From African American pilots being asked to carry people's luggage to patrons refusing drinks from African American flight attendants, Cabin Pressure demonstrates that racism is still very much alive in the "friendly skies." Author Louwanda Evans draws on provocative interviews with African Americans in the flight industry to examine the emotional labor involved in a business that offers occupational prestige, but also a history of the systemic exclusion of people of color.

Chapters ***PARANORMAL*** GHOST STORIES*** PSYCHIC MEDIUM*** GUARDIAN ANGELS*** The best way to describe the FLIGHT TIMES series is Cabin Pressure meets Tales of the City with some paranormal Twilight Zone and X-Files thrown in for good measure. FLIGHT TIMES is an aviation travel memoir series based on my own real-life unusual experiences and unique thought-provoking perspectives. It is a collaboration which follows my life with a group of airline friends from the late 70's up until the present day.

This chapter is divided into three sections. The first discusses Mission Control Center (MCC) design and operations. This covers the need for and purpose of the MCC and then details structure, operations, design considerations, and mitigation of external events. The second section, on hazardous commands identification and control, explores identification of hazardous commands and then, implementation, including two-step commanding and error prevention, giving the International Space Station life support system as an example. The final section, on flight rules, covers the history of flight rules and their application, use and purpose in space flight, including their documentation and production process.

This is the complete fourth series of the hit sitcom about the pilots of a tiny charter airline for whom no job is too small, but many, many jobs are too difficult.

Benedict Cumberbatch, In Transition National Geographic Books

Stephanie Cole ('Doc Martin'), Benedict Cumberbatch and Roger Allam ('The Thick of It') star in the complete first series of the hit sitcom about the pilots of a tiny charter airline for whom no job is too small, but many, many jobs are too difficult. Written by John Finnemore, writer for 'The News Quiz', and 'That Mitchell & Webb Sound'. Run by the forbidding divorcée Carolyn Knapp-Shapley (an unfortunate marriage, name-wise, but in Carolyn's opinion, marginally better than Carolyn Shapley-Knapp), her two pilots are the smooth, experienced and almost-certainly-fired-by-a-big-airline-for-all-round naughtiness Douglas, and struggling almost-competent pilot Martin. All-round help is provided by Carolyn's near-idiot son, Arthur... 'Unexpectedly brilliant' - Time Out. 'An inspired new sitcom' - Observer. 'I cannot find a single flaw in it. So top marks.' - Independent on Sunday. Full cast, starring Stephanie Cole, Roger Allam, Benedict Cumberbatch and John Finnemore.

The series of tests described was motivated by the results of a full-scale test consisting of exposing a titanium fuselage to an external fuel fire. The titanium fuselage, as expected, remained intact and prevented fuel-falem penetration; however, the silicone cabin pressure sealant and silicone-bonded insulation auto-ignited and burned, causing early cabin heating, significant smoke and toxic gases, and a flash-fire. The complete four-volume, Aurealis Award-shortlisted, science fiction epic: "An engaging space opera with plenty of action" (Publishers Weekly). Dark Space: The arid mining planet of Araldis has been invaded. As her people struggle against the onslaught, Baronessa Mira Fedor falls prey to the intrigues of the planet's elite, forcing her on the run. To survive, Mira must uncover the identity of the single guiding intelligence responsible for both the war and her betrayal. Chaos Space: Mira Fedor has fled war-torn Araldis. Her only hope to save her world lies with the Orion League of Sentient Species, which will not involve itself in an intergalactic conflict. Pursued by her planet's invaders and her own people, Mira finds herself targeted by the League's agents. She knows a single entity is responsible for the havoc wreaked on her life, but its motives remain a mystery. Mirror

Space: With her home planet of Araldis under hostile occupation, and the Orion League unable—or unwilling—to help, Mira Fedor recruits mercenary captain Rast Randall to save her home. Now, she is free to unearth the hidden strategies of her allies and enemies alike, and continue her quest to solve the mystery of the omniscient Sole Entity with a dark agenda. Transformation Space: Mira Fedor is pregnant, and her rapid gestation indicates her child may be more than human. As secrets are revealed and conspiracies exposed about the attack on Araldis, Mira wonders if this cosmic game where so many people have been used as pawns is truly coming to an end—and if the Sole Entity has a final move to make.

Between 1968 and 1972, twenty four daring men journeyed from Earth to the Moon. This fascinating book traces what was a massive accomplishment right from the early launches through manned orbital spaceflights, detailing each step. Out of the battlefields of World War II came the gifted German engineers and designers who developed the V-2 rocket, which evolved into the powerful Saturn V booster that propelled men to the Moon. David Woods tells this exciting story, starting from America's postwar astronomical research facilities. The techniques and procedures developed have been recognised as an example of human exploration at its greatest, demonstrating a peak of technological excellence.

Star Trek: Into Darkness, The Fifth Estate, 12 Years a Slave, August: Osage County, The Hobbit: The Desolation of Smaug—these would be milestones in most actors' entire career. For Benedict Cumberbatch, roles in these films are merely a year's additions to his already-vast resume. 2013 proved to be the final step in Cumberbatch's transition from respected working actor to bona fide worldwide celebrity and recipient of BAFTA Los Angeles' Britannia Award for British Artist of the Year. Like its predecessor, Benedict Cumberbatch, In Transition (MX Publishing, 2013), Benedict Cumberbatch, Transition Completed: Films, Fame, Fans explores the nature of Cumberbatch's fame and fandom while analysing his most recent roles. This in-depth performance biography does more than critique the actor's radio, stage, film, and television performances—especially his star turn in the long-awaited yet controversial third series of Sherlock. It also analyses how and why the actor's work is so memorable in each role, a perspective unique to this performance biography. Cumberbatch's role in popular culture, as much as his acting in multiple media, is well worth such scrutiny to illustrate that Benedict Cumberbatch represents both the best of acting and of the power of celebrity.

Tinker Tailor Soldier Spy, War Horse, Star Trek: Into Darkness, The Hobbit trilogy, Twelve Years a Slave, August: Osage County, The Fifth Estate; Hedda Gabler, After the Dance, Frankenstein; Hawking, To the Ends of the Earth, The Last Enemy, Parade's End, and, of course, Sherlock. For most actors, these stellar cinematic, theatrical, and television events would be the highlights of a lifetime's work. On Benedict Cumberbatch's résumé they are only a few of many entries. Especially since 2010, his performances have garnered a plethora of best actor awards, both in the theatre (Evening Standard Theatre Award, Critics Circle Theatre Award, and Olivier Award), by playing the dual roles of Victor Frankenstein and the Creature in the National Theatre's Frankenstein, and on television (Broadcasting Press Guild Award, Critics Choice Television Award, Crime Thriller Award, and TV Choice Award), by starring as the titular Holmes in the BBC's Sherlock. Add these and other recent accolades to nearly a decade's nominations and awards (such as the Golden Nymph as best actor in Hawking), and it's easy to see why Benedict Cumberbatch is often hailed as the actor of his generation. Cumberbatch's body of work further includes indie films, radio plays and series, television documentaries, live dramatic readings, multimedia advertisements, and even the occasional stint as a fashion model. He often shares an intriguing perspective on his profession, as evidenced in sometimes controversial interviews. He has become so much in demand that online box offices crash when tickets for his performances go on sale, and, before a Cheltenham Literature

Festival Q&A session, fans overwhelmed Twitter when so many responded immediately to a call for questions. Cumberbatch consistently is a top name on lists ranging from sex appeal to global influence. In 2012 he beat David Beckham in the former and U.S. President Barack Obama in the latter. Increasingly, part of Cumberbatch's job involves the role of celebrity. Benedict Cumberbatch is at a pivotal point in his profession, and his career trajectory especially as documented in entertainment media permits a closer examination of just what it means to be a celebrity or star in Britain or the U.S. and how an actor may be perceived very differently in London or Hollywood. This performance biography is an analysis of a man in transition from working actor to multimedia star, as well as the balance between actor and celebrity. It looks at what makes this actor so well suited to play one of popular culture's iconic characters, Sherlock Holmes, and how Sherlock is so well suited to propel Cumberbatch toward greater global fame.
