This book provides insight into the remarkable life and work of the Italian economist Antonio de Viti de Marco (1858-1943). This book presents eleven interviews with American and Italian scholars from various disciplines that provide a profile of this major intellectual as an economic theorist, politician, and individual. He was the founder of the pure theory of Public Finance, played an important role in the foundation of Public Choice, and was also a staunch liberal and radical politician. An English translation of one of his books, made as early as 1936, greatly influenced James M. Buchanan, Nobel prize-winner for economics.

The Arthurian Archives series of texts and editions in translation, edited by Norris J. Lacy, makes a start on Italian Arthurian material, with a 14c Tristan text. This is the first critical edition with English translation of the prose compilation Tristano panciaticchiano, preserved in a unique manuscript in the Biblioteca Nazionale of Florence (MS Panc. 33); it is the first time theItalian text has been published in its entirety in any form. Assembled by the mid-fourteenth century, the manuscript is an original compilation in Italian based on several French models: the Queste del San Graal, Josephd'Arimathie, the Mort Artu, and notably, the Roman de Tristan en prose. While the edition itself will be of great interest, the translation into English is a major opportunity for Arthurians and other medievalists, and furnishes important new evidence for the study of Arthurian material in Italy. Apparatus includes a finding list of Arthurian manuscripts produced, owned or read by Italians; a select bibliography; and an index of proper names found in the narrative.

America in Italy examines the influence of the American political experience on the imagination of Italian political thinkers between the late eighteenth century and the unification of Italy in the 1860s. Axel Körner shows how Italian political thought was shaped by debates about the American Revolution and the U.S. Constitution, but he focuses on the important distinction that while European interest in developments across the Atlantic was keen, this attention was not blind admiration. Rather, America became a sounding board for the critical assessment of societal changes at home. Many Italians did not think the United States had lessons to teach them and often concluded that life across the Atlantic was not just different but in many respects also objectionable. In America, utopia and dystopia seemed to live side by side, and Italian references to the United States were frequently in support of progressive or reactionary causes. Political thinkers including Cesare Balbo, Carlo Cattaneo, Giuseppe Mazzini, and Antonio Rosmini used the United States to shed light on the course of their nation's political resurgence. Concepts from Montesquieu, Rousseau, and Vico served to evaluate what Italians discovered about America. Ideas about American "domestic manners" were reflected and conveyed through works of ballet, literature, opera, and satire. Transcending boundaries between intellectual and cultural history, America in Italy is the first book-length examination of the influence of America's political formation on modern Italian political thought.

Storia della cucina - La cucina medievale BRILL

The sixth volume of The New Cambridge Medieval History covers the fourteenth century, a period dominated by plague, other natural disasters and war which brought to an end three centuries of economic growth and cultural expansion in Christian Europe, but one which also saw important developments in government, religious and intellectual life, and new cultural and artistic patterns. Part I sets the scene by discussion of general

themes in the theory and practice of government, religion, social and economic history, and culture. Part II deals with the individual histories of the states of western Europe; Part III with that of the Church at the time of the Avignon papacy and the Great Schism; and Part IV with eastern and northern Europe, Byzantium and the early Ottomans, giving particular attention to the social and economic relations with westerners and those of other civilisations in the Mediterranean.

This volume is dedicated to "Serenata and Festa Teatrale in 18th Century Europe", especially to the production of this music-dramatic genre at the courts on the Iberian Peninsula, in Italy, and the Holy Roman Empire where it was an integral part of court ceremonials and a privileged ritual of repraesentatio maiestatis. The 16 studies on patrons and artists, exceptional events and local traditions, reveal highly interesting material for the research on these up to now largely neglected genre. Any approach to these works full of metaphors, symbols and allusions has to take into account the context of the celebration and the resulting multiplicity of aspects: choice of themes, dramaturgical forms, textual and musical structures, vocal and instrumental ensembles, and the various options regarding the stage apparatus. "Serenata and Festa Teatrale in 18th Century Europe", edited by Iskrena Yordanova (Lisbon) and Paologiovanni Maione (Naples), inaugurates the series "Cadernos de Queluz", a subseries of "Specula Spectacula" by Don Juan Archiv Wien.

This collection of essays explores the reception of classics and translation from modern languages as two different, yet synergic, ways of engaging with literary canons and established traditions in 20th-century Italy. These two areas complement each other and equally contribute to shape several kinds of identities: authorial, literary, national and cultural. Foregrounding the transnational aspects of key concepts such as poetics, literary voice, canon and tradition, the book is intended for scholars and students of Italian literature and culture, classical reception and translation studies. With its two shifting focuses, on forms of classical tradition and forms of literary translation, the volume brings to the fore new configurations of 20th-century literature, culture and thought.

Echoing Voices in Italian Literature BRILL

The volume The Italian Method of la drammatica: its Legacy and Reception includes the long and complex investigation to identify the Italian acting-code system of the drammatica used by nineteenth-century Italian actors such as Adelaide Ristori, Giovanni Grasso, Tommaso Salvini, Eleonora Duse. In particular, their acting inspired Stanislavsky who reformedtwentieth-century stage. The declamatory code of the drammatica was composed by symbols for notation of voice and gesture which Italian actors marked in their prompt-books.The discovery of the drammatica’s code sheds new light on nineteenth-century acting. Having deciphered the phonetic symbols of the code, Anna Sica has given birth an investigation with a group of outstanding scholars in an attempt to explore the drammatica’s legacy, and its reception in Europe as well as in Asia. At this stage new evidence has emerged proving that, for instance, the symbol used by the drammatica actors to sign the colorito vocale was known to English actors in the second half of the nineteenth century.By noting how Adelaide Ristori passed on her art to Irving’s actress Genevieve Ward, and how Stanislavsky, almost aflame, moulded his system from Duse’s acting, an unexplored variety in the reception of the drammatica’s legacy is revealed.

La prima guida della cantine di Alba. La pubblicazione della guida dei produttori della città di Alba è un momento da celebrare. Si tratta infatti di uno dei primi tentativi di unire sotto un'unica bandiera i moltissimi produttori della capitale delle Langhe, creando una sinergia e un'unione che, speriamo, sia solo il primo passo di una promozione a lungo termine. L'idea che sta infatti alla base della pubblicazione è che questa funga da motore di valorizzazione, una sorta di innesco a partire dal quale i produttori albesi potranno proporsi ad eventi nazionali e internazionali con forze e contenuti che solo un solido gruppo possono garantire. La guida va dunque sfogliata "in divenire", augurandosi cioè che fondi le basi di un'associazione che continuerà a portare il nome vitivinicolo di Alba nel mondo. Ma la guida dell'Associazione Cantine di Alba va anche consultata per il suo lato pragmatico... The first guide to the wineries of Alba The publication of the guide to the wineries of the city of Alba is something to celebrate. In fact it is one of the first attempts to unite the plethora of producers in the capital of the Langhe in a common cause, creating a synergy and togetherness that we are certain is just the first step toward long-term promotion. In fact, the idea behind the publication was that it would act as a booster - a springboard for the producers of Alba to propose their participation in national and international events with the forces and the content that only a solid group can guarantee. One must therefore flip through the guide aware that it is in evolution, hoping that it will lay the foundations for an association that will continue to carry the flag of Alba's winemaking out in the world.

Tracing the history of St. Antoninus' cult and burial from the time of his death in 1459 until his remains were moved to their final resting place in 1589, this interdisciplinary study demonstrates that the saint's relic cult was a key element of Florence's sacred cityscape. The works of art created in his honor, as well as the rituals practiced at his fifteenth- and sixteenth-century places of burial, advertised Antoninus' saintly power and persona to

the people who depended upon his intercessory abilities to negotiate life's challenges. Drawing on a rich variety of contemporary visual, literary, and archival sources, this volume explores the ways in which shifting political, familial, and ecclesiastical aims and agendas shaped the ways in which St. Antoninus' holiness was broadcast to those who visited his burial church. Author Sally Cornelison foregrounds the visual splendor of the St. Antoninus Chapel, which was designed, built, and decorated by Medici court artist Giambologna and his collaborators between 1579 and 1591. Her research sheds new light on the artist, whose secular and mythological sculptures have received far more scholarly attention than his religious works. Cornelison draws on social and religious history, patronage and gender studies, and art historical and anthropological inquiries into the functions and meanings of images, relics, and ritual performance, to interpret how they activated St. Antoninus' burial sites and defined them in ways that held multivalent meanings for a broad audience of viewers and devotees. Among the objects for which she provides visual and contextual analyses are a banner from the saint's first tomb, early printed and painted images, and the sculptures, frescoes, panel paintings, and embroidered textiles made for the present St. Antoninus Chapel.

This book examines the arts and artistic exchanges at the 'Christian Oriental' fringes of Europe, especially Armenia. It starts with the architecture, history and inhabitants of the lesser known pilgrim compounds at the Vatican in the Middle Ages and Renaissance, of Hungary, Germany, but namely those of the most ancient of Churches, the Churches of the Christian Orient Ethiopia and Armenia. Without taking an Eurocentric view, this book explores the role of missionaries, merchants, artists (for example Momik, Giotto, Minas, Domenico Veneziano, Duerer), and artefacts (such as fabrics, inscriptions and symbols) travelling into both directions along the western stretch of the Silk Road between Ayas (Cilicia), ancient Armenia and North-western Iran. This area was truly global before globalization, was a site of intense cultural exchanges and East-West cultural transmissions. This book opens a new research window into the culturally mixed landscapes in the Christian Orient, the Middle East and North-eastern Africa by taking into consideration their many indigenous and foreign artistic components and embeds Armenian arts into today's wider art historical discourse. This book will be of interest to scholars in art history, architectural history, missions, trade, Middle Eastern arts and the arts of the Southern Caucasus.

Passages aims to provide an interdisciplinary and international focal point for transnational and transcultural studies. Until now such work has mostly been created from, and conveyed in, specific disciplinary languages. Passages is avowedly interdisciplinary. It regards both "transnational" and "transcultural" not as belonging to identifiable schools of thought, but as descriptions for a dynamic interconnection across disciplines. The journal examines the world of the twenty-first century from the dynamic emergence of social, textual, political and economic grounds.
