*A Grammar of the German Language* BRILL

This is the first book to bring together studies of a wide variety of millenarians who were active in the 17th and 18th centuries in France, The Netherlands, Germany, Sweden, and eastern Europe. It provides much food for thought for students and teachers of early modern ideas, the history of philosophy and religion, and the making of the modern world. It opens up many avenues for further work.

This study researches the effects of John Laski's church ordinance in Emden and London. It shows how these congregations conformed to each other over time, and makes a contribution to scholarship on early confessional development in the Reformed Church and to the history of religious refugees.

The volume comprises the proceedings of the third International Conference on Dynamics in Logistics LDIC 2012. The scope of the

conference targeted the identification, analysis, and description of the dynamics of logistic processes and networks. The spectrum ranged from the modeling and planning of processes and innovative methods like autonomous control and knowledge management to the new technologies provided by radio frequency identification, mobile communication, and networking. The growing dynamics in the area of logistics poses completely new challenges: Logistic processes and networks must rapidly and flexibly adapt to continuously changing conditions. LDIC 2012 provided a venue for researchers from academia and industry interested in the technical advances in dynamics in logistics. The conference addressed research in logistics from a wide range of fields, e.g. engineering, computer science and operations research. The volume consists of two invited papers and of 49 contributed papers divided into various subjects including transport logistics, routing in dynamic logistic networks, modeling, simulation, optimization and collaboration in logistics, identification technologies, mathematical modeling in transport and production logistics, information, communication, risk and failure in logistic systems, autonomous control in logistic processes, global supply chains and industrial applications, and the Internet of Things in the context of logistics.

This series of HANDBOOKS OF LINGUISTICS AND COMMUNICATION SCIENCE is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages, but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction. For "classic" linguistics there appears to be a need for a review of the

state of the art which will provide a reference base for the rapid advances in research undertaken from a variety of theoretical standpoints, while in the more recent branches of communication science the handbooks will give researchers both an verview and orientation. To attain these objectives, the series will aim for a standard comparable to that of the leading handbooks in other disciplines, and to this end will strive for comprehensiveness, theoretical explicitness, reliable documentation of data and findings, and up-to-date methodology. The editors, both of the series and of the individual volumes, and the individual contributors, are committed to this aim. The languages of publication are English, German, and French. The main aim of the series is to provide an appropriate account of the state of the art in the various areas of linguistics and communication science covered by each of the various handbooks; however no inflexible pre-set limits will be imposed on the scope of each volume. The series is open-ended, and can thus take account of further developments in the field. This conception, coupled with the necessity of allowing adequate time for each volume to be prepared with the necessary care, means that there is no set time-table for the publication of the whole series. Each volume will be a self-contained work, complete in itself. The order in which the handbooks are published does not imply any rank ordering, but is determined by the way in which the series is organized; the editor of the whole series enlist a competent editor for each individual volume. Once the principal editor for a volume has been found, he or she then has a completely free hand in the choice of co-editors and contributors. The editors plan each volume independently of the others, being governed only by general formal principles. The series editor only intervene where

questions of delineation between individual volumes are concerned. It is felt that this (modus operandi) is best suited to achieving the objectives of the series, namely to give a competent account of the present state of knowledge and of the perception of the problems in the area covered by each volume.

The Nag Hammadi Gospel of Philip contains a developed justification of the physical rituals of baptism, anointing, and the Eucharist, despite its anti-materialist Gnostic origins. This study uses the fragmentary text to reconstruct this theory, arguably the first of its kind.

The texts in this collection are revised versions of presentations given at the Coimbra International Conference on the Semantics of Culture Why "Culture"?, held on November 24-25, 2011. Their common theme is the idea that the phenomenon of culture cannot be reduced to a substantialist vision of the diversity of manifestations of society and human beings. However, if one were to accept the concept of culture as a starting point for observing these manifestations, then it should also be adopted as a starting point for critical questioning, that is, for problematizing. The texts in this volume contribute to this philosophical problematization by pointing out - each with its own perspective of analysis - articulations of the phenomenon of culture as a theoretical object and as a thematic object.

Die internationale Strafjustiz hat sich auf der weltpolitischen Bühne etabliert. Der Internationale Strafgerichtshof (IStGH) arbeitet schwere Menschenrechtsverletzungen in derzeit neun afrikanischen Staaten auf und hat Vorermittlungen zu den Konflikttherden Palästina und Ukraine eingeleitet. Aufgrund der Komplexität der Materie und den oftmals andauernden kriegerischen Auseinandersetzungen, steht die internationale Strafjustiz vor besonderen Herausforderungen. Sich diesen zu stellen ist Aufgabe von Anklage und Verteidigung. In der wissenschaftlichen und medialen Wahrnehmung steht jedoch - wie bereits im Falle des Jugoslawien- und Ruandatribunals - die IStGH-Anklagebehörde im Vordergrund. Nur selten werden Rolle

und Schwierigkeiten der Angeklagten sowie der Verteidigung beleuchtet. Die Autorinnen und Autoren aus Praxis und Wissenschaft widmen sich in Beiträgen in deutscher und englischer Sprache diesem Blick hinter die Kulissen der internationalen Strafgerichte. Mit Beiträgen von: Heiko Ahlbrecht, Eleni Chaitidou, Isabel Düsterhöft, Masha Fedorova, Benjamin Ferencz, Julia Gebhard, Philipp Graebke, Mayeul Hiéramente, Elisa Hoven, Dominic Kennedy, Marie O'Leary, Sally Alexandra Longworth, Philipp Müller, Colleen Rohan, Patricia Schneider

From May 31st to June 4th, 2016, the 7th International European conference on pre-Columbian textiles was held in Copenhagen.

This volume unites seven original articles on pre-Columbian textiles from Mexico, which compare information on 20th century finds first described by Alba Guadalupe Mastache with that from previously unpublished finds and recently discovered contexts. A unique chapter presents the technical analysis and replication of a pre-Columbian tunic recovered in a cave site in Arizona, at the northern margins of the Mesoamerican interaction sphere.

Thirteen articles on archaeological textiles from the central Andes include analysis of both textile assemblages preserved in museum collections and those recovered during recent fieldwork in archaeological sites of the Andean desert coast. These include textile assemblages representing the Initial and Formative Periods, Paracas and Nasca contexts, the Middle Horizon, diverse late Intermediate Period assemblages and emblematic Inca garments.

Research on federalism is rarely concerned with its philosophical foundations. However, arguments on why and how best to organise a plurality of states in a multilevel political order have first been discussed by philosophers and continue to inspire contemporary reasoning on international and supranational relations not only in political philosophy. This book offers a unique overview of the philosophical foundations of federalism from both

a historical and a systematic perspective. The analyses proposed by renowned scholars from the US and from several European countries cover classic writers such as Hobbes and the authors of the Federalist Papers, Kant and Rawls, and range from anthropological justifications of federal orders to contemporary problems of EU constitutionalism, the principle of subsidiarity and the jurisdiction of the European Court of Human Rights (ECHR). The book is of relevance to anyone interested in philosophical justifications of federalism.

Der Beginn des Zweiten Weltkrieges liegt mehr als 50 Jahre zurück. Bis heute haben aber die Fragen, mit denen dieses katastrophale Ereignis alle Deutschen konfrontiert, nicht an Bedeutung und Aktualität verloren. Vielmehr fordert das öffentliche Gedächtnis mit jedem Generationswechsel neue Bilder von diesem Krieg. Im Rückblick auf den Zeitraum seit 1945 läßt sich ein Zyklus von Erinnern, Verstummen und erneutem Erinnern ausmachen, der bereits dreifach durchlaufen worden ist. Insofern ist der Umgang mit dem Thema in den deutschen Medien gleich nach Kriegsende auch für die Gegenwart aufschlußreich. Deutungen und Formen des Gedenkens, die heute praktiziert werden, haben selber inzwischen eine Geschichte. Mehrfach glaubte man bereits in beiden Teilen Deutschlands, daß die Schuldfrage gelöst sei und die Kriegserfahrung bewältigt. Jedesmal stellte sich heraus, daß die Deutschen noch immer in der Schuld sind, nicht nur aus der Perspektive ihrer europäischen Nachbarn. Die Beiträge in diesem Band gehen auf den Anfang eines unabgeschlossenen Prozesses zurück. Die Befragung gilt nicht den Menschen, sondern den Medien. Gefragt wird, wie in der Literatur, in der Presse, im Fernsehen und Film in den 40er und 50er Jahren mit dem Krieg umgegangen worden ist, welche Bilder davon die Literatur, die Presse, Fernsehen, Film und Hörspiel anzubieten hatten und welche Tendenzen sich dabei in den beiden deutschen Staaten, in Österreich, Polen und Frankreich nachweisen lassen. Eine Reflexion auf die neunziger Jahre macht das Thema spannend, denn dadurch wird den Bildern vom Krieg, die im wiedervereinigten Deutschland im Umlauf sind, ihr Ort im Zyklus zugewiesen: Ein Beitrag zur wieder nötig gewordenen Orientierung.

This volume examines (1) the philosophical sources of the Kantian concepts "apperception" and "self-consciousness", (2) the historical development of the theories of apperception and deduction of categories within the pre-critical period, (3) the structure and content of A- as well as B-deduction of categories, and finally (4) the Kantian (and non-Kantian) meaning of "apperception" and "self-consciousness".

This is the third volume of the Etymological Dictionary of Egyptian. It comprises the Egyptian words with initial m-. The amount of material offered, the extensive treatment of scholarly discussions on each item, and the insights into the connections of Egyptian and the related Afro-Asiatic (Semitic-Hamitic) languages, including many new lexical parallels, will make it an indispensable tool for comparative purposes and an unchallenged starting point for every linguist in the field.

Walter Benjamin and Gershom Scholem are regarded as two of the most influential Jewish thinkers of the twentieth century.

Together they produced a dynamic body of ideas that has had a lasting impact on the study of religion, philosophy, and literary criticism. Drawing from Benjamin's and Scholem's ideas on messianism, language, and divine justice, this book traces the intellectual exchange through the early decades of the twentieth century—from Berlin, Bern, and Munich in the throws of war and revolution to Scholem's departure for Palestine in 1923. It begins with a close reading of Benjamin's early writings and a study of Scholem's theological politics, followed by an examination of Benjamin's proposals on language and the influence these ideas had on Scholem's scholarship on Jewish mysticism. From there the book turns to their ideas on divine justice—from Benjamin's critique of original sin and violence to Scholem's application of the

categories to the prophets and Bolshevism. *Metaphysics of the Profane* is the first book to make this early period available to a wider audience, revealing the intricate structure of this early intellectual partnership on politics and theology.
