REBEKAH COMPTON

Combo: Loose Leaf Version for Anatomy & Physiology: A Unity of Form and Function with Connect Access Card McGraw-Hill Science, Engineering & Mathematics

Read it, See it, Master it! Read it- Ken Saladin explains human anatomy in an engaging, yet efficient way. He puts a premium on the words, and uses student-relevant analogies to motivate the reader. See it- Saladin's collection of illustrations and photos are carefully chosen to support the text discussion. Vibrant and realistic presentations engage students. Master it- With Connect and A&P Revealed, students can practice and improve their understanding of concepts. From the most pedagogically sound organization to the exceptional art, to the integration of text with technology, Saladin has formed a teaching system that will both motivate and enable students to understand and appreciate the wonders of human anatomy. This distinctive text was developed to stand apart from all other anatomy texts with an approach borne out of more than 30 years of teaching, unparalleled art, and a writing style that has been acclaimed by reviewers. Designed for a one-semester college anatomy course, Saladin requires no prior knowledge of chemistry or cell biology. *Loose Leaf for Human Anatomy* McGraw-Hill Science, Engineering & Mathematics

Essentials of Anatomy & Physiology is a text that blends up-to-date science, stimulating writing, high-quality art, and cutting-edge educational technology to provide the most effective teaching and learning program available in the one-semester anatomy and physiology courses. The distinctive pedagogy of the text revolves around the theme of "Elevate Learning". From "Base Camp" to "Assess Your Learning Outcomes", the student experiences a clear sense of the path ahead, a convenient means of charting progress, and a satisfying sense of accomplishment at the end. *Essentials of Anatomy and Physiology* has additional resources available in McGraw-Hill Education's ConnectPlus® and LearnSmart™, authored by Steve Sullivan to reflect the content and style of the textbook authors, and to help foster clarity for students.

SmartBook Access Card for Human Anatomy McGraw-Hill Education

Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, how they need it, so that your class time is more engaging and effective. Read it, See it, Master it! Read it - Ken Saladin explains human anatomy in an engaging, yet efficient way. He puts a premium on the words, and uses student-relevant analogies to motivate the reader. With Saladin, students engage in the story of anatomy and physiology. Memorable stories must be effective in multiple ways. The story must paint a strong visual picture. The story must weave in tools to make the reader remember important events and understand their impact. Ken Saladin weaves graceful descriptions of human anatomy and physiology processes together with carefully selected clinical applications and fascinating stories from the history of medicine and evolutionary medicine to create a multi-layered story about the human body. A consistent set of chapter learning tools helps students identify and retain key concepts while the stunning visual program provides a realistic view of body structures and processes. The sixth edition is further improved by a complete integration of the text with extensive digital teaching and learning tools. Saladin's text requires no prior knowledge of college chemistry or cell biology, and is designed for a two-semester A&P course. *Essentials of Anatomy & Physiology* Rex Bookstore, Inc.

The McFarland/Wise: *Essentials of Anatomy & Physiology Laboratory Manual* is intended for the one-semester A&P Laboratory course, which is often taken by allied health students. It may be used with the Saladin/McFarland: *Essentials of Anatomy & Physiology* textbook, or as stand-alone essentials of anatomy & physiology manual in conjunction with any one-semester A&P textbook. This full-color manual is designed for students with minimal backgrounds in science who are pursuing careers in allied health fields. It includes 25 exercises that support most areas covered in a one-semester A&P course, allowing instructors the flexibility to choose those exercises best suited to meet their particular instructional goals. Each exercise is based on established Learning Outcomes and contains hands-on activities with the essentials-level student in mind.

SmartBook™ is the first and only adaptive reading experience designed to change the way students read and learn. It creates a personalized reading experience by highlighting the most impactful concepts a student needs to learn at that moment in time. As a student engages with SmartBook, the reading experience continuously adapts by highlighting content based on what the student knows and doesn't know. This ensures that the focus is on the content he or she needs to learn, while simultaneously promoting long-term retention of material. Use SmartBook's real-time reports to quickly identify the concepts that require more attention from individual students—or the entire class.
