Written in the style of "Tuesdays with Morrie"-Mystical Mentor, based on a true story, is a powerful pathway filled with simple exercises anyone can use to break through barriers. If it feels like something is missing and you have yet to find your rightful place, this book may have been written for you. Richard was well-dressed and attempting to impress others when he met Russell Swank, a humble self-made multi-millionaire. The real Richard, the man behind his mask,

had trouble making ends meet but instantly felt Russell had the answers. Through a series of weekly meetings and eye-opening assignments, Richard was inspired to transform his life from just over broke to a grand adventure. This journey that Richard took did not reveal new truths-there aren't any. Russell helped Richard see life's most powerful truths in new light. If you are willing to dive in and apply some of the concepts, doors will open and rewarding changes will occur. Mystical Mentor is not a religious book-it is a spiritual book. When Richard (Dick Warn) told Russell that he would be writing this book, Russell made Dick promise to not share any concept that he had not proven. The proving took 20 years. The actual writing - first draft to final - demanded 10 more.

"There is a shelf load of great books whose mere size places them in a special category. These are the heavy hitters; slap some mortar between them and you have a fortress. ... Leo Tolstoy's War and Peace is perhaps the most formidable of these books. But the most impressive thing about Tolstoy's magnum opus is that over three hundred and sixty-three chapters and well over half a million words he not only crafts a

compelling story, but presents a view of life deeper and more vivid than many authors ever dream of." ~ from Samuel Dickison's guide

At turns surprising, funny, and gut-wrenching, this is the hopeful story of the ordinary yet extraordinary people who have figured out how to build lasting peace in their communities. The word "peacebuilding" evokes a story we've all heard over and over: violence breaks out, foreign nations are scandalized, peacekeepers and million-dollar donors come rushing in, warring parties sign a peace agreement and, sadly, within months the situation is back to where it started--sometimes worse. But what strategies have worked to build lasting peace in conflict zones, particularly for ordinary citizens on the ground? And why should other ordinary citizens, thousands of miles away, care? In *The Frontlines of Peace*, Severine Autesserre, award-winning researcher and peacebuilder, examines the well-intentioned but inherently flawed peace industry. With examples drawn from across the globe, she reveals that peace can grow in the most unlikely circumstances. Contrary to what most politicians preach, building peace doesn't require billions in aid or massive international interventions. Real, lasting peace requires giving power to local citizens. *The Frontlines of Peace* tells the stories of the ordinary yet extraordinary individuals and organizations that are confronting violence in their communities effectively. One thing is clear: successful examples of peacebuilding around the world, in countries at war or at peace, have involved innovative grassroots initiatives led by local people, at times supported by foreigners, often employing methods

shunned by the international elite. By narrating success stories of this kind, Autesserre shows the radical changes we must take in our approach if we hope to build lasting peace around us--whether we live in Congo, the United States, or elsewhere.

What is What? Could it be that noted author Mark Kurlansky has written a very short, terrifically witty, deeply thought-provoking book entirely in the form of questions? A book that draws on philosophy, religion, literature, policy--indeed, all of civilization--to ask what may well be the twenty most important questions in human history? Or has he given us a really smart, impossibly amusing game of twenty questions? Kurlansky considers the work of Confucius, Plato, Gertrude Stein, Shakespeare, Descartes, Nietzsche, Freud, Hemingway, Emily Dickinson, the Talmud, Charles de Gaulle, Virginia Woolf, and others, distilling the deep questions of life to their sparkling essence. What? supplies endless fodder for thoughtful conversation but also endless opportunity to ponder and be challenged by--and entertained by--these questions in refreshingly original ways. As Kurlansky says, In a world that seems devoid of absolute certainties, how can we make declarative statements? Without asking the questions, how will we ever get to the answers? "Why are we here? Why is all of this here? Why do we die? What is death? What does it mean that outer space is infinite and what is after infinity? What is the significance of birdflight, why does matter decay, and how is our life different from that of a mosquito? Is there an end to these questions or is questioning as infinite as space?" With

his striking black-and-white woodcut illustrations throughout, this handsome volume is a tour de force that packs a tremendous wallop in a deliciously compact package.

For nearly twenty years, Aaron David Miller has played a central role in U.S. efforts to broker Arab-Israeli peace. His position as an advisor to presidents, secretaries of state, and national security advisors has given him a unique perspective on a problem that American leaders have wrestled with for more than half a century. Why has the world's greatest superpower failed to broker, or impose, a solution in the Middle East? If a solution is possible, what would it take? And why after so many years of struggle and failure, with the entire region even more unsettled than ever, should Americans even care? Is Israel/Palestine really the "much too promised land"? As a historian, analyst, and negotiator, perhaps no one is more qualified to answer these questions than Aaron David Miller. Without partisanship or finger-pointing, Miller lucidly and honestly records what went right, what went wrong, and how we got where we are today. Here is an insider's view of the peace process from a place at the negotiating table, filled with unforgettable stories and colorful behind-the-scenes anecdotes. Here, too, are new interviews with all the key players, including Presidents Carter, Ford, Bush forty-one, all nine U.S. secretaries of state, as well Arab and Israeli leaders, who disclose the inner thoughts and strategies that motivated them. The result is a book that shatters all preconceived notions to tackle the complicated issues of culture, religion, domestic politics, and national security that have defined—and often derailed—a

half century of diplomacy. Honest, critical, and certain to be controversial, this insightful first-person account offers a brilliant new analysis of the problem of Arab-Israeli peace and how, against all odds, it still might be solved.

In *The Pity of War*, Niall Ferguson makes a simple and provocative argument: that the human atrocity known as the Great War was entirely England's fault. Britain, according to Ferguson, entered into war based on naïve assumptions of German aims—and England's entry into the war transformed a Continental conflict into a world war, which they then badly mishandled, necessitating American involvement. The war was not inevitable, Ferguson argues, but rather the result of the mistaken decisions of individuals who would later claim to have been in the grip of huge impersonal forces. That the war was wicked, horrific, inhuman, is memorialized in part by the poetry of men like Wilfred Owen and Siegfried Sassoon, but also by cold statistics. More British soldiers were killed in the first day of the Battle of the Somme than Americans in the Vietnam War; indeed, the total British fatalities in that single battle—some 420,000—exceeds the entire American fatalities for both World Wars. And yet, as Ferguson writes, while the war itself was a disastrous folly, the great majority of men who fought it did so with enthusiasm. Ferguson vividly brings back to life this terrifying period, not through dry citation of chronological chapter and verse but through a series of brilliant chapters focusing on key ways in which we now view the First World War. For anyone wanting to understand why wars are fought, why men are willing to fight them, and why the world is as it is today, there is no

sharper nor more stimulating guide than Niall Ferguson's *The Pity of War*.

Are you working harder than ever but feel like you're accomplishing less? Does your morning routine make chickens running around headless look sane? Is your deepest sense of calm found in the bathroom with the door locked? Do you check social media more than five times per day? Per hour? Author, speaker, and actor Nicole Johnson knows what it's like to feel as if you're drowning in crazy. When she couldn't catch her breath or stay awake long enough to talk with her husband, let alone God, she sought to find new ways of "being" in her life. *Creating Calm in the Center of Crazy* is a voice of possibility and peace for women seeking to find a calm spiritual center in

a crazy, runaway world. As a wife and mom of young children herself, Nicole recognized that life had become out of control. And, with the help of a crisis, she started her journey to create the very calm she was craving. Nicole's voice is authentic, humorous, and practical, and at the same time deeply spiritual and real. She brings rich storytelling together with her desire to find calm, and in the process discovers a deeper faith. Her personal story grounds the book as she abandons mere tips and tricks (and the empty promises of time saving apps), to explore new practices — like creating a room of her own, setting technology boundaries, rediscovering the spiritual disciplines of quiet and still (they're not bad words) — and then extending those practices to provide a safer, stronger refuge for calm to dwell. Nicole's journey is shared with relatable stories, insightful help, and practical ideas that explore the inner life of a recovering crazy busy woman finding her way to calm and a deeper relationship with God.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound

policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Inspired by the spiritual teachings of Eckhart Tolle, Anthony de Mello, and many others, this book is meant to be a wake-up call for your soul in the hopes of making you realize that you have given away your power to others, and this is the main reason that life might not be feeling complete. [Peace, Power, and Presence \[Wisdom for a Life of Freedom Series\]](#) McDougal Littel

In this book "World Peace," we will find out that, there is not separation between our individual lives and the universe. It is why I am relating my daily life with the celebration of the "World Peace." "World Peace" is not a theory. It is not an expectation!!! "World Peace" is an eternal and unlimited reality that we all possess, since the time without beginning and end. Each individual is the manifestation of the law of life. The celebration of "World Peace" is the awareness and the awakening of our Buddhahood or our divine nature within each of us!!! To the contrary of what we all think and believe in our society, we have never lost our peace, it is not a given thing in life. "World Peace" is a sleeping quality that we can awaken anytime!!! We have our free will to continue to fool ourselves. But human beings are at the center of "World Peace" and are the question and answer of it. "World Peace" will never come from anything outside our lives like, the government, any secular and religious institutions, any country, any groups, any culture and any tradition!!! It will only come from the heart of each individual. When we talk about our heart, we don't mean our level of emotions and thoughts. But our reality beyond the subconscious!!! Every single phenomenon in life has two aspects, that is the preparatory and the definitive.

Birth and death are not beginning and end of anything. They are just means or passages from one existence to another throughout the eternity of life!!! At birth we all are very tiny babies. When we reach our maturity we all are bigger and capable to think. It is why spiritually throughout the eternity of life, we have teachings that are transitory or preparatory to the one that are definitives. We are not going to give names but it is up to each one of us to find out!!! In the "World Peace" celebration, we don't assess life in terms of what is wrong and what is right or what is good and evil. This is a polar thinking that puts us in a box of extremities. Life is an eternal and unlimited one way progression!!! The dynamic definition of wisdom is to be able to adapt a solution at each circumstance in life. We go against life by trying to crystallize things. The individuality is something that is absolute. People who are still suffering dependency, submission, following, adoration of anything outside themselves will work hard to find their freedom!!! There is no need to look for what is wrong or what is right. Life being a dynamic motion, it is important to find what is appropriate for the moment. It is important to be able to live in the now. Our present moment contains our

eternity which are our past, our present and our future!!! It is how we develop a peace of mind and strong faith. When we say strong faith, we don't imply any kind of dependency that takes us away from ourselves. But the conviction and confidence that comes with the knowing or the perception of our true nature or reality!!! It is just like flipping the switch of the electrical light in a dark room. Knowledge does to ignorance, what light does to darkness. In between there is action that needs courage that takes full responsibility of our lives, knowing that at each moment we write eternally the whole script of our own lives!!! We always look for easy ways to go through life. We even think that happiness is the absence of conflicts, violence, fights and wars. But that is not the case, everything being eternal, happiness is an indestructible state of life that uses everything without exception, positively throughout the eternity!!! The key point here is to raise our awareness of true reality. The time has arrived for each of us to clean up our subconscious in order to enjoy the full functioning of all our consciousnesses. In doing so, the energy coming from our ninth consciousness, the palace of our entity of life will flow in full harmony without any obstruction and disturbance!!! The essence of life becomes the main actor!!!
