## ALYSON AXEL

The Diver's Handbook Simon Pridmore

An essential resource for divers. This comprehensive reference has information for divers of all levels, from the beginning basics to advanced skills and techniques for those with more experience. With its 350 full color photographs, easy-to-understand diagrams and tips from professionals, this book covers everything: the descent from the surface and the ascent back; all breathing techniques required; and advanced skills for cave diving, wreck diving, and search and recovery using the latest technology. Combining detailed instruction with step-by-step exercises and practice programs, *The Scuba Diving Handbook* guides divers as they explore all aspects of the sport. Among the topics: Choosing an instructor The science of scuba Deep diving Raising heavy objects Equipment failure Boat handling before, during and after a dive Diving with big animals nearby Exploring wrecks Finding (or avoiding) shark-infested waters. There is a wealth of information for planning diving trips in temperate, tropical and even arctic waters, as well as expert advice on conquering fear, using underwater cameras and avoiding the bends. This book is ideal for any diver -- both newcomers requiring intensive guidance and advanced divers seeking a quick brush-up.

**Sport Diver** Cornell Maritime Press/Tidewater Publishers

A thorough introduction to both snorkeling and scuba diving that covers such topics as equipment and safety.

*Wreck Diver Manual* Dolman Scott Publishing

Your guide to snorkeling, scuba, night-diving, free-diving, exploring shipwrecks, caves, and more.

**Enriched Air Diver Manual** New Holland Australia(AU)

"Explores the fascinating world of shipwrecks and wreck diving. This book describes the dives grouped according to the territorial waters in which they lie. It offers a spectrum of dives, from shallow dives on artificial reefs (formed by sinking old or decommissioned ships) to spectacular descents, to major wrecks such as the *Lusitania*"--Publisher's description.

No blurb required by author.

Complete Wreck Diving Austin Macauley

Only available in e-book form, this is the presentation in one volume of four books in Simon Pridmore's Scuba series: *Scuba Fundamental*, *Scuba Confidential*, *Scuba Exceptional* and *Scuba Professional*. In musical terms, *Scuba Compendium* is a re-mastering and repackaging of the original albums rather than a greatest hits or a Best of compilation. The books were written and published over a period of eight years and each book was designed for divers at a particular point in their diving life. Listed in the order they were written, the audience for *Scuba Confidential* was the general population of divers; *Scuba Professional* was for those thinking of making a career out of the sport; *Scuba Fundamental* was for non-divers and beginners and *Scuba Exceptional* was for more experienced divers. The idea was not to create a series. It just turned out that way. A number of

topics merited inclusion for multiple groups of readers -

rebreathers and surface safety for example - which meant that

there was some unavoidable overlap between the individual

books. In *Scuba Compendium*, the text and chapters have been

cleaned up and streamlined to remove any unnecessary

repetition and improve continuity. Apart from this, nothing is

missing from the four original books and the only new material is

an introductory chapter on the philosophy behind the Scuba

series. So, if you already own all the books in the Scuba series,

from a content point of view you have no need to buy this one.

However, from a reference point of view, some readers may find

it an advantage to have these four books in one volume where

every word or phrase in the series is easily searchable on an e-

reader. They are arranged here in the order in which they make

sense as a series, following the path from beginner to diver to

experienced diver to expert. *Scuba Compendium* covers the full

gamut of the sport diving experience and is a resource that will

accompany a scuba diver throughout their career in the sport,

wherever it takes them, to be dipped back into from time to time

whenever necessary. If you only own one or two books in the

series, then you may find *Scuba Compendium* well worthwhile for

another reason too. For instance, if you are not a beginner, you

may think you don't need to read *Scuba Fundamental*, but many

experienced divers have found it useful and entertaining. Also,

*Scuba Professional* introduces a number of topics, such as real

risk awareness and constructive paranoia, which are just as

relevant for amateur divers as they are for professionals.

Although the title makes it sound as if *Scuba Professional* is only

for instructors, this is certainly not the case. And, of course, if you

have not yet bought any of these four Scuba series books, then

this is a great option to buy all of them together with just one

click. "Scuba Fundamental is a great book! Simon Pridmore is to

be congratulated for this insightful, interesting and honest

introduction to scuba diving. He tells it as it is!" John Lippmann,

Divers Alert Network "If PADI's Open-Water manual is the Bible of

scuba diving, consider this the New Testament." David Espinosa,

Editor in Chief, *Sport Diver* magazines "I so wish *Scuba*

*Exceptional* had existed when I was in the early days of my diving

life nearly 30 years ago!" Phil Short, explorer and pioneer "There

is quite simply nothing like *Scuba Professional*. It is the ultimate

backstage pass into the business of scuba." Jill Heinerth, explorer

and filmmaker

PADI Adventures in Diving Manual Lyons Press

Erik Petkovic's *Lake Erie Technical Wreck Diving Guide* is packed

with tales of maritime disasters: sailing ships and steamers which

foundered, succumbed to storms, collided or were engulfed in

flames. There are ships which sank more than once, were

involved in wars, slave escapes and catastrophic collisions, plus

daring stories of deep salvage, valuable cargoes, submarines,

experimental engineering and unidentified wrecks. The guide

brings to life the rediscovered history of the ships, passengers

and crews. Then there are the dives themselves. Some of the

wrecks are remarkably intact for their age. Amongst the features

which can be seen are wooden ships' wheels, standing masts,

rudders, propellers, portholes, engines, boilers and steamship

hogging arches. Each chapter describes the history, current

condition, location, dimensions, hazards and highlights of an individual wreck. The author's original research, contributor photos and archive materials help bring these 19 enticing, challenging, rarely dived wrecks to life. 'Meticulously researched, nicely composed, beautifully illustrated. I wish I had written this book.' - Gary Gentile 'Any technical diver considering diving on any of these wrecks should first read this one-of-a-kind book!' - Joe Porter, Publisher, Wreck Diving Magazine

*Diver Down* Main Street Books

With 2170 kilometers of coastline fronting on the Gulf of Thailand and the Andaman Sea, Thailand has one of the richest marine faunas in the world. Its tropical climate ensures year-round diving pleasure in pristine waters and varied underwater terrain that host a diversity of marine life, from brilliant colored coral polyps to graceful featherstars and a wide variety of reef fish, shark, marlin, sailfish, and barracuda. In a unique compilation of facts and photographs, writer Collin Piprell and photographer Ashley J. Boyd take an enticing look at some of Thailand's best dive sites - along with expert advice on travel, preparation, and facilities. Whether it is scuba diving, wreck diving or live-aboard cruises to premier destinations such as the Similans, the Surins, or the fabled Burma Banks, *Diving in Thailand* opens up an exciting vista of undersea life and diving spots that are among the best in the world. Contents Introduction Weather Conditions Diving Regulations Thailand's Marine Life Dangerous Marine Life Conserving Thailand's Coral Reefs Underwater Photography: Some Basic Tips Using this Guide ANDAMAN SEA Destination Phuket and Immediate Environs Destination Trang Destination Islands and Banks North and Northwest of Phuket GULF of THAILAND Destination Pattaya/Sattahip/Samae San Destination Chumphon. Destination Koh Samui/Koh Tao Destination Koh Chang Marine National Park A Concluding Note Author Collin Piprell, a Canadian, is a professional writer based in Bangkok. He has had wide experience of sports diving and has collaborated with Ashley J. Boyd on THAILAND'S CORAL REEFS and dozens of articles related to diving and the natural history of coral reefs. About the Photographer: Ashley J. Boyd, an Australian, is a professional still and video photographer based in Bangkok. His photographs have appeared in a wide variety of books, magazines, calendars and posters. His video work has appeared on television and in promotional and educational films. A qualified PADI scuba instructor who specialises in underwater photography courses, Boyd has so far logged over 2,500 dives in tropical Asia. *Extreme Sports: Dive!* Atria Books

For millions of Americans, diving offers the chance to get away from everyday life and enter a world of stunning natural beauty and fascinating complexity. And getting started is a breeze! Anyone can learn to dive safely and explore the world's wondrous oceans - all it takes is a little training and basic equipment. *Scuba Diving & Snorkeling For Dummies* presents all the fundamentals for anyone interested in getting dive certified or just looking for good snorkeling while on vacation. Written by PADI-Certified diver John Newman, this friendly guide covers everything you need to know to: Get certified Plan a great diving trip Save money on equipment Dive or snorkel safely This user-friendly guide starts by helping you evaluate your underwater skills and walking you step by step through a typical certification program. Once you're certified, it helps you pick a dive site, purchase and set up your equipment, and take care of any fears you might have. Then you'll discover what to expect on your first dive - from which creatures are dangerous to how to protect fragile sea life. *Scuba Diving & Snorkeling For Dummies* also covers these topics and more: Free diving Special breathing techniques Emergency procedures How to avoid the bends Handling dive anxiety The physics and chemistry of diving Staying healthy on dive trips

Ocean ecosystems Rip tides and tidal waves Ten great dive destinations In addition to beautiful full-color photography and all the information you need to plan a dive trip, the book also includes a handy appendix of dive organizations and publications, as well as a CD-ROM sampler from PADI (Professional Association of Diving Instructors). Whether you're a novice diver or an old hand, *Scuba Diving & Snorkeling For Dummies* is perfect for anyone who wants to see the beauty of the ocean from a fish's point of view. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

**Wreck Diving Adventures** Dived Up Publications

Barbados is the renowned jewel of the Caribbean, famous for white sandy beaches decorated with palm trees and surrounded by clear warm water, but below the waves the thriving coral reefs are teeming with marine life, from tiny seahorses to giant whale sharks. The Barbados Dive Guide 2nd edition book depicts the natural beauty of this underwater world with over 150 stunning photos, so any level of diver can experience these wonders for themselves, either on location, or from the comfort of their armchair. Lucy Agace designed this updated book so scuba divers and snorkelers alike are forearmed with all the information they will need to plan their trip. Lucy describes in depth each of the dive centres and 39 dive sites around the island and includes handy details about the location, dive type, depth, skill level and photo tip. All the dive locations are marked on an island map and included are specific dive and wreck illustrations, all designed to help you get the best out of your diving. Lucy shares her experiences with some of the many exciting and unusual marine creatures she finds, book onto one of her guided tours and see for yourself. This high quality book is a 'must have' for expert to novice divers, snorkelers and also greatly appreciated by non-divers who can enjoy the captivating beauty of the island's fascinating marine life.

*Shadow Divers* Aqua Quest Publications

Written for the diver with considerable scuba experience, a sense of adventure, and a yen to explore shipwreck sites, this work is amply illustrated and covers all the important aspects of the popular sport: approach, techniques, safety, wreck penetration, and decompression methods, as well as the details of artifact recovery and restoration. In addition, the author includes invaluable tips on underwater photography. Gary Gentile, a professional photographer and experienced shipwreck diver, has enlivened his text with anecdotes that may make even timid sports enthusiasts want to don diving gear.

**The Techniques of Wreck Diving** Gary Gentile Productions

One diver, after a seemingly brief period below the surface, discovers that his gas supply has run perilously low. Another, paralyzed, bobs helplessly on the surface, and when a poorly trained divemaster attempts rescue, things go from bad to worse. Two other divers, fascinated by the bountiful undersea life of the Caribbean, fail to notice that a powerful current is sweeping them rapidly away from their unattended boat. These are just a few of the true stories you'll find in *Diver Down*, most of them involving diver error and resulting in serious injury or death. Each of these tales is accompanied by an in-depth analysis of what went wrong and how you can recognize, avoid, and respond to similar underwater calamities. This unique survival guide explores the gamut of diving situations, including cave and wreck diving, deep-water dives, river and drift diving, decompression sickness, and much more. It shows you how to prevent tragic mishaps through: Inspection and maintenance of primary and secondary diving gear Learning and following established safety protocols Confirming the training and credentials of diving professionals Practicing emergency responses under real-world conditions

**Shipwreck Diving** McGraw Hill Professional

Exploring dozens of sunken ships, which litter the ocean bottom of Cape Cod, Massachusetts, underwater explorer Donald Ferris, guides the reader on a fascinating journey through the Cape's vast nautical history. -- P. [4] of cover.

Scuba Diving National Geographic Children's Books

Scuba Confidential is a unique book packed full of valuable tips and expert advice, giving you unprecedented access to the secrets of dive professionals and technical divers. With Scuba Confidential, you will learn how to master skills and techniques that will make you a more confident, capable and safe diver. It offers an informed, balanced view on some of scuba diving's most contentious issues like going solo, deep diving and rebreathers and includes a comprehensive analysis of how diving accidents happen and how to make sure you do not become a statistic. Scuba Confidential also gives you valuable insights on a vast range of topics such as what it is like to do a cave diving course, how to make sure you buy the right equipment, what to consider when choosing an instructor, things even the pros get wrong and where to find the best diving in the world. This is candid, no-nonsense practical advice from a professional who has been involved over the last three decades with virtually every aspect of the sport. Have you ever wondered? How to look as comfortable in the water as the professionals do? What it is like to dive inside shipwrecks? Which training courses are most worthwhile? If you would make a good technical diver? If you should be considering a rebreather? How you can improve your diving skills? How you can reduce your air consumption? Why diving accidents happen and how to prevent them? Whether you might sometimes actually be safer solo diving? How to dive deep safely? Or How muck diving can possibly be any fun? Scuba Confidential has the answers to these questions and many more.

**The Most Advanced Clarinet Book** IMO Publishing

This comprehensive guide is for both beginning and advanced divers. It tells how to find wrecks, details the equipment and techniques needed, explains safety concerns, and teaches how to recover artifacts and preserve them. Copyright © Libri GmbH. All rights reserved.

Primary Wreck Diving Guide Macmillan

"Superbly written and action-packed, The Last Dive ranks with such adventure classics as The Perfect Storm and Into Thin Air."—Tampa Tribune Spurred on by a fatal combination of obsession and ambition, Chris and Chrisy Rouse, an experienced father-son scuba diving team, hoped to achieve wide-spread recognition for their outstanding and controversial diving skills by solving the secrets of a mysterious, undocumented, World War II German U-boat that lay only a half day's mission from New York Harbor. The Rouses found the ultimate cost of chasing their

personal challenge: death from what divers dread the most—decompression sickness, or "the bends." In this gripping recounting of their tragedy, author Bernie Chowdhury, himself an expert diver, explores the thrill-seeking, high-risk world of deep sea diving, its legendary figures, most celebrated triumphs, and notorious tragedies.

**The Advanced Wreck Diving Handbook** Sandsmedia via PublishDrive

Written for both the diver and the non-diver, this book draws the reader into the exciting world of Northeast Technical SCUBA Diving.

*Scuba Compendium* Harper Collins

On a foggy July evening in 1956, the Italian cruise liner Andrea Doria, bound for New York, was struck broadside by another vessel. In eleven hours, she would sink nearly 250 feet to the murky Atlantic Ocean floor. Thanks to a daring rescue operation, only 51 of more than 1,700 people died in the tragedy. But the Andrea Doria is still taking lives. Considered the Mt. Everest of diving, the Andrea Doria is the ultimate deepwater wreck challenge. Over the years, a small but fanatical group of extreme scuba divers have investigated the Andrea Doria, pushing themselves to the very limits of human endurance to explore her -- and not all have returned. Diver Kevin McMurray takes you inside this elite club with a hard, honest look at those who go deeper, farther, and closer to the edge than others would ever dream. Deep Descent is the riveting true story of the human spirit overcoming human frailty and of fearsome, mortal risks traded for a hard-core adrenaline rush. Chronicling these adventures in his page-turning narrative and in dozens of dramatic photos, McMurray draws us deeper into the cold heart of the unforgiving sea, giving us a powerful vision of a place to which few will ever have the skills -- or the courage -- to go.

**Barbados Dive Guide** Padi

Scuba diving is one of the world's fastest growing sports, and as a result there is an ever increasing demand for authoritative, practical information about this challenging activity. "The Diver's Handbook" meets this need and covers everything from what equipment to buy and which training courses to attend to basic health and safety measures. With comprehensive and up-to-date text, this book is certain to become an invaluable addition to any diver's bookshelf. 300 color photos.

*U.S. Underwater Diving Fatality Statistics* John Wiley & Sons Finch chronicles the harrowing true story of two friends who plunge 900 feet into the water in South Africa--and only one returns. What happened that day is the stuff of nightmarish drama, but it's also a compelling human story of friendship and of coming to terms with loss and tragedy. 8-page color photo insert.
