The bestselling exploration of the dimensions of love, marriage, mourning, and kinship from two-time Booker Prize finalist Deborah Levy. A New York Times Notable Book A New York Public Library Best Nonfiction Book of 2018 What does it cost a woman to unsettle old boundaries and collapse the social hierarchies that make her a minor character in a world not arranged to her advantage? This vibrant memoir, a portrait of contemporary womanhood in flux, is an urgent quest to find an unwritten major female character who can exist more easily in the world. Levy considers what it means to live with meaning, value, and pleasure, to seize the ultimate freedom of writing our own lives, and reflects on the work of such artists and thinkers as Simone de Beauvoir, James Baldwin, Elena Ferrante, Marguerite Duras, David Lynch, and Emily Dickinson. The Cost of Living, longlisted for the Andrew Carnegie Medal in Nonfiction, is crucial testimony, as distinctive, witty, complex, and original as Levy's acclaimed novels.

A New York Review Books Original Mavis Gallant is renowned as one of the great short-story writers of our day. This new gathering of long-unavailable or previously uncollected work presents stories from 1951 to 1971 and shows Gallant's progression from precocious virtuosity, to accomplished artistry, to the expansive innovatory spirit that marks her finest work. "Madeleine's Birthday," the first of Gallant's many stories to be published in *The New Yorker*, pairs off a disaffected teenager, abandoned by her social-climbing mother, with a complacent middle-aged suburban housewife, in a subtly poignant comedy of miscommunication that reveals both characters to be equally adrift. "The Cost of Living," the extraordinary title story, is about a company of strangers, shipwrecked over a chilly winter in a Parisian hotel and bound to one another by animosity as much as by unexpected love. Set in Paris, New York, the Riviera, and Montreal and full of scrupulously observed characters ranging from freebooters and malingerers to runaway children and fashion models, Gallant's stories are at once satirical and lyrical, passionate and skeptical, perfectly calibrated and in constant motion, brilliantly capturing the fatal untidiness of life.

How well does the consumer price index (CPI) reflect the changes that people actually face in living costs—from apples to computers to health care? Given how it is used, is it desirable to construct the CPI as a cost-of-living index (COLI)? With what level of accuracy is it possible to construct a single index that represents changes in the living costs of the nation's diverse population? *At What Price?* examines the foundations for consumer price indexes, comparing the conceptual and practical strengths, weaknesses, and limitations of traditional "fixed basket" and COLI approaches. The book delves into a range of complex issues, from how to deal with the changing quality of goods and services, including difficult-to-define medical services, to how to weight the expenditure patterns of different consumers. It sorts through the key attributes and underlying assumptions that define each index type in order to answer the question: Should a COLI framework be used in constructing the U.S. CPI? In answering this question, the book makes recommendations as to how the Bureau of Labor Statistics can continue to improve the accuracy and relevance of the CPI. With conclusions that could affect the amount of your next pay raise, *At What Price?* is important to everyone, and a must-read for policy makers, researchers, and employers.

This book provides a valuable compendium of annual indices and rankings of cost of living for expatriates and cost of living, wages and purchasing power for ordinary residents in 105 world's major cities over the period 2005-2015. Now in its third edition, the ACI's study reflects salient differences in costs of living for expatriate and ordinary urban dwellers which arise from variations in their lifestyles and consumption preferences. This is of critical significance as cost of living for the former is usually conflated as that for the latter by the general public.
