**National awakening and nationalism of the Ukrainian nation from Cossack time to the beginning of the 20th century** Collins

With the disintegration of the Soviet Union, a number of new states were created that had little or no claim to any previous existence. Ukraine is one of the countries that faced not only political, social and economic transformation, but also state formation and the redefinition of national identity. This book uses Ukraine as a case study in trying to trace the key moments of decision making in the course of creating a new state while shedding the legacies of "Soviet-type" statehood. The Moulding of Ukraine offers a systematic examination of competing ideological visions of statehood and discusses them against the backdrop of historical traditions in Ukraine. This well-documented and lucidly written book is the only coherent account available in English of the process of constitutional reform, offering an insight into post-Soviet Ukrainian politics. A useful addition to university course reading lists in Ukrainian studies, post-Soviet studies, post-communist democratization, comparative constitutionalism, state-building and institutional design.

Seminar paper from the year 2007 in the subject Politics - Political Systems - History, grade: 1,3, Vilnius University, 7 entries in the bibliography, language: English, abstract: To describe the Ukrainian nationalism I will also use the famous concept from the Czech historian Hroch who is dividing the national movements into three phases. Phase 1) cultural awakening- a small group of educated people develops an interest in language, history and folklore of an ethnic group. Phase 2) national agitation- the implementation of national consciousness into a wider circle of the population in order to mobilize them and to integrate them into a national community which will lead to Phase 3) mass movement with its goal of political autonomy (Hroch in Kappeler 2001/ Weeks 1996). The case of Ukraine is in this sense not very easy to look at because of several events, in form of national policies of two influential Empires. Another interesting theoretical point of view is the distinction between ‘ancient’ and ‘young’ nations and their prospects to form a successful national movement. The former having a tradition of a national elite, and high culture, and the latter not. Young nations also have an incomplete social structure and almost no urban middle class. They also are fighting first primarily against the foreign elite and less against the state. The main aim is to create firstly a high culture of their own. Ukraine is seen as such a ‘small’ or ‘young’ nation (Kappeler 2001).

I will describe Ukrainian nationalism in the context of modernization and mobilization through social, economic and political changes as well as on special events that might had a greater impact on the Ukrainian nationalism. The time period covered in this paper will be from the starting point of pre-historical Ukrainian 'nation' to the reenactment of the above described third phase of national mass movement.

Seminar paper from the year 2005 in the subject Politics - International Politics - Topic: European Union, grade: B (= 2,0), Vesalius College Brussels, course: Politics of European Integration, 18 entries in the bibliography, language: English, abstract: With the election of Viktor Juschtschenko as President of Ukraine in December 2004 a new issue has been opened in the integration process of the European Union: Shall the Ukraine become a member in the near future? While Juschtschenko demands this since his inauguration in January 2005 the EU still reacts very reserved according to that issue. It did not make a final decision yet how to deal with Ukraine in the future. This research paper is going to show why it is important to give Ukraine enough incentives to go on in renewing its economy and to establish a stable democracy in the former country of the Soviet Union, but why it is much too early to allow the Ukraine to join the EU in the short run (main thesis). It will analyze how the European Union dealt with Ukraine so far and give a recommendation how to go on in the future. Therefore it is looking in the first chapter at the relations with Ukraine until Juschtschenko was elected as President - because this marks a turning point in Ukrainian politics towards the EU. The second chapter will concentrate on only the last four months and evaluate both the policy of Ukraine towards the EU and the policy of the EU according to the issue of a possible accession of Ukraine. The third and last chapter will start a discussion why or why not the EU should open accession negotiations with Ukraine. It is going to work out the main thesis presented above. To reconstruct the policy and proof the different facts the author of the research paper used a lot of original documents of the EU as well as articles published in the media. Because this research paper examines a not very well researched topic in EU policies, only a few

secondary sources were used.

In *Erased*, Omer Bartov uncovers the rapidly disappearing vestiges of the Jews of western Ukraine, who were rounded up and murdered by the Nazis during World War II with help from the local populace. What begins as a deeply personal chronicle of the Holocaust in his mother's hometown of Buchach--in former Eastern Galicia--carries him on a journey across the region and back through history. This poignant travelogue reveals the complete erasure of the Jews and their removal from public memory, a blatant act of forgetting done in the service of a fiercely aggressive Ukrainian nationalism. Bartov, a leading Holocaust scholar, discovers that to make sense of the heartbreaking events of the war, he must first grapple with the complex interethnic relationships and conflicts that have existed there for centuries. Visiting twenty Ukrainian towns, he recreates the histories of the vibrant Jewish and Polish communities who once lived there-and describes what is left today following their brutal and complete destruction. Bartov encounters Jewish cemeteries turned into marketplaces, synagogues made into garbage dumps, and unmarked burial pits from the mass killings. He bears witness to the hastily erected monuments following Ukraine's independence in 1991, memorials that glorify leaders who collaborated with the Nazis in the murder of Jews. He finds that the newly independent Ukraine-with its ethnically cleansed and deeply anti-Semitic population--has recreated its past by suppressing all memory of its victims. Illustrated with dozens of hauntingly beautiful photographs from Bartov's travels, *Erased* forces us to recognize the shocking intimacy of genocide.
