A <i>Tame Surrender</i> Cambridge University Press Excerpt from Under Which Master, or the Story of the Long Strike at Coverdale: A Romance of Labor As we reach the comer of Dale and Mine Streets, we approach a large Catholic church, the largest church in fact, in the city. It is a fine edifice, with tall, slender spire lifting its gilded cross heavenward where it glows and burns in the light of the morning sun like a beacon light from the Eternal City. Begin ning with Mine Street, and from there to River or Front Street, the first street east of the Middle Val ley Railroad along Dale Street, lies the business part of Coverdale; while on the cross streets and the streets parallel with Dale Street are the residences of the tradespeople and business men of the town. In this portion of the town, lying to the north of Dale Street, and in sight of the Cover homestead, is the neat and unpretending home of Mrs. Clatty. Going back to the place from which we started, to take up the trend of the story so that it may be clear and intelligible to the reader, we will describe a little more minutely these scenes. The house in which the Dales live is situated on the north side of Dale Street, and fronting on it. On the east side of this lot runs a narrow street called Glen Lane, leading from the bluffs on the north and crossing Dale Street runs south ward a little way, ending in a deep, narrow ravine which leads to the glen before mentioned, lying south of the town. Crossing right at this point, the Coverdale Cedar Summit Railroad has erected a high bridge spanning the creek and the glen, which is separated from the creek here by a rocky bluff that j uts out into the creek, forming its west bank, and wholly cutting the glen from the creek until it reaches the lower ground, when this rocky wall, having narrowed to a point, wholly disappears. Farther along the reader will see why we have been so explicit in describing this particular spot, and it will be well that this description be kept well in mind in the further perusal of this story. Forgotten Books Excerpt from The Diary of a Shirtwaist Striker: A Story of the Shirtwaist Makers' Strike in New York I must say I really don't know why I became one - I went down just because everybody else in the workroom did. They did try to explain it all to us girls, but all I could make out from the woman's speech was when she raised her eyes to the ceiling and exclaimed, like they do on the stage: Sisters, mine, we are all with you - the lot of good it'll do us. Oh, pshaw, if one was to believe all they tell you down there! The idea of their telling us that us girls are nothin' but slaves. Perhaps they are, but not I. I'm a free-born American, I am. Some of them speakers look too silly for anything, especially that one with the long bushy hair. An' the way he screamed at the top of his voice, one would think that the house is on fire. I wonder if it hurts him - this strike does? About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. <i>Tame Surrender</i> South End Press With this volume, The University of California Center for New Racial Studies inaugurates a new book series with Routledge. Focusing on the shifting and contradictory meaning of race, The Nation and Its Peoples underscores the persistence of structural discrimination, and the ways in which "race" has formally disappeared in the law and yet remains one of the most powerful, underlying, unacknowledged, and often unspoken aspects of debates about citizenship, about membership and national belonging, within immigration politics and policy. This collection of original essays also emphasizes the need for race scholars to be more attentive to the processes and consequences of migration across multiple boundaries, as surely there is no place that can stay fixed—racially or otherwise—when so many people have been moving. This book is ideal as required reading in courses, as well as a vital new resource for researchers throughout the social sciences.		<i>The Waterfront and General Strikes, San Francisco, 1934: A Brief History (Classic Reprint)</i> University of Pennsylvania Press Excerpt from The Great Steel Strike: And Its Lessons In many a church during the recent strike, ministers and priests denounced the agitators and urged the workmen in their congregations to go back to the mills. Small business men accepted deputy sher iffs' commissions, put revolvers in their belts and talked loudly about the merits of a firing squad as a remedy for industrial unrest. For twenty or more years in the mill towns along the Monongahela since I 892 in Homestead the working men have lived in an atmosphere of espion age and repression. The deadening influence of an overwhelming power, capable of crushing whatever does not bend to its will, has in these towns stifled individual initiative and robbed citizenship of its virility. The story of the most extensive and most coura geons fight yet made to break this power and to set free the half million men of the steel mills is told. Within the pages of this book by one who was himself a leader in the fight. It is a story that is worth the telling, for it has been told before only in fragmentary bits and without the authority that comes from the pen of one of the chief actors in the struggle. <i>The Big Strike (Classic Reprint)</i> Tebbo In this classic novel from respected author and decorated soldier Charles King, an unlikely romance blossoms amidst a period of increasingly tense civil unrest as Chicago labor unions strike. Will the relationship survive the trying circumstances in which it was born?		<i>Z Magazine</i> South End Press In clear, accessible language, Brecher and Costello describe how people around the world have started challenging the New World Economy. From the Zapatistas of Chiapas to students in France to the broad-based anti-NAFTA and anti-GATT coalitions in the United States, opposition to economic globalization, Brecher and Costello argue, is becoming a worldwide revolt.

The Ordeal of the Jungle The New Press A pivotal moment in the history of the movement for working-class democracy, the “Memorial Day Massacre” vividly captured the conflicting ideals of workers’ rights and the sanctity of private property. On Memorial Day 1937, thousands of steelworkers, middle-class supporters, and working-class activists gathered at Sam's Place on the Southeast Side of Chicago to protest Republic Steel’s virulent opposition to union recognition and collective bargaining. By the end of the day, ten marchers had been mortally wounded and more than one hundred badly injured, victims of a terrifying police riot. Sam's Place, the headquarters for the steelworkers, was transformed into a bloody and frantic triage unit for treating heads split open by police batons, flesh torn by bullets, and limbs mangled badly enough to require amputation. While no one doubts the importance of the Memorial Day Massacre, Michael Dennis identifies it as a focal point in the larger effort to revitalize American equality during the New Deal. In Blood on Steel, Dennis shows how the incident—captured on film by Paramount newsreels—validated the claims of labor activists and catalyzed public opinion in their favor. In the aftermath of the massacre, Senate hearings laid bare patterns of anti-union aggression among management, ranging from blacklists to harassment and vigilante violence. Companies were determined to subvert the right to form a union, which Congress had finally recognized in 1935. Only in the following year would Congress pass the Fair Labor Standards Act, which established a minimum wage and a maximum work week, outlawed child labor, and regulated hazardous work. Like the Wagner Act that protected collective bargaining, this law aimed to protect workers who had suffered the worst of what the Great Depression had inflicted. 		Globalization from Below Berghahn Books In Men, Mobs, and Law, Rebecca N. Hill compares two seemingly unrelated types of leftist protest campaigns: those intended to defend labor organizers from prosecution and those seeking to memorialize lynching victims and stop the practice of lynching. Arguing that these forms of protest are related and have substantially influenced one another, Hill points out that both worked to build alliances through appeals to public opinion in the

media, by defining the American state as a force of terror, and by creating a heroic identity for their movements. Each has played a major role in the history of radical politics in the United States. Hill illuminates that history by considering the narratives produced during the abolitionist John Brown's trials and execution, analyzing the defense of the Chicago anarchists of the Haymarket affair, and comparing Ida B. Wells's and the NAACP's anti-lynching campaigns to the Industrial Workers of the World's early-twentieth-century defense campaigns. She also considers conflicts within the campaign to defend Sacco and Vanzetti, chronicles the history of the Communist Party's International Labor Defense, and explores the Black Panther Party's defense of George Jackson. As Hill explains, labor defense activists first drew on populist logic, opposing the masses to the state in their campaigns, while anti-lynching activists went in the opposite direction, castigating "the mob" and appealing to the law. Showing that this difference stems from the different positions of whites and Blacks in the American legal system, Hill's comparison of anti-lynching organizing and radical labor defenses reveals the conflicts and intersections between antiracist struggle and socialism in the United States.

Excerpt from *The Facts About the Shopmen's Strike* Some of the matters at issue in the present strike are radical, so radical, indeed, that it is difficult to see how the railroad company can yield without capitulating. They demand, as an instance, the time of service and not merit must determine whether a man is to be promoted or not; secondly, that a man's personal record should not at all influence those who are to employ him; and, thirdly, that the entire body should be made to suffer in order to promote the presumed interests of a particular craft. Unfortunately, Marable's blistering insights into racial injustice and economic inequality remain depressingly relevant. But the good news is that Marable's prescient analysis-and his eloquent and self-critical preface to this new edition-will prove critical in helping us to think through and conquer the oppressive forces that remain."-Michael Eric Dyson, author of *I May Not Get There with You: The True Martin Luther King, Jr.* "For those of us who came of political age in the 1980s, Manning Marable's *How Capitalism Underdeveloped Black America* was one of our bibles. Published during the cold winter of Reaganism, he introduced a new generation of Black activists/thinkers to class and gender struggles within Black communities, the political economy of incarceration, the limitations of Black capitalism, and the nearly forgotten vision of what a socialist future might look like. Two decades later, Marable's urgent and hopeful voice is as relevant as ever."-Robin D.G. Kelley, author of *Yo' Mama's DisFunktional!*:

Excerpt from *The Strike of a Sex: A Novel* An English edition of this celebrated American story seems called for by the great and increasing interest felt in the problem of property in the old and crowded countries of Europe. It is nearly a hundred years since Malthus expounded the true relation between poverty and the increase of the human race: and it is more than thirty years since Darwin, in his *Origin of Species*, showed that the Malthusian Law lies at the basis of all organic evolution. No further apology is needed for a tale which points to a discovery, already tested by experience, which claims to solve, at one and the same time, the Malthusian or population problem, the Darwinian or eugenic problem, the problem of social purity, and the problem of personal health in relation to sex. Excerpt from *The Waterfront and General Strikes, San Francisco, 1934: A Brief History* Because of the fact that less than a month was spent in its completion, what follows must, in spite of every effort to check statements made, contain not a few inaccuracies. Had more time been available to examine sources some of these would, undoubtedly, have been caught. But again the exigencies of time made this procedure impossible. A word must be said as to references. Almost without exception every statement made on the basis of a newspaper reference was checked to be certain that it appeared in more than one paper. The particular paper referred to in each instance is the one that seemed to carry the most complete and, inferentially, the most accurate statement. In many cases where reference is made to a specific paper the events or circumstances described in the news paper narrative also came within the field of personal knowledge of the writer and in some instances within his personal observation. It may not always be possible to trace newspaper references from regular library files since the writer had available for his purposes every clipping from every edition of the most important newspapers in the San Francisco Bay area. Since many editions appeared each day, particularly during the period of the general strike, some of the references may, as indicated, not be found in an ordinary file. Reference to the files and records of the Industrial Association indicates, as a rule, material in diaries available to the writer, or in the file of weekly memoranda issued to its Board of Directors. Press releases were also used as references in some cases. While this technic cannot lay claim to the accuracy that would be expected of a studious and detailed piece of historical research, it is felt that the narrative which follows, and which was written while the recollection of events was still fresh, may serve such as read it as an outline of the spectacular events which it attempts to cover.
