This book develops a constitutional theory of international organization to explain the legitimation of supranational organizations. Supranational organizations play a key role in contemporary global governance, but recent events like Brexit and the threat by South Africa to withdraw from the International Criminal Court suggest that their legitimacy continues to generate contentious debates in many countries. Rethinking international organization as a constitutional problem, Oates argues that it is the representation of the constituent power of a constitutional order, that is, the collective subject in whose name authority is wielded, which explains the legitimation of supranational authority. Comparing the cases of the European Union, the World Trade Organization, and the International Criminal Court, Oates shows that the constitution of supranationalism is far from a functional response to the pressures of interdependence but a value-laden struggle to define the proper subject of global governance. The book will be of interest to students and scholars of international organization and those working in the broader fields of global governance and general International Relations theory. It should also be of interest to international legal scholars, particularly those focused on questions related to global constitutionalism.

Discover the world's greatest heroic fantasy artist, Frank Frazetta in the landmark collection, *Fantastic Paintings of Frazetta*. The New York Times said, "Frazetta helped define fantasy heroes like Conan, Tarzan and John Carter of Mars with signature images of strikingly fierce, hard-bodied heroes and bosomy, callipygian damsels." Frazetta took the sex and violence of the pulp fiction of his youth and added even more action, fantasy and potency, but rendered with a panache seldom seen outside of major works of Fine Art. Despite his fantastic subject matter, the quality of Frazetta's work has not only drawn comparisons to the most brilliant of illustrators, Maxfield Parrish, Frederic Remington, Norman Rockwell, N.C. Wyeth but, even to the most brilliant of fine artists including Rembrandt and Michelangelo and, major Frazetta works sell for millions of dollars. This innovator's work has inspired generations of artists, movies including the Conan films, John Carter of Mars, the Lord of the Rings trilogy, Robert Rodriguez' films including *From Dusk Till Dawn*, Ralph Bakshi films, the epic, *Game of Thrones* series, Tim Burton's *Sleepy Hollow*, Disney's animated Tarzan films, Francis Ford Coppola's *Apocalypse Now* and George Lucas' *Star Wars*. *Forbes* magazine said, "Which artist helped make Arnold governor? Frank Frazetta, the Rembrandt of barbarians." J. David Spurlock started crafting this book by reviving the original million-selling 1970s mass market art book, *Fantastic Art of Frank Frazetta*. But, he expanded and revised to include twice as many images and, presents them at a much larger coffee-table book size. The collection is brimming with classic and rare works including barbarians, beasts, and beauties. *Game of Thrones* creator George R. R. Martin said, "Frazetta's covers of the Conan paperback collections became the definitive picture of the character... still is." Schwarzenegger said, "When I looked at Frazetta's paintings, I tell you, it was intimidating." *Game of Thrones*, Conan and Aquaman film star Jason Momoa said, "I am a huge Frank Frazetta fan. That's what I wanted to bring to life." See the revolutionary art that helped inspire Schwarzenegger, Momoa, the Lord of the Rings and *Game of Thrones*: FRAZETTA!
