"Based on International Financial Reporting Standards, this textbook was written by Henry Dauderis and published by Athabasca University's David Annand, EdD, MBA, CA, Professor of Accounting in the Faculty of Business. It contains 13 chapters and includes discussion questions, cases and comprehension problems. The first four chapters provide a succinct overview of the the financial accounting process before delving into specific topics in later chapters. This second

edition has been professionally edited and significantly revised based on instructor feedback. Notable changes include: information about the classified balance sheet; notes to the financial statements, audit report and management discussion; analysis have been moved up to chapter 4 including an introduction to accounting for payroll, sales taxes, contingent liabilities and warranty reserves, among others, and a comprehensive demonstration problem has been added; accounting for proprietorships has been expanded in chapter 12; a section on notes receivable has been added to chapter 6; coverage of currently liabilities has been significantly expanded in chapter 9. Accounting for LIFO inventory valuation has been eliminated from the relevant chapter. A free, nearly 1,000-page student workbook has been developed to accompany the text. Students can print out solution outlines as they need them and then fill in solutions by hand."-- BCcampus website. *Intermediate Accounting, Chapters 1-14 , Self-Study Problems/Solutions Book*

 "Leadership and learning are indispensable to each other.." J.F Kennedy in his undelivered remarks. If we let ourselves, we shall always be waiting for some distraction or other to end before we can really get down to our work. The only people who achieve much are those who want knowledge so badly that they seek it while the conditions are still unfavourable. Favourable conditions never come. This book presents a new learning style evident with today's students and addresses accounting industry changes as well. This textbook is not written as a reference text, rather it is written in

another form where knowledge can be bridged and tested through questions and answers in a multiple choice format. To gain most from the text, we would advise you to read topics relevant to the multiple choices so as to be able to attempt the questions raised. The answers to the questions are provided towards the back pages of the text. The book will not in small measure assist students in preparation for their regular academic and professional exams. Accounting has evolved over the years especially in the areas of standard setting and global inventions and innovations. "Wisdom is not a product of schooling but of the lifelong attempt to acquire it." Albert Einstein was quoted as saying. I think the big mistake in schools is trying to teach children anything, and by using fear as the basic motivation. Fear of getting failing grades, fear of not staying with your class, etc. Interest can produce learning on a scale compared to fear as a nuclear explosion to a firecracker. This book presents a new learning style evident with today's students and addresses accounting industry changes as well. This textbook is not written as a reference text, rather it
