The Encyclopedia of Italian Literary Studies is a two-volume reference book containing some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works, from the most important figures of Italian literature to little known authors and works that are influential to the field. The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars.

The bestselling author of *Under the Tuscan Sun* discovers the hidden pleasures of Italy in a sumptuous travel narrative that crisscrosses the country, with inventive new recipes celebrating Italian cuisine. Don't miss Frances Mayes in PBS's *Dream of Italy: Tuscan Sun Special!* "Reading this book is a vacation in itself."—The New York Times Book Review (Best Travel Books of the Summer) The Roman Forum, the Leaning Tower, the Piazza San Marco: these are the sights synonymous with Italy. But such landmarks only scratch the surface of this magical country's offerings. In *See You in the Piazza*, Frances Mayes introduces us to the Italy only the locals know, as she and her husband, Ed, eat and drink their way through thirteen regions—from Friuli to Sicily. Along the way, she seeks out the cultural and historic gems not found in traditional guidebooks. Frances conjures the

enchantment of the backstreets, the hubbub of the markets, the dreamlike wonder of that space between lunch and dinner when a city cracks open to those who would wander or when a mind is drawn into the pages of a delicious book—and discloses to us the secrets that only someone who is on intimate terms with a place could find.

This study argues that neorealism's visual genius is inseparable from its almost invisible relation to the Fascist past: a connection inscribed in cinematic landscapes. While largely a silent narrative, neorealism's complex visual processing of two decades of Fascism remains the greatest cultural production in the service of memorialization and comprehension for a nation that had neither a Nuremberg nor a formal process of reconciliation. Through her readings of canonical neorealist films, Minghelli unearths the memorial strata of the neorealist image and investigates the complex historical charge that invests this cinema. This book is both a formal analysis of the new conception of the cinematic image born from a crisis of memory, and a reflection on the relation between cinema and memory. Films discussed include *Ossessione* (1943) *Paisà* (1946), *Ladri di biciclette* (1948), and *Cronaca di un amore* (1950).

This book offers a critical analysis of global mobilities across China and Italy in history. In three periods in the twentieth century, new patterns of physical mobilities and cultural contact were established between the two countries which were either novel at the time of their emergence or impactful on subsequent periods. The first two chapters provide overviews of writings by Italians in China and by Chinese in Italy in the twentieth century. The remaining chapters cover: Republican China's relationships with Italy and Italian Fascist colonialism in China during the 1920s-1930s; Italian travelers to China during the Cold War from the 1950s to the 1970s; migrations between China and Italy during the 2000s-2010s. In analyzing these cultural mobilities, this book opens a new line of inquiry in Chinese-Italian Cultural Studies, which has been dominated by historical study, and contributes a significant case study to the scholarship on global cultural mobilities. Ernest Hemingway is most often associated with Spain and Cuba, but Italy was equally important in his life and work. Hemingway in Italy, the first full-length book exploring Hemmingway's penchant for Italy, offers a lively account of the many visits Hemingway made throughout his life to Italian locales, including Sicily, Genoa, Rapallo, Cortina, and Venice. In evocative prose, complemented by a rich selection of historical images, Richard Owen takes us on a tour through Hemingway's Italy. He describes how Hemingway first visited the country of the Latins during World War I, an experience that set the scene for *A Farewell to Arms*. Then after World War II, it was in Italy that he found inspiration for *Across the River and into the Trees*. Again and again, the

Italian landscape—from the Venetian lagoon to the Dolomites and beyond—deeply affected one of the greatest writers of the twentieth century. Hemingway in Italy demonstrates that Italy stands alongside Spain as a key influence on Hemingway's work—and why the Italians themselves hold Hemingway and his writing close to their hearts.
