Inspired by a 1988 trip to El Salvador, Michael J. Perry's new book is a personal and scholarly exploration of the idea of human rights. Perry is one of our nation's leading authorities on the relation of morality, including religious morality, to politics and law. He seeks, in this book, to disentangle the complex idea of human rights by way of four probing and interrelated essays. * The initial essay, which is animated by Perry's skepticism about the capacity of any secular morality to offer a coherent account of the idea of human rights, suggests that the first part of the idea of human rights--the premise that every human being is "sacred" or "inviolable"--is inescapably religious. * Responding to recent criticism of "rights talk", Perry explicates, in his second essay, the meaning and value of talk about human rights. * In his third essay, Perry asks a fundamental question about human rights: Are they universal? In addressing this question, he disaggregates and criticizes several different varieties of "moral relativism" and then considers the implications of these different relativist positions for claims about human rights. * Perry turns to another fundamental question about human rights in his final essay: Are they absolute? He concludes that even if no human rights, understood as moral rights, are absolute or unconditional, some human rights, understood as international legal rights, are--and indeed, should be--absolute. In the introduction, Perry writes: "Of all the influential--indeed, formative--moral ideas to take center stage in the twentieth century, like democracy and socialism, the idea of human rights (which, again, in one form or another, is an old idea) is, for many, the most difficult. It is the most difficult in the sense that it is, for many, the hardest of the great moral ideas to integrate, the hardest to square, with the reigning intellectual assumptions of the age, especially what Bernard Williams has called 'Nietzsche's thought': 'There is not only no God, but no metaphysical order of any kind....' For those who accept 'Nietzsche's thought', can the idea of human rights possibly be more than a kind of aesthetic preference? In a culture in which it was widely believed that there is no God or metaphysical order of any kind, on what basis, if any, could the idea of human rights long survive?" The Idea of Human Rights: Four Inquiries will appeal to students of many disciplines, including (but not limited to) law, philosophy, religion, and politics.

This book introduces the Multilingual Approach to Diversity in Education (MADE), a framework that provides an extensive, holistic instrument with research-based teacher indicators for teachers, teacher educators, and administrators to deliver optimal education to multilingual learners in a range of contexts. The authors introduce and provide a theoretical and research-based rationale for the MADE, presenting in turn each of its seven indicators, situating them within current research and theory in multilingualism and education, and providing specific examples of classroom applications. This book will be of interest to academics, teacher educators, pre-service and practicing teachers, and graduate students interested in teaching and researching multilingual learners.

Multicultural Teaching in the Early Childhood Classroom UNSW Press

This unique book features an array of approaches, strategies, and tools for teaching multiculturally in the early years. The teachers and classrooms portrayed here provide young children with rich educational experiences that empower them to understand themselves in relation to others. You will see how amazing teachers engage in culturally responsive teaching that fosters educational equity while also meeting state and national standards (such as the Common Core State Standards). This engaging book is sprinkled with questions for reflection and implementation that encourage

educators to start planning ways of enhancing their own teaching, making their early childhood setting a more equitable learning space. Book Features: Multicultural education in action, including the everyday issues and tensions experienced by children and their families. Powerful vignettes from diverse Head Start, preschool, kindergarten, 1st- and 2nd-grade classrooms throughout the United States. Sections on “Getting Started” and “Considering Obstacles and Exploring Possibilities” in each chapter. A list of multicultural children’s books and resources for further reading. Chapters: Multicultural Tools and Strategies for Teaching Young Children Multicultural Education as Transformative Education Interviews: Encouraging Children to Ask Questions Critical Inquiry: Supporting Children’s Investigations Culture Circles with Multicultural Literature: Addressing Issues of Fairness Community Resources and Home Literacies: Developing Funds of Knowledge Technology: Media(ing) Multicultural Teaching Storytelling and Story Acting: Creating Spaces for Children to Negotiate Change Reflecting on the Possibilities of Teaching Multiculturally: What Next? What If? Mariana Souto-Manning is Associate Professor of Education in the Department of Curriculum and Teaching at Teachers College, Columbia University. “A profound, rich, and rewarding meditation and deep conversation with teachers fully engaging young children with culture, social history, and learning for the future. This wide-ranging book escapes temporal, spatial, and disciplinary boundaries. Read it and reflect on how you can take it into your own life of learning.” —Shirley Brice Heath, Professor Emerita, Stanford University “Early childhood educators will experience this unique book as a warm and detailed invitation to engage in multicultural education. The emphasis throughout is on “multi”—multiple pedagogical approaches, from culture circles to podcasts to story acting, and multiple cultural heritages embodied by active children and teachers. From a critical perspective and alongside creative teachers who aspire to be transformative, Souto-Manning links accessible theory with rich and thoughtful practices.” —Celia Genishi, Professor of Education, Teachers College, Columbia University “Mariana Souto-Manning’s Multicultural Teaching in the Early Childhood Classroom rightly places the use of deficit thinking and ineffective teaching strategies in the wasteland of classroom instruction. The author superbly documents and explains ways of teaching multiculturally that will richly benefit the learning of all students and make teaching become the fun that teachers dreamed it would be when they first said, ‘I want to teach because I love kids.’” —Carl A. Grant, Hoefs-Bascom Professor, University of Wisconsin-Madison “Multicultural Teaching in the Early Childhood Classroom encourages teachers to honor, affirm, and challenge even our very youngest children to think inclusively, critically, and democratically—a necessity if we are to help develop knowledgeable, caring, and empowered learners.” —Sonia Nieto, Professor Emerita, University of Massachusetts, Amherst

Leadership in a Diverse and Multicultural Environment provides leaders with the tools necessary to effectively interact with all individuals. Although much of the research related to multiculturalism has focused on expatriates and international assignments, the book also focuses on leaders in domestic organizations, as they can benefit from developing their own multicultural awareness, knowledge, and skills. Effective leaders can shape the culture of their organization to be accepting of individuals from all races, ethnicities, religions, and genders with a minimum of misunderstandings. *Religious Diversity in the Workplace* McGraw-Hill Humanities, Social Sciences & World Languages Read It Again! celebrates our rich literacy and cultural diversity with imaginative ideas and activities for 12 multicultural children's books. Books about Africans, Asians, Hispanics, and Native Americans help children appreciate the similarities as well as the differences among cultures. Includes activities suggestions for each story.

A bold, brain-based teaching approach to culturally responsive instruction To close the achievement gap, diverse classrooms need a proven framework for optimizing student engagement. Culturally responsive instruction has shown promise, but many teachers have struggled with its implementation—until now. In this book, Zaretta Hammond draws on cutting-edge neuroscience research to offer an innovative approach for designing and implementing brain-compatible culturally responsive instruction. The book includes: Information on how one’s culture programs the brain to process data and affects learning relationships Ten “key moves” to build students’ learner operating systems and prepare them to become independent learners Prompts for action and valuable self-reflection

Cultural Diversity in the Classroom Building Relationships

The so-called nation states have created ethnical minorities. Also due to migration, cultural diversity is the reality. The multicultural society is strongly reproduced in the schools all over Europe. Cultural diversity in the classroom is increasingly recognized as a potential which should not be neglected. The educational system has, above all, to provide all children with equal opportunities. Experts from Finland, the UK, Hungary, Spain, Greece, Cyprus, and other European states, mostly responsible for teacher education, have contributed to this volume with critical, but constructive remarks on the classroom reality in their countries. This book is valuable reading for academics and practitioners in educational sciences.

Diversity arising from the mixing of peoples from different cultural backgrounds has long been an issue in nations such as the United States and Australia, and in recent decades, European nations have reached unprecedented levels of cultural diversity due to increased migration. This phenomenon of increasing cultural diversity at the national level sets the context for current social science research on the consequences of diversity for social integration, institutional functioning, and interpersonal relationships. This book reviews theory and research in social and organizational psychology on the management of diversity in work organizations. The book shows how diversity management takes place across multiple levels: at a national level, at an organizational level, between work groups and teams, in interpersonal relations, and at the level of individual experiences. Each chapter summarizes relevant empirical research, and considers how the dynamics of workgroup relations are likely to be affected by cultural differences among group members. The contributors also describe the variables which organizational leadership should be sensitive to in designing and implementing policies and practices for inclusive organizations. *Towards Inclusive Organizations* will be essential reading for researchers and advanced students in social and organizational psychology.

Towards Inclusive Organizations John Wiley & Sons

This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.
