In Prehistory, the award-winning archaeologist and renowned scholar Colin Renfrew covers human existence before the advent of written records—which is to say, the overwhelming majority of our time here on earth. But Renfrew also opens up to discussion, and even debate, the term “prehistory” itself, giving an incisive, concise, and lively survey of the past, and how scholars and scientists labor to bring it to light. Renfrew begins by looking at prehistory as a discipline, particularly how developments of the past century and a half—advances in archaeology and geology; Darwin’s ideas of evolution; discoveries of artifacts and fossil evidence of our human ancestors; and even more enlightened museum and collection curatorship—have fueled continuous growth in our knowledge of prehistory. He details how breakthroughs such as radiocarbon dating and DNA analysis have helped us to define humankind’s past—how things have changed—much more clearly than was possible just a half century ago. Answers for why things have changed, however, continue to elude us, so Renfrew discusses some of the issues and challenges past and present that confront the study of prehistory and its investigators. In the book’s second part, Renfrew shifts the narrative focus, offering a summary of human prehistory from early hominids to the rise of literate civilization that is refreshingly free from conventional wisdom and grand “unified” theories. The author’s own case studies encompass a vast geographical and chronological range—the Orkney Islands, the Balkans, the Indus Valley, Peru, Ireland, and China—and help to explain the formation and development of agriculture and centralized societies. He concludes with a fascinating chapter on early writing systems, “From Prehistory to History.” In this invaluable, brief account of human development prior to the last four millennia, Colin Renfrew delivers a meticulously researched and passionately argued chronicle about our life on earth, and our ongoing quest to understand it.

Seminar paper from the year 2004 in the subject English Language and Literature Studies - Other, grade: keine, University of Rostock, course: Kulturwissenschaft: Representation of class in British Films since the 1930s, 5 entries in the bibliography, language: English, abstract: In this paper I take a closer look at the movie Kes produced by Ken Loach. The movie is based on the book A Kestrel for a Knave which was written by Barry Hines. It is a pretty interesting story and by watching the movie the viewer automatically compares his own life and school experiences with Billys experiences. In the first part of this work I give a short introduction about the background and the situation in which the movie takes place. In the second part I take a closer look at Billys daily life, his future options and his relationship to his brother. [...]

**Brodie's Notes on Barry Hines's 'Kes' ('A Kestrel for a Knave')**. New York Review of Books With the same rigorous observation (natural and social), invigorating stylishness, and encyclopedic learning that he brought to his National Book Award-winning Bad Land, Jonathan Raban conducts readers along the Inside Passage from Seattle to Juneau. The physical distance is 1,000 miles of difficult-and often treacherous-water, which Raban navigates solo in a 35-foot sailboat. But Passage to Juneau also traverses a gulf of centuries and cultures: the immeasurable divide between the Northwest's Indians and its first European explorers-- between its embattled

fishermen and loggers and its pampered new class. Along the way, Raban offers captivating discourses on art, philosophy, and navigation and an unsparing narrative of personal loss.

The predecessor to Helen Macdonald’s H is for Hawk, T. H. White’s nature writing classic, The Goshawk, asks the age-old question: what is it that binds human beings to other animals? White, the author of The Once and Future King and Mistress Masham’s Repose, was a young writer who found himself rifling through old handbooks of falconry. A particular sentence—“the bird reverted to a feral state”—seized his imagination, and, White later wrote, “A longing came to my mind that I should be able to do this myself. The word ‘feral’ has a kind of magical potency which allied itself to two other words, ‘ferocious’ and ‘free.’” Immediately, White wrote to Germany to acquire a young goshawk. Gos, as White named the bird, was ferocious and Gos was free, and White had no idea how to break him in beyond the ancient (and, though he did not know it, long superseded) practice of depriving him of sleep, which meant that he, White, also went without rest. Slowly man and bird entered a state of delirium and intoxication, of attraction and repulsion that looks very much like love. White kept a daybook describing his volatile relationship with Gos—at once a tale of obsession, a comedy of errors, and a hymn to the hawk. It was this that became The Goshawk, one of modern literature’s most memorable and surprising encounters with the wilderness—as it exists both within us and without.

Notes on Barry Hines's A Kestrel for a Knave Letts & Lonsdale

The classic book that inspired Kes, the famous film, now published as a Penguin Essential for the first time. Barry Hines's A Kestrel for a Knave was published in 1968, and was made into one of the key British films of the sixties. Billy Casper is beaten by his drunken brother, ignored by his mother and failing at school. He seems destined for a hard, miserable life down the pits, but for a brief time, he finds one pleasure in life: a wild kestrel that he has raised and tamed himself.
