The Camper Book Lonely Planet

The Camper Book will captivate all those who dream of waving good-bye to the rat race from the window of their own moveable home, be it a camper, RV, travel trailer, camper van, or tiny camper. Not just for placid retirees anymore, camper culture has sprung up among simplicity-seeking millennials, retro-loving "glampers," sports and movie stars, aging hippies, contract workers, "road-schoolers," and others. Award-winning

journalist Dave Hoekstra hit the road in his own custom camper van, named Bluebird, to explore the history, culture, subcultures, and future of camper life. Traveling and talking his way through US campsites, RV parks, landmarks, and communities, Hoekstra draws out revealing stories from all walks of life—from Americans who are downsizing material goods while upsizing spiritual pursuits to RV enthusiasts such as Grammy-winning singer-songwriter John Prine and Chicago Cubs manager Joe Maddon. A modern-day Studs Terkel, Hoekstra provides a delightful mix of oral history, in-depth reporting, and practical information, while photographer Jon Sall's beautiful color photographs illuminate the unique people, places, and rigs that typify camper life.

**Off Grid Life** Simon and Schuster  
What is to be done when the future's already ablaze? With the international spread of right-wing "populism," widening inequalities, precarious forms of labor becoming normative, surveillance capitalism, and a worsening ecological crisis, the future is bleak. One issue in particular, the likelihood of catastrophic climate change, coupled with the lack of a global movement with the organization and vision to effectively challenge our suicidal social order, yields the crushing awareness that future generations will be trapped in prehistory, one in which humanity continues to be dominated by its own creations instead of shaping the historical process in line with reason. Expanding upon the ideas of Theodor W. Adorno, Ernst Bloch, Lucien Goldmann, and others, Ryan Gunderson examines the modes of action and thought through which we react to the likelihood of a catastrophic future in ways that reproduce instead of challenge the status quo, and how we can, instead, productively sustain the search for a better world against all odds.

"People who thought the 2008 financial collapse was over a long time ago need to meet the people Jessica Bruder got to know in this scorching, beautifully written, vivid, disturbing (and occasionally wryly funny) book." —Rebecca Solnit From the beet fields of North Dakota to the campgrounds of California to Amazon's CamperForce program in Texas, employers have discovered a new, low-cost labor pool, made up largely of transient older adults. These invisible casualties of the Great Recession have taken to the road by the tens of thousands in RVs and modified vans, forming a growing community of nomads. *Nomadland* tells a revelatory tale of the dark underbelly of the American economy—one which foreshadows the precarious future that may await many more of us. At the same time, it celebrates the exceptional resilience and creativity of these Americans who have given up ordinary rootedness to survive, but have not given up hope.
