Say Yes to Life Say No to Drugs Routledge
Envision a world in which young people make positive decisions that advance their health and safety. Always keep conversations open and honest. Come from a place of love, even when you're having tough conversations. Balance positive reinforcement and negative reinforcement. Keep in mind that teachable moments come up all of the time -- be mindful of natural places for the conversation to go in order to broach the topic of drugs and alcohol.

"Teaching a person how to be happy naturally and in harmony with the real design, meaning and purpose of their life is the key to how they get the strength, joy and deep fulfillment that is necessary for them to have no inclination for alcohol or drugs," says Dennis Marcellino, author of *Addiction Free Forever*. "But," he says, "that's easier said than done, and can only happen within THE natural design of how we were made to operate. That requires first knowing what that design is, which has been made very difficult because there is a great amount of debate and disagreement in the world as to what that design really is. But the world in general obviously has it wrong if there exists such a huge drug and alcohol problem and poor

social statistics." Having been at the top of the music business as a former member of Sly & The Family Stone, The Elvin Bishop Group and The Tokens (famous for *The Lion Sleeps Tonight*), he knows alcohol and drug abuse well. But after experimenting with 21 approaches to lifestyle, problem solving, fun and personal growth, he became free from alcohol and drugs 25 years ago (after 18 years of use). He now says that, "Fighting nature is not a battle that anyone can win and be happy. Therefore why even try? Understanding and flowing with the natural design is how to make inner, outer and social life work their best. Therefore if a person wants to be free from a weakness for alcohol or drugs, they will have to go through a re-orientation of how the mind, heart and

body that they are in are designed to function smoothly, and they will have to know how to have the strength and vision to transform to that design." So to pass on what he discovered, he wrote a book and developed a program to go with it that, in a step by step way, helps a person to know, understand and be transformed into the natural design of their being. On the back cover of this book it says: You can't expect someone to "say no to drugs" until they have something better to say "yes" to! It goes on to say: "As an EX-alcoholic and EX-drug user (no longer a "recovering" one) for 25 years, I'm happy to present the method that accomplished that for me and that will work for anyone regardless of their circumstances. Willpower and the 12-step method didn't work for me. This program doesn't ask you to give up drugs or alcohol without first showing you how to have something better to take their place. This book will help you begin a new life where you will feel good naturally without having to medicate yourself just to get through the day, your job or life itself... or, in the pursuit of a thrill, subject yourself to the dangers of alcohol and drugs or the harm that it causes people in your life and

your relationships with them. You will learn how to transform to a deeply fulfilling life with great meaning and purpose. Some reviews for addiction recovery books by Dennis Marcellino include the following: "Frank and friendly... sincere and optimistic... not only concerned with ridding people's lives of drugs, but also with leading them to a higher state of being and greater fulfillment as individuals. A sympathetic voice which will affect readers for the better. This book is personal rather than systematically therapeutic or a 'pop' treatment of a current social concern... touches upon the important factors of human life." says Corinne Perry Buck, Feature Review in The Small Press Book Review. "A carefully reasoned argument against drug use that goes further than telling people to 'just say no'-it offers real help for people who want to break free of the bondage of drugs," says Dr. John MacArthur Jr., popular author and radio and TV personality. "Very powerful material. An amazing piece of work by an amazing man," said Scott Fagan, head of the recovery unit at Brotman Hospital (one of L.A.'s largest). "I read your book and

was very inspired to clean up my act. I'd like to order another copy for myself and one to pass on," says Theresa, Escondido, CA

Books are like people, each one has its own story. My book is a story about teenagers with an addiction for drugs and the adverse effects these addictions have on their parents. My hope is that this book will present a picture of the many changes that can present themselves in the lives of young people and parents in their battle with mind-altering drugs. Many parents, unfortunately, are lost in the complexities of our everyday busy lives and their minds are clouded to the problems that are developing before them. Many of us are either oblivious to the problem of drugs or are too afraid to admit to ourselves that we do not know what to do if it happens in our families. Parents are sadly convinced that drug addiction can never happen to their children. My wife, Jane, and I had to face that sudden realization that drugs were destroying the life of our son. I believe that my book, when read in its entirety, will give you the guidance and

insight to help all parents and their children to fight drug addiction and to render proper guidance to those already in the grip of mind-altering drugs. This book will help to illuminate those hidden changes that drugs can bring into the lives of our children and teenagers, and with it the effects it will have on those around them. I hope and pray that the sharing of this valuable information, along with my own experiences, will be a positive force in the thinking of our teenagers and their loving parents. My fellow parents, it is of the utmost importance that no matter what happens and how tough it may get, remember there is no other way but up. Wherever you are and whatever the problem, don't ever stop the fight against drug addiction. I am aware that in the hard-nosed world we live in, there are a multitude of self-help books, and numerous concepts and scientific theories on how to successfully face your problems and bring about changes in your life. But I have written my book for this reason: that parents can be hopeful in a time of adversity, suffering from a family drug addiction problem. Let faith and understanding change your life around. As

parents, we often read about drugs and the effects they have upon our children. Invariably, our many conversations will drift to the topic of drug addiction and whether our children are in fact using drugs, and what we can do about it. I remember sitting with a group of parents discussing drugs. Although we all agreed that the rapid introduction of mind-altering substances was a critical problem to our children, not everyone was in agreement what we should and could do about this problem if it affects our family. Some parents told us our family is very content since all our children are young, this problem doesn't pertain to us at this time. Some parents sat back and told me that their teenage children have never taken drugs. They never had to discuss drugs with their children because they knew they would never touch them. A third group of parents were honest enough to admit that their teenage son was a drug addict for years and they didn't know it, and when they found out about it they didn't know what to do about it. Parents, do these statements sound familiar? Perhaps something you have heard before but shrugged it off as something you

would never have to worry about. I realize that this is a sad scenario, but very true. Too many parents are not taking the time to talk to their children and establish a drug-free family when they are young and vulnerable. The result has been too many young people becoming drug addicts. Some of them could have been prevented or helped at a young age. That initial help must come from us as their parents. We must have a constant sense of awareness of this problem facing our children today. Remember, parents, we cannot change the nature of the drug addict or his addiction, but we can help

Say No to Drugs Say Yes to Unicorns

Penguin

A double feature told in the tradition of vintage drive-in tales, *Say No to Drugs* serves as a reminder that some clichés are worth paying heed. In *The Pot*, the first of two tales, terror turns green, while *Blue* - the double feature's second tale - should encourage hard drug users to think twice before mixing fatal cocktails. Ray Waltz just wanted to get high as he ushered dreaded high school years into a deep crevice designed to bury life's strangest of moments; never to be revisited again. But Jimmy Hanniger, local weed-man with the strongest herb in town held different designs for Ray and his future. If only Ray had just said no. In *Blue* a confused young man must decipher the visual riddles surrounding him. Why are the walls a sudden and mesmerizing blue? Why is there a body sprawled across the floor. And just what is that forcing its way through an ocean of turmoil, bound for dry land; bound for murderous actions? Find out in longtime entertainment journalist, Matt Molgaard's debut double feature,

crafted with the intent of pleasing those who favor the whacky, absurd grindhouse style of yesteryear.

Say No to Drugs Say Yes to Books

WestBow Press

The nationally syndicated columnist and Reason magazine editor presents a damning portrait of how politicized government agencies, antidrug activists, and a naïve national media have exaggerated the public's fears of the harmful effects of recreational drugs. Jacob Sullum goes beyond the debate on legalization or the proper way to win the "war on drugs," to the heart of a social and individual defense of using drugs. Saying Yes argues that the all-or-nothing thinking that has long dominated discussions of illegal drug use should give way to a wiser, subtler approach exemplified by the tradition of moderate drinking. Saying Yes further contends that the conventional understanding of addiction, portraying it as a kind of chemical slavery in which the user's values and wishes do not matter, is also fundamentally misleading.
