An award-winning journey through Johann Sebastian Bach's six cello suites and the brilliant musician who revealed their lasting genius. One fateful evening, journalist and pop-music critic Eric Soblin attended a recital of Johann Sebastian Bach's Cello Suites—an experience that set him on an epic quest to uncover the mysterious history of the entrancing compositions and their miraculous reemergence nearly two hundred years later. In pursuit of his musicological obsession, Soblin would unravel three centuries of intrigue, politics, and passion. Winner of the Mavis Gallant Prize for Non-fiction and the McAuslan First Book Prize, *The Cello Suites* weaves together three dramatic narratives: the disappearance of Bach's manuscript in the eighteenth century, Pablo Casals's discovery and popularization of the music in Spain in the late nineteenth century, and Soblin's infatuation with the suites in the present day. The search led Soblin to Barcelona, where Casals, just thirteen and in possession of his first cello, roamed the backstreets with his father in search of sheet music and found Bach's lost suites tucked in a dark corner of a store. Casals played them every day for twelve years before finally performing them in public. Soblin sheds new light on the mysteries that continue to haunt this music more than 250 years after its composer's death: Why did Bach compose the suites for the cello, then considered a lowly instrument? What happened to the original manuscript? A seamless blend of biography and music history, *The Cello Suites* is a true-life journey of discovery,

fueled by the power of these musical masterpieces. "The ironies of artistic genius and public taste are subtly explored in this winding, entertaining tale of a musical masterpiece." —Publishers Weekly "Soblin's writing is most inspired when describing the life of Casals, showing a genuine affection for the cellist, who . . . used his instrument and the suites as weapons of protest and pleas for peace." —Booklist, starred review

First to be published in the series was *The Art of French Horn Playing* by Philip Farkas, now Distinguished Professor Emeritus of Music at Indiana University. In 1956, when Summy-Birchard published Farkas's book, he was a solo horn player for the Chicago Symphony and had held similar positions with other orchestras, including the Boston Symphony, Cleveland

Orchestra, and Kansas City Conservatory, DePaul University, Northwestern University, and Roosevelt University in Chicago. The *Art of French Horn Playing* set the pattern, and other books in the series soon followed, offering help to students in learning to master their instruments and achieve their goals.

Music for a Mixed Taste Alfred Music Publishing

The music of Alec Wilder (1907-1980) blends several American musical traditions, such as jazz and the American popular song, with classical European forms and techniques. Stylish and accessible, Wilder's musical oeuvre ranged from sonatas, suites, concertos, operas, ballets, and art songs to woodwind quintets, brass quintets, jazz suites, and hundreds of popular songs. In this biography and critical investigation of Wilder's music, Philip Lambert chronicles Wilder's early work as a part-time student at the Eastman School of Music, his ascent through the ranks of the commercial recording industry in New York City in the

1930s and 1940s, his turn toward concert music from the 1950s onward, and his devotion late in his life to the study of American popular songs of the first half of the twentieth century. The book discusses some of his best-known music, such as the revolutionary octets and songs such as "I'll Be Around," "While We're Young," and "Blackberry Winter," and explains the unique blend of cultivated and vernacular traditions in his singular musical language.

J. S. Bach's Suites for Unaccompanied Cello are among the most cherished and frequently played works in the entire literature of music, and yet they have never been the subject of a full-length music analytical study. The musical examples herein include every note of all movements (so one needs no separate copy of the music while reading the book), and undertakes both basic analyses—harmonic reduction, functional harmonic analysis, step progression analysis, form analysis, and syntagmatic

and paradigmatic melodic analysis—and specialized analyses for some of the individual movements. Allen Winold presents a comprehensive study intended not only for cellists, but also for other performers, music theorists, music educators, and informed general readers.

Composers and sound artists have explored for decades how to transform microphones and loudspeakers from "inaudible" technology into genuinely new musical instruments. While the sound reproduction industry had claimed perfect high fidelity already at the beginning of the twentieth century, these artists found surprising ways of use – for instance tweaking microphones, swinging loudspeakers furiously around, ditching microphones in all kinds of vessels, or strapping loudspeakers to body parts of the audience. Between air and electricity traces their quest and sets forward a new theoretical framework, providing historic background on technological and artistic development, and diagrams of concert and performance set-ups. From popular noise musician Merzbow to minimalist classic Alvin Lucier, cult instrument inventor Hugh Davies, or contemporary visual artist Lynn Pook – they all aimed to make audible what was supposed to remain silent.
