G P S Publication Research & Education Assoc.

This book covers Exam 200-14 in great detail, digging into some of the most important details involved in locking down Windows systems and networks and taking a systemic approach to keeping Windows networks and systems secured. Boasting a one-of-a-kind integration of text, DVD-quality instructor-led training, and Web-based exam simulation and remediation, this study guide & DVD training system gives students 100% coverage of official Microsoft MCSA exam objectives plus realistic test prep. The System package consists of: 1) MCSE Implementing and Administering Security in a Windows 2000 Network Study Guide: Syngress's 1 million study guide users will find tried-and-true features and exciting new enhancements; included are step-by-step exercises plus end-of-chapter bulleted objectives reviews, FAQs, and realistic test prep questions in the same format as those on the actual exam. 2) Security DVD: A full hour of instructor-led training, complete with on-screen configurations and networking schematics, demystifying the toughest exam topics. 3) Security from solutions@syngress.com. Accompanying Web site provides students with authentic interactive exam-simulation software that grades their results and automatically links to e-book study guide for instant review of answer concepts. Covers Critical Security Exam. This exam was created to meet the demand for a security-based examination which verifies an administrator's ability to implement and maintain secure Windows 2000 network. Fast growing certification gains in popularity. The new MCSE certification launched in March and already there are 17,000 MCSA-certified professionals (data as of May, 31, 2002, Microsoft Corp.). This exam also serves as an elective for MCP status and other certifications. Best selling author with over 150,000 copies in print. Tom Shinder's books have over 150,000 copies in print and he's a regular speaker at the security industry's leading Black Hat Briefings. His Configuring ISA Server 2000, has sold over 45,000 units worldwide in a year. First in-depth security exam from Microsoft. As Microsoft certification guru Ed Tittel points out, "this is the first real, nuts-and-bolts security exam in the MCP line-up. This exam is the first MCP test to really dig into some of the most important details involved in locking down Windows systems and networks in the first place, and to step systematically through the processes involved in keeping Windows networks and systems secured thereafter." \$2,000 worth of training wrapped in a \$60 book/DVD/Web-enhanced training system. Certification Magazine's 2001 reader survey revealed that the average certification costs nearly \$2,000. So our low-priced study package delivers unsurpassed value for cost-conscious IT departments and trainees.

In an increasingly data-driven world, it is more important than ever for students as well as professionals to better understand basic statistical concepts. 100 Questions (and Answers) About Statistics addresses the essential questions that students ask about statistics in a concise and accessible way. It is perfect for instructors, students, and practitioners as a supplement to more comprehensive materials, or as a desk reference with quick answers to the most frequently asked questions. "The key strength of this book is the straightforward approach. I love the to-the-point question-and-answer format. . . . This book would be useful in both statistics and research methods courses. . . . [and] in math tutoring labs. I love the tone the author uses, as it is not condescending. Students will be encouraged." —Jamie Brown, Mercer University "The sequencing of the questions works very well—from the most basic to the more intimidating questions often asked by students in an intro class. . . . If Dr. Salkind is the author, I know it will be well-written, and both entertaining and easy to understand." —Linda Martinez, California State University, Long Beach "Practical examples from all types of work: showing the steps to do each analysis and then the ways to use the results responsibly." —Jennifer R. Salmon, Eckerd College

Court of Appeal Case(s): C011675 Number of Exhibits: 1  
*Ethnic Data and Higher Education* Research & Education Assn  
This general achievement trends profile includes information that the Center on Education Policy (CEP) and the Human Resources Research Organization (HumRRO) obtained from states from fall 2008 through April 2009. Included herein are: (1) Bullet points summarizing key findings about achievement trends in that state at three performance levels--basic and above, proficient and above, and advanced; (2) Background information about limitations of the state's test data and characteristics of the state's testing system, including major changes in its testing system; (3) Figures and tables with the percentages of students scoring at the proficient level and above for all years with comparable data since 1999 and for all grades tested under the No Child Left Behind Act; (4) Figures and tables with percentages of students performing at three achievement levels--basic, proficient, and advanced--for all years with comparable data and for grades 4, 8, and 10 (or adjacent grades, in the case of states that lack comparable trend data for these default grades); (5) Figures and tables with mean scale scores, standard deviations, and effect sizes for all years with comparable data and for the three grades analyzed in this study; and (6) Figures and tables with mean scale scores, standard deviations, and effect sizes for all years with comparable data and for the three grades analyzed in this study. Overall, California students have made gains since 2004 at the basic, proficient, and advanced achievement levels. Specific results include: (1) The percentage of students scoring at the basic level and above in reading increased at a moderate-to-large rate at the elementary and high school grades analyzed and at a slight rate at the middle school level; in math, the percentage basic and above rose slightly at the elementary and middle school grades analyzed and grew at a moderate-to-large rate at the high school level; (2) In reading, the percentage of students performing at the proficient level and above went up at a moderate-to-large rate at the elementary and middle school levels and at a slight rate at the high school grade analyzed; in math, there were moderate-to-large gains in the percentage proficient at all three grade levels analyzed; and (3) The percentage of students reaching the advanced level in reading increased at a moderate-to-large rate at the elementary and middle school grades analyzed but decreased slightly at the high school level. In math, the percentage of advanced students rose at a moderate-to-large rate at all three grade levels analyzed. (Contains 6 figures and 6 tables.) [This is an updated version of ED506138. For "State Test Score Trends through 2007-08, Part I: Is the Emphasis on "Proficiency" Shortchanging Higher- and Lower-Achieving Students?," see ED506121. For "State Test Score Trends through 2007-08, Part II: Is There a Plateau Effect in Test Scores?," see ED506122.].
