In this landmark  
dictionary, Roy Armes

details the scope and diversity of filmmaking across the Arab Middle East. Listing more than 550 feature films by more than 250 filmmakers, and short and documentary films by another 900 filmmakers, this volume covers the film

production in Iraq, Jordan, Lebanon, Palestine, Syria, and the Gulf States. An introduction by Armes locates film and filmmaking traditions in the region from early efforts in the silent era to state-funded productions by isolated filmmakers and politically engaged documentarians. Part 1 lists biographical information about the filmmakers and their feature films. Part 2 details key feature films from the countries represented. Part 3 indexes feature-film titles in English and French with details about the director, date, and country of origin.

In proposing that places, movements,

and directions are deeply implicated in the narrative structure of *Ulysses*, Michael Seidel contends that Joyce recreates in Dublin the significant epic geography of the *Odyssey*. The author demonstrates how Joyce adjusts the spaces of *Ulysses* to accommodate the three theaters of Homeric action as mapped by Victor Berard's *Lex Phéniciens et l'Odyssee*. Jules Verne, a 19th-century French author, is famed for such revolutionary science-fiction novels as "Around the World in Eighty Days" and "Twenty Thousand Leagues Under the Sea". He has sometimes been called the "Father of Science Fiction", a title that has also been given to H. G. Wells and Hugo Gernsback. In all,

Verne authored more than 60 books (most notably the 54 novels comprising the "Voyages Extraordinaires"), as well as dozens of plays, short stories and librettos. He conjured hundreds of memorable characters and imagined countless innovations years before their time, including the submarine, space travel, terrestrial flight and deep-sea exploration. Verne is generally considered a major literary author in France and most of Europe, where he has had a wide influence on the literary avant-garde and on surrealism. Verne has been the second most-translated author in the world since 1979, ranking between Agatha Christie and

William Shakespeare. Some of the works appear only in their original French texts, due to copyright restrictions. Although individually and collectively Americans have many histories, the dominant view of our national past focuses on the colonial era. The reasons for this are many and complex, touching on stories of the country's origins and of the founding fathers, the privileged position in history granted the thirteen original colonies, and

the ways in which the nation has adjusted to change and modernity. But no matter the cause, the result is obvious: images and forms derived from and related to America's colonial past are the single most popular form of cultural expression. Often conceived solely in architectural terms, from the red-brick and white-trimmed buildings that recall eighteenth-century James River estates to the clapboarded saltboxes that recall early New England, Colonial Revival is in fact better understood as a process of remembering. In Re-creating the American Past, architectural historian Richard Guy Wilson and a host of other scholars examine how and why Colonial

Revival has persisted in modern times. The volume contains essays that explore Colonial Revival expressions in architecture, landscape architecture, historic preservation, decorative arts, and painting and sculpture, as well as the social, intellectual, and cultural background of the phenomena. Based on the University of Virginia's landmark 2000 conference "The Colonial Revival in America," Re-creating the American Past is a comprehensive and handsome volume that recovers the origins, characteristics, diversity, and significance of the Colonial Revival, situating it within the broader history of American design, culture, and society.

This is the eighth volume of *Babel und Bibel*, an annual of ancient Near Eastern, Old Testament, and Semitic studies. The principal goal of the annual is to reveal the inherent relationship between Assyriology, Semitics, and biblical studies—a relationship that our predecessors comprehended and fruitfully explored but that is often neglected today. The title *Babel und Bibel* is intended to point to the possibility of fruitful collaboration among the three disciplines, in an effort to explore the various civilizations of the ancient Near East. This volume is a festschrift for Joachim Krecher, Professor of

Assyriology in the Westfälische Wilhelms-Universität Münster. Krecher is best known, perhaps, for his seminal *Sumerische Kultlyrik*, published already in 1966. This compendium includes 17 essays by friends and colleagues, all focusing on Sumerian language and literature.

Dr. Paul Wells takes the reader deep into the thought of James Barr, the prominent and controversial Oxford professor known for his works on biblical semantics, interpretation, and authority. Barr's criticisms of both modern biblical theology and

fundamentalism and his rejection of traditional views of inspiration and authority provide the background for his proposal to view the Bible as a progressing human tradition. In this radical alternative, Barr seeks a way of "encouraging the Scriptures to speak freely." Wells contends, however, that Barr's critique is not radical enough to solve a major remaining problem of the relation of Scripture's divine and human factors.

Wells's own assessment of that problem and proposed solution are found in his conclusion.

La porte du ciel est à la fois un livre psychologique, philosophique et un roman initiatique. Dans cet ouvrage, l'auteur nous invite à explorer le monde obscur de la psyche, sans tabou ni a priori. À travers les réflexions et découvertes d'un jeune psychiatre prénommé Paul dans le récit, l'auteur nous entraîne sur les pas d'un vieil oncle disparu, ayant

laisse pour seul héritage un vieux chalet sans âge, perdu au milieu des montagnes, mais surtout des notes manuscrites, que Paul découvrira au début du récit, et qui le conduiront à franchir la porte du ciel, au terme d'une analyse réflexive à laquelle le lecteur se trouvera associée de par la composition même de l'ouvrage. À travers la confrontation originale entre Paul, jeune psychiatre formé à l'école scientifique moderne, et un vieil oncle pétri de sagesse et de culture ancienne, l'auteur nous invite donc à le suivre sur un chemin de connaissance, largement documenté, ou chacun pourra tracer son propre sillon.

 The first explores

 second addresses the

 the construction of  
 narratives invoked in

 pursues this theme of

encounter and otherness in various historical perspectives. From a queer exegesis of the narrative of Acts 8 to the question of the extent of Christ's salvation in the hypothesis of inhabited worlds in science fiction literature, the eclecticism of these academic contributions, as well as their relevance to contemporary debates, promise the reader multiple changes of scenery and genuinely new thinking. This issue also includes a previously unpublished contribution by Paul Ricœur, a restitution of a three-speaker conference given in January 2000 on the theme of justice between ethics and law.

FINALIST - Prix littéraire Trillium 2015 From the founding of New France to the present day, Quebec women have had to negotiate societal expectations placed on their gender. Tracing the evolution of life writing by Quebec women, Patricia Smart presents a feminist analysis of women's struggles for autonomy and agency in a society that has continually emphasized the traditional roles of wife and mother. Writing Herself into Being examines published autobiographies and autobiographical fiction, as well as the annals of religious communities, letters, and a number of published and unpublished diaries by girls and women, to reveal a greater range

of women's experiences than proscribed, generalized roles. Through close readings of these texts Smart uncovers the authors' perspectives on events such as the 1837 Rebellion, the Montreal cholera epidemic of 1848, convent school education, the struggle for women's rights in the early twentieth century, and the Quiet Revolution. Drawing attention to the individuality of each writer while situating her within the social and ideological context of her era, this book further explores the ways women and girls reacted to, and often rebelled against, the constraints imposed on them by both Church and state. Written in a clear and compelling narrative style that

brings women's voices to life, *Writing Herself into Being* – the author's own translation of her award-winning French-language book *De Marie de l'Incarnation à Nelly Arcan: Se dire, se faire par l'écriture intime* (Boréal, 2014) – offers a new and gendered view of various periods in Quebec history.

"The documents gathered in this volume cut a winding path through the tumultuous final thirty-three months of Leibniz's life, from March 1714 to his death on 14 November 1716. The disputes with Newton and his followers over the discovery of the calculus and, later,

over the issues in natural philosophy and theology that came to dominate Leibniz's correspondence with Samuel Clarke certainly loom large in the story of these years. But as the title of this volume is intended to convey, the letters exchanged between Leibniz and Caroline of Brandenburg-Ansbach, Electoral Princess of Braunschweig-Luneburg and later Princess of Wales, also figure prominently in their telling, and I have included their complete extant correspondence from 1714 to 1716. These letters are of particular interest inasmuch as they provide valuable insights into how and why Leibniz's correspondence with Clarke arose, and why

it developed as it did, with Caroline in the role of influential go-between; whence the title, *The Leibniz-Caroline-Clarke Correspondence*. But there is more; for these letters provide a window into the evolving personal relationship between Leibniz and Caroline. Much of the early correspondence between Leibniz and Caroline after her arrival in England is filled with thoughtful and engaging exchanges about philosophy, literature, and politics, about people Caroline was meeting in England, about those known by Leibniz far and wide, about the new royal family in England, headed by George I (Georg Ludwig of Braunschweig-

Luneburg), as well as gossip about affairs of state in both England and Europe at large. Beyond the interest they hold for Leibniz scholars in particular, many of these exchanges should also be of interest to historians of early 18th-century England and Europe, and especially to those interested in the period immediately preceding and following the Hanoverian succession to the throne of England. But even quite early on in their correspondence Leibniz seemed to sense a threat to his relationship with Caroline, and a worrisome paranoia began to creep into some of his letters to her, letters in which he expressed concerns about her continuing

allegiance to him now that she had been installed in England amongst his rivals. As the correspondence progressed, Leibniz's paranoia only deepened; but it was nevertheless prophetic of a tragic truth to come. For the letters exchanged between Leibniz and Caroline document the rather sad story of the slow but steady erosion of Caroline's loyalty to Leibniz after she departed Hanover on 12 October 1714 and landed in England at Margate in Kent on 22 October as the new Princess of Wales and future Queen of England. In 1727 the Scottish poet James Thomson penned A Poem Sacred to the Memory of Sir Isaac Newton, calling him "our philosophic sun,"

and it was by force of  
the political and  
cultural mass of this  
sun that Caroline was

eventually, and  
inexorably, drawn into  
its orbit, and away  
from Leibniz"
