Francis of Assisi (1182-1226) was the least dogmatic of saints, seeing himself as God's troubadour or fool. His life was a rich succession of dramas. After his debauchery as a young playboy, merchant and soldier, he devoted his life to the poor and sick. In

1224, marks similar to Christ's wounds appeared on his hands, feet and side, the first recorded case of the stigmata. Today, nearly three million people a year visit his tomb in Assisi.

To those who travel there today, the West Indies are unspoiled paradise islands. Yet that image conceals a turbulent and shocking history. For some 200 years after 1650, the West Indies were the strategic center of the western world, witnessing one of the greatest power struggles of the age as Europeans made and lost immense fortunes growing and trading in sugar—a commodity so lucrative it became known as "white gold." As Matthew Parker vividly chronicles in his sweeping history, the sugar revolution made the English, in particular, a nation of voracious consumers—so much so that the wealth of her island colonies became the foundation and focus of England's commercial and imperial greatness, underpinning the British economy and ultimately fueling the Industrial Revolution. Yet with the incredible wealth came untold misery: the horror endured by slaves, on whose backs the sugar empire was brutally built; the rampant disease that claimed the lives of one-third of all whites within three years of arrival in the Caribbean; the cruelty, corruption, and decadence of the plantation culture. While sugar came to dictate imperial policy, for those on the ground the British West Indian empire presented a disturbing moral universe. Parker brilliantly interweaves the human stories of those since lost to history whose fortunes and fame rose and fell with sugar. Their industry drove the development of the North American mainland states, and with it a slave culture, as the plantation model was exported to the warm, southern states. Broad in scope, rich in detail, The

Sugar Barons freshly links the histories of Europe, the West Indies, and North America and reveals the full impact of the sugar revolution, the resonance of which is still felt today.

I just got a job. My name is Janet, and I'm a maid for one of the wealthiest men in England. His name is Len Turner. Honestly, I don't know what to expect. Nobody knows anything about him. What am I walking into? He seems nice enough, but something is not right. I'm the only young woman working here. The rest of his staff are older. I barely see him throughout my workday. Little did I know, he was watching me the whole time. This is not the extent of his debauchery. Len never takes his eyes off of me when I'm around him. I feel almost like a mouse, cornered by a cat. It's exhilarating. I wonder what he is like in bed. No! I shouldn't think like that. He is my boss, not to mention he's several years older than me. A billionaire like him should have nothing to do with one of his maids. In spite of this, I'm consumed by thoughts of being his. He could have any woman in the world. But he seems to want me. The look in his eyes when I come into his office tells me a lot. But what if I'm just another prize to him? What if I'm just another perky young woman, eager to be his trophy? What does Len really want from me? More importantly, what will he do to get it? **WARNING:** This book is part of Aurelia Hilton's hot, sexy & steamy romance novel... Things will get hot & steamy... Rome in Emperor Nero's times is steeped in crime and debauchery. Marcus Vinicius, a young and beautiful warrior,

comes to his uncle Gaius Petronius, who is a writer, aesthete, connoisseur of luxury and pleasure, and the approximate of Nero. The young man says that, upon returning to Rome from the war against the Parthians, he injured his hand and has been taken to the house of the white-haired commander Aulus Plautius for care. There Vinicius was captivated by a young Ligia, the daughter of the king of the Ligians, who lived in far northern forests. At home, the Ligians called her Galina. She came to Rome as a young hostage and grew up in the house of the noble Aulus and his faithful, virtuous wife Pomponia. Treating Ligia as their own daughter, they raised her pure and chaste. She was nothing like the debauched women of Rome. Pomponia is said to be a Christian, but Petronius does not believe it, as Christians are said to be terrible villains, and Pomponia's face seems to radiate light, which cannot be villainous in any way. In the house of Aulus Vinicius, Vinicius uttered many fervent words to Ligia, and the girl's heart burnt with reciprocal feeling. Now Vinicius is ready to marry Ligia, but he does not understand one thing: why she draws fish on the sand. Petronius tells Nero that Vinicius fell in love with the weedy hostage Ligia, and the Emperor promises Petronius to take Ligia to his palace and give her to Vinicius.

This volume argues that legislation on abortion, adultery, and rape has been central to the formation of the modern citizen. The author draws on rights literature, bio-political scholarship, and a gender-studies perspective as a foundation for rethinking the sovereign relationship. In approaching the politicization of reproductive space from this direction, the study resituates the

role of rights and rights-granting within the sovereign relationship. A second theme running throughout the book explores the international implications of these arguments and addresses the role of abortion, adultery and rape legislation in constructing 'civilizational' relationships. In focusing on the Ottoman Empire, Turkey, France and Italy as case studies, Miller presents a discussion of what 'Europe' is, and the role of sexuality and reproduction in defining it.

Remember the ill-fitting tuxes, regrettable dresses, wilting corsages, cheap beer, and rented limos that marked the biggest, most-anticipated celebration of the school year? Remember when the whole world hung in the balance of just one night? Well, lots of your favorite writers do too, and they share the good, the bad, and the embarrassingly ugly in this wonderful compendium of personal reminiscences about prom night. Rob Spillman has collected the prom memories of Cintra Wilson, Walter Kirn, Steve Almond, Samantha Dunn, Susie Bright, Mike Albo, and many others, capturing the magic, the misery, and the atrocious attire in a hilarious look at the simultaneously sublime and ridiculous event that has become the American right of passage. Whether prom night is something you fondly remember or long to forget, *The Time of My Life* will bring it all back, capturing with wit and poignancy precisely what it was like to be young, hormonal, and dressed like a butler or bridesmaid.

This is the true story of George and Maggie Wood, a young couple who in 1880, in a fledgling cowtown that sprang up from the dust of the old Chisholm Trail, built the "largest dance house in Kansas". [read that -- cat house.] In a formidable two-month trek through the dusty plains of Texas and the "Indian Nations," brash young cowboys drove the longhorns to the railhead at the Kansas state line. There they emerged at Caldwell, Kansas; primed for celebration in that wide-open cowtown fondly known to them as "The Queen of the Border." Wild, wooly and dangerous, in its futile effort to hold a lid on the cowboys'

rampant and often times violent revelry, the town ran through 15 marshals in the six year period of the cattle drives between 1879 and 1885. Continuously besieged by murder and depravation, the town was locked in a love-hate alliance with the many dens that catered to the roughshod instincts of the hell-raising cowboys. Festering at the heart of this perpetual bedlam was the number-one attraction of the Border Queen; George and Maggie's Red Light Saloon, the wellspring of murder and violence; and the epitome of debauchery and just plain nasty wickedness.

Gender, especially masculinity, is a perspective rarely applied in discourses on cinema of Eastern/Central Europe. Masculinities in Polish, Czech and Slovak Cinema exposes an English-speaking audience to a large proportion of this region's cinema that previously remained unknown, focusing on the relationship between representation of masculinity and nationality in the films of two and later three countries: Poland, Czechoslovakia/the Czech Republic and Slovakia. The objective of the book is to discuss the main types of men populating Polish, Czech and Slovak films: that of soldier, father, heterosexual and homosexual lover, against a rich political, social and cultural background. Czech, Slovak and Polish cinema appear to provide excellent material for comparison as they were produced in neighbouring countries which for over forty years endured a similar political system – state socialism.

The Masque of the Red Death BoD - Books on Demand Social life in many boomtowns was a topsy-turvy mix of hard-bitten ramblers, the suddenly wealthy, and the professional drinkers and gamblers who followed the money. In many new towns, "respectable" female companionship was hard to come by, and men were far from their homes and families--if they had them at all. Women who were unwilling to, or forbidden from, working alongside men in frontier industries often resorted to prostitution to make ends meet. For some, it was a true

profession, and they would travel from town to town as fortunes and fashions shifted. If they had money, they might set up a bawdy house of their own and manage other "red light ladies." For others, the line was more ambiguous. Did an impoverished woman who cultivated her friendship with a mine foreman count as a prostitute? Complicating the issue, the concept of marriage was often loosely interpreted in the old West to explain the relationships that could spring up on the edges of civilization. Nevertheless, prostitution was a part of the social fabric in most western towns. It was usually connected to lower class saloons or dance halls, where lonely men went to seek female companionship. Some women may have preferred the social freedom they gained from being a professional. Some were attracted by the excitement of the mining camps and cow towns and hoped to earn some money. If she was really lucky, she might meet a man and live a respectable life. Others viewed prostitution as one of the few professions where women had a chance of financial success.

The Masque of the Red Death Edgar Allan Poe - The story is said in the most enthralling manner that it makes it very interesting as well as introspective. Even though it appears to be very literal but the crux of the matter is all about the inevitability of death. The prince thought that with his power and position he could defy the plague that caused death in his kingdom. But eventually even he is not spared because on the figurative level it is not a plague

but death itself, that does not spare anyone. Prince Prospero's intentions and preparations did not stand a chance when death decided to take him on.

"One hundred years after his death in 1910. Lev Nikolaevich Leo Tolstoy continues to be regarded as one of the world's greatest writers. Historically, little attention has been paid to his wife, Sofia Andreevna Tolstaya. Acting in the capacity of literary assistant, translator, transcriber and editor, she played an important role in the development of her husband's career. Her memoirs which she entitled My Life - lay dormant for almost a century. Now the book's first-time-ever appearance in Russia is complemented by an unabridged and annotated English translation." "Tolstaya paints an intimate and honest portrait of her husband's character, setting forth new details about his life to which she alone was privy. She describes her extensive correspondence with many prominent figures in Russian and Western society, making My Life a unique account of late-19th- and early-20th-century Russia, with its cast of characters ranging from peasants to the Tsar himself. Her engaging narrative reveals not only her significant contributions to her husband's work but also her considerable talent as an author in her own right."-- BOOK JACKET.
