Will pressing the elevator button three times put it into “faster mode?” Did we break the secret elevator code? No. We all look for ways to break the “hidden codes” in our lives. Why? To better

understand our world. Or maybe to discover shortcuts. It is the same when we try to understand our brains and the brains of our prospects. We wonder: - Why does my brain work against me? - What is my brain doing while I am not paying attention? - How do I break through the irrational defenses of my prospects? - What can I say to get through to prejudiced prospects? - Can I do something to change other people's minds? - How can I understand my own irrational brain? It is hard to play the game if we don't know the rules. Our brains operate in strange ways, but many of these quirks are consistent. We can learn some of these special brain rules and work with them. If we don't, we'll simply walk away muttering, "I just don't get it. Nothing makes sense." So

instead of cursing the darkness, enjoy learning new and better ways to understand how we and our prospects think and act. We will smile as we learn how to deal with the 3-pound challenges inside our skulls. And the bonus? We will recognize these irrational brain rules as they play out in real life. With knowledge comes power.

One tiny story ... changes everything. A ten-second story equals the impact of 1,000 facts. Now we can use micro-stories to communicate our network marketing message in just seconds. Our prospect becomes involved in the story, and instantly sees what we see. And isn't that what we want? Forget the flip chart,

the presentation book, the website, the PowerPoint, and the video. Instead, use stories to get that "Yes" decision now. Later we can do our boring, fact-filled presentation. As an added bonus, stories answer objections. No more frustration or push-back from negative prospects. And of course, stories are easy to remember, both for us and our prospect. Here are the actual stories I use, word-for-word. Join the top earners now and become a professional storyteller. Order your copy now and start enjoying some great MLM and network marketing stories to move your business forward. Get our prospects to make a "yes" decision immediately ... even before our presentation begins! Pre-closing is natural. We make a final decision to go to a movie before we see the movie. We make a final decision to go to a restaurant before we see the menu. It is the same with sales presentations. Prospects decide first if they want our business or product, before they see our facts, features and benefits. Closing at the end of our presentations creates stress for us and our prospects. We hate the feeling of pushing for a final decision at the end of our presentation. Now we can confidently give our presentations

without the pressure of trying to convince our prospects. Why? Because our prospects already want what we offer. Getting a “yes” decision first makes sense. Why would we even want to present our business or products unless our prospects wanted them first? Now our prospects will love every detail of our presentation. No stress. No rejection. And a lot more fun. So instead of selling to customers with facts, feature and benefits, let’s talk to prospects in a way they like. We can now get that “yes” decision first, so the rest of our presentation will be easy. Scroll up now, get your copy, and get your prospects to say “yes” immediately!

Afraid of closing? That is an

understatement. I used to talk with prospects on and on and on, afraid to close. I thought if I kept the conversation going long enough, they would eventually volunteer their “yes” decision. Of course, that never happened. So, in my lifelong quest to avoid rejection, I had to find new and effective closes that work. Here are 46 years’ worth of our best closes. All of these closes are kind and comfortable for prospects, and rejection-free for us. Here are just a few of the closes you will learn and love: *

- * The million-dollar close.
- * Managing the decision-making funnel.
- * Having prospects close themselves.
- * Removing risk and uncertainty.
- * Making objection-solving easy in seconds.
- * And of course, many strategies to quickly remove the “I need to think it over” objection. Old-

school closing is old news. In today's world, prospects are over-exposed to marketing and are sales-resistant. Use these closes to help our prospects move forward and say "yes" to our offers. Not every close is perfect for every prospect. We want a variety of closes. Let's choose which close is best for our prospects, and most natural for us. Never be afraid of closing again. In fact, we will look forward to closing. Happy times ahead! Scroll up now and get your copy.

In the past MLM required a lot of face-to-face meetings and sales presentations which are difficult to produce. Do you know why you need to grasp the basics of Network Marketing? Do you know what tools to create to build your business efficiently? Have you wanted to take your business to the next level, but don't know where to start? Or maybe you just want to get informed on the many ways there are to build your business! Network Marketing is a form of business in which a merchant network is required to assemble the business. Typically, such businesses are

additionally multilevel marketing in nature in that payouts happen at more than a level. Network marketing is a business model that relies upon individual to-individual deals by autonomous agents, frequently telecommuting from home. There are truly very few opportunities that you can get involved in which will allow you to start with a relatively small investment and turn that into a six-figure or even seven figure income. If you think about it, many professionals that earn six figures plus incomes have to invest a tremendous amount of time, energy, and money in order to reach that level. If you wanted to be a doctor, you'd have to invest 8-12 years in school, and (in most cases) rack up \$100k - \$300k in student loan debt before you could even begin

earning a single penny! If you wanted to be a lawyer, you'd have to invest 6-7 years in school, racking up \$80k - \$150k before you would be eligible to earn a single penny! In network marketing, most people invest \$500 - \$2,000 to get started, and work 2-5 years to build their six-figure income. BUT - network marketers are getting paid while they are learning. Unlike other high-paying professions, you are earning as you learn, not waiting until you finish a bunch of school before you begin earning. And of course, most other high-paying professions require that you trade your time for money. If you don't show up to work, you don't get paid. It's hard to get ahead or get out of the rat-race if you are simply trading time for money. With network marketing, you are

building a residual income that continues to pay you even if you don't directly put in the effort! Of course you can't do this on your third week in a new business, but over time you are leveraging the time and talent of other people that you bring into your team, so that you aren't in a position where you are perpetually trading time for money. This book covers the following topics: What is network marketing? A brief history of multi-level marketing Mindset Find your target market Relationship marketing The power of social media in network marketing Mistakes new network marketers make How to pick a great network marketing company Questions to ask before joining a network marketing company Promoting products Develop your leadership ...And much

more This model frees up both your time and money so that you can build true wealth and time freedom as well. And that is why this is the best industry to be a part of, and why right now is the perfect time to get started. Let's get started.
