In JUST ONE MORE THING, Peter Falk takes us on an acting journey that begins not in Hollywood but in Hartford, where he worked as a management analyst for the Connecticut State Budget Bureau. His time there was no more successful than an earlier attempt to find work with the Central Intelligence Agency. At loose ends, Falk turned to an old college interest: acting. He came to prominence as an actor in 1956 in the highly successful Off-Broadway revival of 'The Iceman Cometh' with Jason Robards. Although he worked continuously for the next three years, bouncing from one Off-Broadway theater to the next, a theatrical agent advised him not to expect much work in motion pictures because of his glass eye. Surgeons had removed his right eye, along with a malignant tumor, when he was three years old. But in 1958, the actor made the jump to Hollywood, where he landed his first movie, 'Murder Incorporated', and was nominated for an Oscar. Next came Frank Capra's 'A Pocketful of Miracles' starring Bette Davis, which garnered Falk his second Oscar nomination. Falk was a favorite among moviegoers during the 1960s, admired for his roles in classic comedies such as 'It's A Mad, Mad, Mad, Mad World' and 'The Great Race'. However, it was through his collaboration with filmmaker John Cassavetes that Falk entered into his most creative period in 1970. Motion pictures such as 'Husbands' and 'A Woman Under the Influence' helped launch the independent film movement. Nevertheless, Falk continued to act in light film comedies, including 'The In-Laws' and Neil Simon's 'The Cheap Detective' and 'Murder by Death', among others. Yet it was through television that Falk reached his widest audience. He has portrayed the beloved Lt. Columbo since the 1970s,

winning four Emmys. The series was so successful that ten years after it's demise, 'Columbo' was re-launched, bringing Falk to a new generation of viewers. JUST ONE MORE THING also chronicles the author's more recent work, such as movie appearances in 'A Shark's Tale' and Paul Reiser's 'The Thing About My Folks', as well stories of growing up in New York, Hollywood and Broadway luminaries, and the author's accomplished passion for drawing and painting.

It's a perfect beach day, or so thought the family, young couple, a few tourists, and a refugee who all end up in the same secluded, idyllic cove filled with rock pools and sandy shore, encircled by green, densely vegetated cliffs. But this utopia hides a dark secret. First there is the dead body of a woman found floating in the crystal-clear water. Then there is the odd fact that all the children are aging rapidly. Soon everybody is growing older--every half hour--and there doesn't seem to be any way out of the cove. Levy's dramatic storytelling works seamlessly with Peeters's sinister art to create a profoundly disturbing and fantastical mystery. Praise for Sandcastle "Begins like a murder mystery, continues like an episode of The Twilight Zone, and finishes with a kind of existentialism that wouldn't be out of place in a Von Trier film." --Publishers Weekly, starred review "Sandcastle is a fast

112-page read you won't be able to put down." --Cleveland.com "Peeters and Levy convey some profound, if profoundly unsubtle, truths about the human condition. Weighty stuff, expertly told." --The Comics Bulletin

The play *Shakuntala* was one of the first examples of Indian literature to be read in translation in Europe. *Shakuntala's* story is a leitmotiv that recurs in many works of Indian literature and culminates in the master Kali-dasa's drama for the stage. The virtuous heroine is forgotten by her betrothed, the king Dushyanta, only to be refound thanks to a distinguishing signet ring discovered by a fisherman in the belly of one of his catch. The final act distills the essence of human forgiveness, in *Shakuntala's* gracious release of her husband from his guilt.

Dr. Radhakrishnan sketches the lives of fourteen individuals who have influenced India's life and culture significantly and altered the course of its history. Among these are social reformers like Swami Dayanand and Raja Ram Mohan Roy, political thinkers and activists like Lala Lajpat Rai, Sardar Patel, Tilak and Gokhale and a giant among scientists, Jagdis Bose. All of them had one thing in common — they broke the barriers of tradition and normalcy, and strove for noble ideals... They dreamt, and had the courage and tenacity to turn their dreams into reality.

Prime Time Soap Operas on Indian Television Big Podcast

This book examines the phenomenon of prime time soap operas on Indian television. An anthropological insight into social issues and practices of contemporary India through the television, this volume analyzes the production of soaps within India's cultural fabric. It deconstructs themes and issues surrounding the "everyday" and the "middle class" through the fiction of the "popular". In its second edition, this still remains the only book to examine prime time soap operas on Indian television. Without in any way changing the central arguments of the first edition, it adds an essential introductory chapter tracking the tectonic shifts in the Indian "mediascape" over the past decade — including how the explosion of regional language channels and an era of multiple screens have changed soap viewing forever. Meticulously researched and persuasively argued, the book traces how prime time soaps in India still grab the maximum eyeballs and remain the biggest earners for TV channels. The book will be of interest to students of anthropology and sociology, media and cultural

studies, visual culture studies, gender and family studies, and also Asian studies in general. It is also an important resource for media producers, both in content production and television channels, as well as for the general reader.

The Promise of Happiness is a provocative cultural critique of the imperative to be happy. It asks what follows when we make our desires and even our own happiness conditional on the happiness of others: “I just want you to be happy”; “I’m happy if you’re happy.” Combining philosophy and feminist cultural studies, Sara Ahmed reveals the affective and moral work performed by the “happiness duty,” the expectation that we will be made happy by taking part in that which is deemed good, and that by being happy ourselves, we will make others happy. Ahmed maintains that happiness is a promise that directs us toward certain life choices and away from others. Happiness is promised to those willing to live their lives in the right way. Ahmed draws on the intellectual history of happiness, from classical accounts of ethics as the good life, through seventeenth-century writings on affect and the passions, eighteenth-century debates on virtue and education, and nineteenth-century utilitarianism. She engages with feminist, antiracist, and queer critics who have shown how happiness is used to justify social oppression, and how challenging oppression causes unhappiness. Reading novels and films including Mrs. Dalloway, The Well of Loneliness, Bend It Like Beckham, and Children of Men, Ahmed considers the plight of the figures who challenge and are challenged by the attribution of happiness to particular objects or social ideals: the feminist killjoy, the unhappy queer, the angry black woman, and the melancholic migrant. Through her readings she raises critical questions about the moral order imposed by the injunction to be happy.

Never Kiss Your Best Friend Bloomsbury Publishing USA

This book is a provocative new study of global feminist activism that opposes neoliberal regimes across several sites including Asia, Australia, Canada, Europe, Latin America and the United States. The feminist performative acts featured in the book contest the aggressive unravelling of collectively won gains in gender, sexual and racial equality, the appearance of new planes of discrimination, and the social consequences of political economies based on free market ideology. The investigations of affect theory follow the circulation of intensities – of political impingements on bodies, subjective and symbolic violence, and the shock of dispossession – within and beyond individuals to the

social and political sphere. Affect is a helpful matrix for discussing the volatile interactivity between performer and spectator, whether live or technologically mediated. Contending that there is no activism without affect, the collection brings back to the table the activist and hopeful potential of feminism.
