and magic" (Jennifer Rosner, *The Yellow Bird Sings*) explores what it means to truly love in the wake of devastation. In the aftermath of World War II, Goh Junja is a girl just coming into her own. She is the latest successful deep sea diver in a family of strong haenyeo. Confident she is a woman now, Junja urges her mother to allow her to make the Goh family's annual trip to Mt. Halla, where they trade abalone and other sea delicacies for pork. Junja, a sea village girl, has never

But when Junja returns one day later, it is just in time to see her mother take her last breath, beaten by the waves during a dive she was taking in Junja's place. This dark comic novella follows the life of "the psychoanalyst" in an urban village engaging a cast of characters with whom he shares his life and his ideas. A vulnerable yet thoughtful person shadowed by what he refers to as life after the Catastrophe, he finds himself celebrating "depression", discovering how it is an essential emotion housing insight into the self, society, and world affairs. Amusing, disturbing and thought provoking, the novella

reveals in remarkable depth the many faces of depression. The psychoanalyst agonizes over the increasingly fascist dimensions of his profession and provides an excoriating critique of the psychotropic movement. He challenges the world of modern psychology that by stereotyping souls as sufferers of one or another of the newly coined diagnoses, such as Attention Deficit Disorder, ordains a world that reduces humanity. Where thoughtfulness once was,

now one discovers a pill, a fashionable new illness, and a twelve-step program that define a life. The arrival of a terrorist in his consulting room seeking treatment in order to carry out a suicide bombing serves as a pivot for other crises that involve the analyst in an increasingly anarchic and surreal era, one that suggests a new world order. Readers will find in this work new perspectives that challenge many assumptions, ironically suggesting that in these

difficult times understanding our complex mental lives - as in depression - holds invaluable keys to a better future for the individual and for modern society.

"Mermaids are protected by the government under the Endangered Species Act, which means you aren't able to kill them even in self-defense. This is especially problematic if you happen to live in the isolated fishing village of Siren Cove, where there exists a healthy population of mermaids in the surrounding waters that view you as the main source of protein in their diet. The only thing

keeping these ravenous sea women at bay is the equally-dangerous supply of human livestock known as Food People. Normally, these "feeder humans" are enough to keep the mermaid population happy and well-fed. But in Siren Cove, the mermaids are avoiding the human livestock and have returned to hunting the frightened local fishermen. It is up to Doctor Black, an eccentric representative of the Food People Corporation, to investigate the matter and hopefully find a way

to correct the mermaids' new eating patterns before the remaining villagers end up as fish food. But the more he digs, the more he discovers there are far stranger and more dangerous things than mermaids hidden in this ancient village by the sea."--Page 4 of cover. *Skin of the Sea* Vintage Dive into the magical sea and explore the enchanted world of mermaids! From playing with dolphins to having a mermaid tea party, this book delights in all

aspects of mermaid life including seahorse riding, mermaid school, playing dress up, blowing bubbles, searching for sunken pirate treasure, mermaid pets, coral reefs, mermaid lullabies, and more.
