### CLARENCE ASHTYN

Christmas at Highclere Penguin Embroiderers will welcome this delightful collection of charted designs by Gerda Bengtsson, considered one of the greatest living designers of counted cross-stitch designs. Here are more than 40 exquisite florals, including such favorites as Buttercups, Anemone, Pansies, Spring Flowers, Iceland Poppy, Crowberry, Lapland Rhododendron, Wild Fruit, Sweet Violet, Lady's Mantle, Stone Bramble, and Hare's-Foot Clover. All of the designs are

color keyed to both D.M.C. and Danish Flower Thread embroidery floss, and because the chart makes it easy to vary the size of the design they can be used to decorate anything from small pillows to bedspreads. The patterns lend themselves to use not only in cross-stitch, but also needlepoint, rug-hooking, crochet, and other forms of counted thread embroidery. *A Literary Christmas* Simon and Schuster This seasonal compendium collects together poems, short stories, and prose extracts by some of the greatest poets and writers in the English language. Like Charles Dickens's *ghosts of Christmas Past and Present*, they are representative of times old and new--from John Donne's

Elizabethan hymn over the baby Jesus to Benjamin Zephaniah's "Talking Turkeys," from Thomas Tusser counting the cost of a Tudor feast to P. G. Wodehouse's wry story about Christmas on a diet. Enjoy a Christmas Day as described by Samuel Pepys, Anthony Trollope, George Eliot, or Nancy Mitford. Venture out into the snow in the company of Jane Austen, Henry James, and Dickens's Mr. Pickwick. Entertain the children with the seasonal tales of Dylan Thomas, Kenneth Grahame, and Oscar Wilde. Fat Cat Art Andrews McMeel Publishing "Vaclav Smil is my favorite author... Numbers Don't Lie takes everything that makes his writing great and boils it down

into an easy-to-read format. I unabashedly recommend this book to anyone who loves learning."--Bill Gates, GatesNotes From the author of *How the World Really Works*, an essential guide to understanding how numbers reveal the true state of our world--exploring a wide range of topics including energy, the environment, technology, transportation, and food production. Vaclav Smil's mission is to make facts matter. An environmental scientist, policy analyst, and a hugely prolific author, he is Bill Gates' go-to guy for making sense of our world. In *Numbers Don't Lie*, Smil answers questions such as: What's worse for the environment--your car or your phone? How much do the world's cows weigh (and what does it matter)? And what makes people happy? From data about our societies and populations, through measures of the fuels and foods that energize them, to the impact of transportation and inventions of our modern world--and how all of this affects the planet itself--in *Numbers Don't Lie*, Vaclav Smil takes us on a fact-finding adventure, using surprising statistics and illuminating graphs to challenge conventional thinking. Packed with

fascinating information and memorable examples, *Numbers Don't Lie* reveals how the US is leading a rising worldwide trend in chicken consumption, that vaccination yields the best return on investment, and why electric cars aren't as great as we think (yet). Urgent and essential, with a mix of science, history, and wit--all in bite-sized chapters on a broad range of topics--*Numbers Don't Lie* inspires readers to interrogate what they take to be true. [Astrology, Almanacs, and the Early Modern English Calendar](#) Penguin  
 "The cartoon hero of the workplace." --San Francisco Examiner  
 Dilbert is the cubicle-bound star of the most photocopied, pinned-up, downloaded, faxed, and e-mailed comic strip in the world. As fresh a look at the inanity of office life as it brought to the comics pages when it first appeared in 1989, this new Dilbert collection comically confirms to the working public that we all really know what's going on. Our devices might be more sophisticated, our software and apps might be more plentiful, but when it gets down to interactions between the worker bees and the clueless in-controls, discontent and sarcasm rule, as only

Dilbert can proclaim.

### **The Breathing Earth** Steidl

This book explains how True Cost Accounting is an effective tool we can use to address the pervasive imbalance in our food system. Calls are coming from all quarters that the food system is broken and needs a radical transformation. A system that feeds many yet continues to create both extreme hunger and diet-related diseases, and one which has significant environmental impacts, is not serving the world adequately. This volume argues that True Cost Accounting in our food system can create a framework for a systemic shift. What sounds on the surface like a practice relegated to accountants is ultimately a call for a new lens on the valuation of food and a new relationship with the food we eat, starting with the reform of a system out of balance. From the true cost of corn, rice and water, to incentives for soil health, the chapters economically compare conventional and regenerative, more equitable farming practices in and food system structures, including taking an unflinching look at the true cost of cheap labour. Overall, this volume points towards the potential for

our food system to be more human-centred than profit-centred and one that has a more respectful relationship to the planet. It sets forth a path forward based on True Cost Accounting for food. This path seeks to fix our current food metrics, in policy and in practice, by applying a holistic lens that evaluates the actual costs and benefits of different food systems, and the impacts and dependencies between natural systems, human systems, agriculture and food systems. This volume is essential reading for professionals and policymakers involved in developing and reforming the food system, as well as students and scholars working on food policy, food systems and sustainability.

*Dilbert Turns 30* HarperCollins UK  
*Astrology, Almanacs, and the Early Modern English Calendar* is a handbook designed to help modern readers unlock the vast cultural, religious, and scientific material contained in early modern calendars and almanacs. It outlines the basic cosmological, astrological, and medical theories that undergirded calendars, traces the medieval evolution of the calendar into its early modern format

against the background of the English Reformation, and presents a history of the English almanac in the context of the rise of the printing industry in England. The book includes a primer on deciphering early modern printed almanacs, as well as an illustrated guide to the rich visual and verbal iconography of seasons, months, and days of the week, gathered from material culture, farming manuals, almanacs, and continental prints. As a practical guide to English calendars and the social, mathematical, and scientific practices that inform them, *Astrology, Almanacs, and the Early Modern English Calendar* is an indispensable tool for historians, cultural critics, and literary scholars working with the primary material of the period, especially those with interests in astrology, popular science, popular print, the book as material artifact, and the history of time-reckoning.  
*Cat's Cafe* Phaidon Press

The ideal Sudoku gift for puzzle lovers, this beautiful, vintage Sudoku collection is packed with 150 classic brain-bending logic puzzles. Sudoku has never been more beautiful! A refreshing change from typical logic puzzle collections, this gifty

Whether you pack your puzzles to take on your commute or display this gorgeous collection on your coffee table to enjoy from the comfort of your own couch, this puzzle book will beat screen fatigue and keep your mind sharp.

**Every Day a Word Surprises Me & Other Quotes by Writers** Courier Corporation

It's drinks, it's chickens: It's the cocktail book you didn't know you needed! To add some extra happy to your happy hour, invite a chicken and pour yourself a drink. Author Kate Richards serves up cocktails made for Instagram with the spoils of her Southern California garden, chicken friends by her side. Enjoy any (or all) of the 60+ deliciously drinkable garden-to-glass beverages, such as: Lilac Apricot Rum Sour Meyer Lemon + Rosemary Old Fashioned Rhubarb Rose Cobbler Blackberry Sage Spritz Cantaloupe Mint Rum Punch Cocktails are arranged

seasonally, and are 100% accessible for those of us without perpetually sunny backyard gardens at our disposal. Drinking with Chickens will quickly become a boozy favorite, perfect for gifting or for hoarding all for yourself. You don't need chickens to enjoy these drinks or the colorful photos, but be careful, because you may even find yourself aspiring to be, as Kate is, a home chixologist overrun by gorgeous, loud, early-rising egg-laying ladies, and in need of a very strong drink.

**A Calendar of Wisdom** Routledge

The moving and inspiring story of an Auschwitz survivor who shares what he's learned about gratitude, tolerance and kindness.

Wochenplaner 2020 2019 2020 18-Month Daily Weekl

Highclere Castle, known as 'the real Downton Abbey' bustles with activity at the best of times, but it is never more alive than at Christmas. Christmas at Highclere is a look behind the scenes at the routines and rituals that make the castle the most magical place to be throughout the festive season. Lady Carnarvon will guide you through Advent, Christmas preparations and Christmas Eve

all the way through to the day itself, and beyond. Learn how the castle and grounds are transformed by decorations, including the raising of a twenty-foot tree in the saloon, the gathering of holly and mistletoe from the grounds. All the intricacies of the perfect traditional Christmas are here: from crackers and carol singers. The festive feeling is carried through to Highclere's Boxing Day traditions, the restorative middle days and the New Year's Eve celebrations. This book also tells the story of historic Christmases at Highclere - of distinguished guests warming themselves by the fire after a long journeys home through the snow, unexpected knocks on the door, and, always, the joy of bringing family - and staff - together after a busy year. As well as telling the stories of Highclere Christmases past and present, Lady Carnarvon provides recipes, tips and inspiration from her kitchen so that readers can bring a quintessentially British festive spirit to their own home. Lady Carnarvon divulges the secret to perfectly flakey mince pies, the proper way to wrap presents so that you and your guests are guaranteed a Christmas to remember.

Lavish, celebratory and utterly enchanting, Christmas at Highclere is celebration of one of the UK's most beloved historic houses and is the perfect gift for any Downton Abbey fan.

*I'll Never Forget You* Pan Books

David Austin's first collection of poetry is the tale of The Breathing Earth: not a metaphor, but a living entity, an ecosystem that is the root of every story. Often drawing on his own life experiences in these personal tales, here is the philosophical, meditative poetry at the heart of the English tradition. David Austin is the author of a number of books in his capacity as the most distinguished breeder of roses and founder of the UK's largest and most prestigious rose-grower, but in *The Breathing Earth* we find a book

unlike any of his other work: the account of a career and a life spent in contemplation of the natural world and human behaviour.

*The Life of Ludwig Van Beethoven* Random House

"[A] uniquely inclusive perspective that will inspire conviction, passion, and action." —Kirkus Reviews (starred review) An empowering, engaging young readers guide to understanding and battling climate change from the expert and bestselling author of *This Changes Everything* and *On Fire*, Naomi Klein.

Warmer temperatures. Fires in the Amazon. Superstorms. These are just some of the effects of climate change that we are already experiencing. The good news is that we can all do something about it. A movement is already underway to combat not only the environmental effects of climate change but also to fight for climate justice and make a fair and livable future possible for everyone. And young people are not just part of that movement, they are leading the way. They are showing us that this moment of danger is also a moment of great opportunity—an opportunity to change everything. Full of empowering stories of young leaders all over the world, this information-packed book from award-winning journalist and one of the foremost voices for climate justice, Naomi Klein, offers young readers a comprehensive look at the state of the climate today and how we got here, while also providing the tools they need to join this fight to protect and reshape the planet they will inherit.

**Danish Floral Charted Designs**

Routledge

In this book, authors Tenko Raykov and George A. Marcoulides introduce students

to the basics of structural equation modeling (SEM) through a conceptual, nonmathematical approach. For ease of understanding, the few mathematical formulas presented are used in a conceptual or illustrative nature, rather than a computational one. Featuring examples from EQS, LISREL, and Mplus, *A First Course in Structural Equation Modeling* is an excellent beginner's guide to learning how to set up input files to fit the most commonly used types of structural equation models with these programs. The basic ideas and methods for conducting SEM are independent of any particular software. Highlights of the Second Edition include:

- Review of latent change (growth) analysis models at an introductory level
- Coverage of the popular Mplus program
- Updated examples of LISREL and EQS

Downloadable resources that contains all of the text's LISREL, EQS, and Mplus examples. *A First Course in Structural Equation Modeling* is intended as an introductory book for students and researchers in psychology, education, business, medicine, and other applied social, behavioral, and health sciences

with limited or no previous exposure to SEM. A prerequisite of basic statistics through regression analysis is recommended. The book frequently draws parallels between SEM and regression, making this prior knowledge helpful.

*True Cost Accounting for Food* Andrews McMeel Publishing

Celebrating red-haired male beauty and challenging negative ginger stereotypes comes *Red Hot 100*, a groundbreaking coffee table book showcasing the hottest red head guys in the world. With a truly international feel, the book contains one hundred flame-haired guys from all over the world, captured topless against the iconic vivid blue background. The book includes actors, models, and an Olympic gold medalist.

*How to Draw Inky Wonderlands* Thomas Nelson

This elaborate book features over 160 ink and pencil drawings by Christoph Niemann, each a story of an unfamiliar place. They are observations on traveling, arriving and immersing oneself, on the melancholy of being on the road and the adventure of discovering new destinations among them New York, Paris,

Hong Kong, Amsterdam, Seville and Kyoto. Regardless of their subjects, these are all iconic sketches, capable of grasping the magic, light and mood of a place in a handful of virtuoso strokes. In Niemann's own words, in *Souvenir* over time memories change. Most things fade, while others become more significant. Connections arise that one wasn't aware of originally. Sometimes a drawing can capture all this in a new and surprising way. And with some luck, the picture feels as authentic as the moment itself.

Christoph Niemann is one of the world's most in-demand artists. *Der Tagesspiegel*, Berlin Co-published with Diogenes, Zurich Exhibitions: Literaturhaus München, Munich, 9 November 2018 to 3 February 2019 Deutsche Oper Berlin, to July 2019
