *When Elizabeth Marshall*

Thomas first arrived in Africa to live among the Kalahari San, or bushmen, it was 1950, she was nineteen years old, and these last surviving hunter-gatherers were living as humans had lived for 15,000 centuries. Thomas wound up writing about their world in a seminal work, *The Harmless People* (1959). It has never gone out of print. Back then, this was uncharted territory and little was known about our human origins. Today, our beginnings are better understood. And after a lifetime of interest in the bushmen, Thomas has come to see that their lifestyle reveals great, hidden truths about human evolution. As she displayed in her bestseller, *The Hidden Life of Dogs*, Thomas has a rare gift for giving voice to the voices we don't usually listen to, and helps us see the path that we have taken in our human journey. In *The Old Way*, she shows how the skills and customs of the hunter-gatherer share much in common with the survival tactics of our animal predecessors. And since it is "knowledge, not objects, that endure" over time, Thomas vividly brings us to see how linked we are to our origins in the animal kingdom. *The Old Way* is a rare and

remarkable achievement, sure to stir up controversy, and worthy of celebration. **Siembra Square One Publishers, Inc.** After his father's heart attack in 1984, Peter Godwin began a series of pilgrimages back to Zimbabwe, the land of his birth, from Manhattan, where he now lives. On these frequent visits to check on his elderly parents, he bore witness to Zimbabwe's dramatic spiral downwards into the jaws of violent chaos, presided over by an increasingly enraged dictator. And yet long after their comfortable lifestyle had been shattered and millions were fleeing, his parents refuse to leave, steadfast in their allegiance to the failed state that has been their adopted home for 50 years. Then Godwin discovered a shocking family secret that helped explain their loyalty. Africa was his father's sanctuary from another identity, another world. *When a Crocodile Eats the Sun* is a stirring memoir of the disintegration of a family set against the collapse of a country. But it is also a vivid portrait of the profound strength of the human spirit and the enduring power of love.

unsere Tage. Nach älteren und neueren Quellen Springer Science & Business Media

"Darryl knows my game now. He knows what's going to work and what's not going to work. It's about fine-tuning it and always trying to improve.... It's an ongoing conversation about how to get better and how to pick up a little thing here or there to give yourself an advantage." —Patrick Kane, from his foreword *An unmissable look at how even hockey's best find ways to get even better.* Darryl Belfry is regarded as hockey's premier development coach, with clients including Sidney Crosby, Patrick Kane, John Tavares, and Auston Matthews. But his highly sought-after training methods aren't only for elite NHL stars; they have helped players of all levels uncover new pathways to performance excellence. Packed with fascinating stories and valuable insight, *Belfry Hockey: Strategies to Teach the World's Best Athletes* details this powerful curriculum, developed over years of persistent research. It's a system that emphasizes discovering authentic identity, pinpointing translatable skill, building a personal performance matrix, and more.

Not only will players learn hundreds of techniques to improve their game, but teachers—inside and outside of hockey coaching—will gain an arsenal of groundbreaking strategies to connect with their students.

Holstein Stallion Lines Hachette UK

Includes the presentation of 30 outstanding and formative innovations as examples of the CLAAS company's innovative culture Addresses issues such as artificial intelligence in agriculture, market research, and patent protection

The CLAAS company, one of the world's leading manufacturers of agricultural engineering equipment, has managed to successfully reconcile tradition and innovation since it was founded in 1913. In this book, the authors show how a spirit of inventiveness and a deeply ingrained culture that values innovation has brought visionary technologies in equipment design and production to fruition. It tells the compelling story of this international company and introduces some of the

smart minds behind the most forward-thinking ideas. In fusing mechanical engineering with digitalization, CLAAS has developed ground-breaking technologies that address the future of agriculture and one of the greatest challenges of our time: feeding an ever-growing global population.
