European Union Law of State Aid Amberley Publishing Limited This two volume set LNCS 8630 and 8631 constitutes the proceedings of the 14th International Conference on Algorithms and Architectures for Parallel Processing, ICA3PP 2014, held in Dalian, China, in August 2014. The 70 revised papers presented in the two volumes were selected from 285 submissions. The first volume comprises selected papers of the main conference and papers of the 1st International Workshop on Emerging Topics in Wireless and Mobile Computing, ETWMC 2014, the 5th International Workshop on Intelligent Communication Networks, IntelNet 2014, and the 5th International Workshop on Wireless Networks and Multimedia, WNM 2014. The second volume comprises selected papers of the main conference and papers of the Workshop on Computing, Communication and Control Technologies in Intelligent Transportation System, 3C in ITS 2014, and the Workshop on Security and Privacy in Computer and Network Systems, SPCNS 2014. <i>Network-on-Chip</i> Oxford University Press Addresses the Challenges Associated with System-on-Chip Integration Network-on-Chip: The Next Generation of System-on-Chip Integration examines the current issues restricting chip-on-chip communication efficiency, and explores Network-on-chip (NoC), a promising alternative that equips designers with the capability to produce a scalable, reusable, and high-performance communication backbone by allowing for the integration of a large number of cores on a single system-on-chip (SoC). This book provides a basic overview of topics associated with NoC-based design: communication infrastructure design, communication methodology, evaluation framework, and mapping of applications onto NoC. It details the design and evaluation of different proposed NoC structures, low-power techniques, signal integrity and reliability issues, application mapping, testing, and future trends. Utilizing examples of chips that have been implemented in industry and academia, this text presents the full architectural design of components verified through implementation in industrial CAD tools. It describes NoC research and developments, incorporates theoretical proofs strengthening the analysis procedures, and includes algorithms used in NoC design and synthesis. In addition, it considers other upcoming NoC issues, such as low-power NoC design, signal integrity issues, NoC testing, reconfiguration, synthesis, and 3-D NoC design. This text comprises 12 chapters and covers: The evolution of NoC from SoC—its research and developmental challenges NoC protocols, elaborating flow control, available network topologies, routing mechanisms, fault tolerance, quality-of-service support, and the design of network interfaces The router design strategies followed in NoCs The evaluation mechanism of NoC architectures The application mapping strategies followed in NoCs Low-power design techniques specifically followed in NoCs The signal integrity and reliability issues of NoC The details of NoC testing strategies reported so far The problem of synthesizing application-specific NoCs Reconfigurable NoC design issues Direction of future research and development in the field of NoC Network-on-Chip: The Next Generation of System-on-Chip Integration covers the basic topics, technology, and future trends relevant to NoC-based design, and can be used by engineers, students, and researchers and other industry professionals interested in computer architecture, embedded systems, and parallel/distributed systems. <i>Thin Air</i> Bloomsbury Publishing USA This book provides a comprehensive practitioner guide to the EU law of State aid, covering all relevant legislation, case law, and the dominant themes shaping EU State aid policy. It discusses the concept of State aid and its development in the European Union, as well as practical aspects such as procedures for notification to the European Commission, and enforcement in the European Court and national courts. It offers extensive coverage of specific sectors, including transport and shipbuilding, media and communications, energy and environmental protection, culture and	

heritage, and agriculture. The third edition is fully updated to cover the extensive legislative changes in this area, including the new General Block Exemption Regulation and De Minimis Regulation, horizontal aid guidelines, and sectoral guidelines for aviation, cinemas, agriculture, and fisheries; as well as State aid cases in the national courts, particularly the UK, and recent European Court jurisprudence. Accessible to competition lawyers and non-specialists, the book's clarity and concision make it an invaluable reference to this area of law.

The Embroidered Bible: Studies in Biblical Apocrypha and Pseudepigrapha in Honour of Michael E. Stone AFRICAN SUN MeDIA

Now in its fifth edition, this authoritative guide covers all of the core aspects of maritime law in one distinct volume. Maritime Law is written by a team of leading academics and practitioners, each expert in their own field. Together, they provide clear, concise and fully up-to-date coverage of topics ranging from bills of lading to arrest of ships, all written in an accessible and engaging style. As English law is heavily relied on throughout the maritime world, this book is grounded in English law whilst continuing to analyse the key international conventions currently in force. Brand new coverage includes: The impact of the European Union (Withdrawal Agreement) Act 2020 which amends the European Union (Withdrawal) Act 2018. Over one hundred new cases from the English courts, the Court of Justice of the European Union and the International Tribunal for the Law of the Sea. Changes to the Merchant Shipping (Registration of Ships) Regulations 1993, including the Merchant Shipping (Registration of Ships) (Amendment) (EU exit) Regulations 2019. Discussion of the Incoterms 2020 which are available for incorporation into sale contracts from 1 January 2020. Updates on litigation and amendments to the Admiralty Civil Procedure Rules. This book is a comprehensive reference source for students, academics and legal practitioners worldwide, especially those new to maritime law or a particular field therein.

Fodor's Scotland Princeton University Press

Written by experts for use by nonexperts, this monumental work probes Germany's "Genius for War" and the unmistakable pattern of tactical and operational innovation and excellence evident throughout the nation's military history. Despite having the best military forces in the world, some of the most advanced weapons available, and unparalleled tactical proficiency, Germany still lost both World Wars. This landmark, four-volume encyclopedia explores how and why that happened, at the same time examining Germany as a military power from the start of the Thirty Years' War in 1618 to the present day. Coverage includes the Federal Republic of Germany, its predecessor states, and the kingdoms and principalities that combined to form Imperial Germany in 1871. The Seven Years' War is discussed, as are the Napoleonic Wars, the Wars of German Unification (including the Franco-Prussian War), World War I, World War II, and the Cold War. In all, more than 1,000 entries illuminate battles, organizations, leaders, armies, weapons, and other aspects of war and military life. The most comprehensive overview of German military history ever to appear in English, this work will enable students and others interested in military history to better understand the sociopolitical history of Germany, the complex role conflict has played in the nation throughout its history, and why Germany continues to be an important player on the European continent.

Employment Law Essentials is a clear and concise study and revision guide for students. It contains all the essential information students need when preparing for exams and includes useful summary sections of essential facts and essential cases. An invaluable text which students can use to gain a quick understanding of a new subject, to help them through a course, or as an aid to revision for exams. This book is also an excellent resource for those who need to refresh their knowledge of employment law.

A Patient's Guide To Retinal Diseases Fodor's Travel

Myopia, also known as nearsightedness is one of the most common refractive error o the eye. A recent study by the National Eye Institute shows that the prevalence of myopia grew from 25% of

the United States Nation population (ages 12 to 54) in 1971-1972 to almost 50% in 1999 to 2004. The book is a recommended guide or patient who wants to know more about Myopia and its treatment. This book is written by Dr Gerard Chuah, who is presently the Consultant Eye Surgeon and Medical Director of the Asian Diabetic and Retinal Disease Center located at Camden Medical Center. Currently, Dr Gerard is also on the overseas register of the General Medical Council, United Kingdom and was a former clinical tutor with the National University of Singapore, a former visiting consultant to the Eye Institute, National Healthcare Group, visiting professor to the Qingdao Hai Ci Group of Hospitals, a visiting lecturer to the Shanghai Ren Ji Hospital group, former head of the Alexandra Hospital Eye Service and also former Head of Business Development of the Eye Institute, National Healthcare Group. On 2001-2005, he was also the Chairman of the National Kidney Foundation Children's Medical Fund.

Scotland Highlands & Islands Footprint Handbook Springer

The book reports on the 11th International Workshop on Railway Noise, held on 9 – 13 September, 2013, in Uddevalla, Sweden. The event, which was jointly organized by the Competence Centre Chalmers Railway Mechanics (CHARMEC) and the Departments of Applied Mechanics and Applied Acoustics at Chalmers University of Technology in Gothenburg, Sweden, covered a broad range of topics in the field of railway noise and vibration, including: prospects, legal regulations and perceptions; wheel and rail noise; prediction, measurements and monitoring; ground-borne vibration; squeal noise and structure-borne noise; and aerodynamic noise generated by high-speed trains. Further topics included: resilient track forms; grinding, corrugation and roughness; and interior noise and sound barriers. This book, which consists of a collection of peer-reviewed papers originally submitted to the workshop, not only provides readers with an overview of the latest developments in the field, but also offers scientists and engineers essential support in their daily efforts to identify, understand and solve a number of problems related to railway noise and vibration, and to achieve their ultimate goal of reducing the environmental impact of railway systems.

When the rain stops falling and the mist clears there is no more beautiful place on earth than Scotland's Highlands and Islands. Footprint's Scotland Highlands & Islands gives you everything you need to get the most out of Europe's last great wilderness: the loveliest glens and lochs, the spookiest places, the most evocative castles and most glorious beaches. • Great coverage of all the jaw-dropping scenery including national parks, mountains, castles, glens and lochs. • Comprehensive listings from B&Bs, bothies and baronial castles to where to enjoy a wee dram of malt whiskey • Loaded with information and suggestions on how to get off the beaten track, from puffin-spotting to horse riding • It includes fantastic mapping and inspiring color section to help you plan your way around the vibrant cities, stunning highlands and hundreds of islands.

Footprint's fully updated Scotland Highlands & Islands is packed with all the information you need to get the best out of this breathtaking region.

Rick Steves Scotland Penguin

Prospective homeschoolers are parents looking for an alternative to the mainstream educational system for their offspring. But homeschooling children at high school level strikes fear into even the most dedicated of homeschoolers. They need information and answers to their questions. And with the current educational and unemployment problems in South Africa, young people need clear direction and guidance to help them achieve their goals. In addition to exploring the popular ways to gaining a recognised matric certificate outside the formal school system, Homeschooling High School also challenges readers to rethink their values, particularly the value they place on certification, and to consider some unconventional or alternative paths to success. In a clearly presented format, the book includes advice on legal matters, identifying appropriate courses, sourcing study material, tips on entrepreneurship, financing tertiary studies and the testimonies of successful homeschooled graduates. Homeschooling High School is a comprehensive guide to plotting a path through high school and beyond.

The new, full-colour Rough Guide to Scotland is the definitive travel guide to this gem of a country. In-depth coverage of its burgeoning food scene, artistic innovations and awe-inspiring wild places - from remote, Gaelic-speaking islands to untamed, ruggedly beautiful glens - takes you to the most rewarding spots, with striking colour photography bringing everything to life. Whether you're wild camping or staying in chic B&Bs, you can discover adventure and solitude in equal measure with our expert advice on where to spot wild dolphins, stunning hikes to deserted beaches and the best places to slurp seasonal oysters and "nose" original whiskies. The guide includes clear maps and insider reviews to take you straight to the best hotels, restaurants, bars and music venues for all budgets, ensuring that you won't miss a thing. Scotland is heaven for "slow travel", but the guide also includes extensive coverage of the country's premier cities, Edinburgh and Glasgow, plus details on all the best places to ski, surf and mountain bike if you fancy picking up the pace a little. Make the most of your time with The Rough Guide to Scotland. Now available in ePub format.

DK Eyewitness Travel Guide: Scotland Rough Guides UK

Every two years, industry leaders and practitioners from around the world gather at the Rapid Excavation and Tunneling Conference (RETC), the authoritative program for the tunneling profession, to learn about the most recent advances and breakthroughs in this unique field. The information presented helps professionals keep pace with the ever-changing and growing tunneling industry. This book includes the full text of 106 papers presented at the 2021 conference. Though the tunneling industry continues to develop both technically and contractually, one notable adaptation of the last two years has been the onset and management of COVID-19. The hallmarks of tunneling professionals include adaptability, resiliency, optimism, and management of change. These are traits that have been recently put to an entirely new challenge over the last year or so. We have truly witnessed why what we do is deemed "essential" infrastructure. The COVID-19 pandemic has impacted each of us, personally and professionally, and while times have been hard, we are fortunate to work in a field that is able to meet the challenge and thrive thereafter. Congratulations are in order to everyone in our industry for keeping the planning and development of projects moving forward and for maintaining safe and productive worksites in these challenging times.

The Ness of Brodgar ISEAS-Yusof Ishak Institute

Die boek beoog om die verhaal van die Kaapse Helpmekeer as katalisator in die ekonomiese opheffing van Afrikaners in die vaarwater van die Rebelle van 1914-15 te vertel. In die proses was die Kaapse Helpmekeer, met sy fokus op opvoeding en onderwys, 'n bemiddelaar in Afrikaner-opheffing, selfrespek en aansien. Dit was dus 'n fasiliteerder van Afrikaner sosiale mobiliteit. As 'n kredietverskaffer vir tersiere opleiding van Afrikaanse studente vir meer as 'n honderd jaar, verteenwoordig die verhaal in 'n sekere sin die verhaal van Afrikaners - van hul armblanke-status in die vroeë 20ste eeu tot vooruitstrewende burgers van die kapitalistiese verbruikerskultuur van die 21ste eeu. Die verhaal van die Kaapse Helpmekeer resoneer in die sin ook met die huidige debatte rondom die finansiering van tersiere onderrig. Dit verskaf 'n Afrikaner-antwoord op 'n 20ste eeuse #feesmustfall-uitdaging wat, ten spyte van die verskil in konteks, 'n templaar en 'n benadering voorhou waarby 'n 21ste eeuse Suid-Afrika steeds baat kan vind.

Homeschooling High School Penguin

The story of the North Boats from the First World War to the present day.

House of Commons - Transport Committee: Forging Ahead?: UK Shipping Strategy - HC 630 Vernon Press

Glaucoma is associated with a buildup of pressure within the eyes, which causes the damage to the optic nerves. Vision gets worse over time resulting in gradual loss of sight. Although glaucoma cannot be cured, it can be controlled with treatments. Glaucoma accounts for 40% of blindness in Singapore. This book is written by Dr Gerard Chuah, a leading eye surgeon in Asia and also the Medical Director of the Asian Diabetic and Retinal Disease Center and his team of doctors. The book wonderfully summarized the symptoms and treatments options of glaucoma.

Creating Effective Teaching and Learning Spaces: Shaping Futures and Envisioning Unity in Diversity and Transformation Edinburgh University Press

Written by locals, Fodor's travel guides have been offering expert advice for all tastes and budgets for 80 years. People travel to Great Britain for the hipness of London, the cozy thatched-roof villages of the Cotswolds, or the wild moors and lochs of Scotland, but all want the most worthwhile destinations and savvy travel tips at a glance. The full-color Fodor's Essential Great Britain provides this with a selective collection of the best of England, Scotland, and Wales.
